**City Will Control Medical In-
spection.**

Medical inspection of school children by the city is the plan for the ensuing year, according to a unanimous vote by the city council last night. The matter had been previously referred to a committee, which brought in a report, the minority being in favor of having inspection placed in the hands of a health officer appointed by the city to inspect school children, the expense not to exceed fifteen cents per pupil.

That medical inspection by the city would be more far-reaching, benefiting parochial as well as public schools, was the idea expressed by Supt. Charles W. Schwab, who appeared before the council and spoke in favor of the majority report. He added that both Father Redding and Rev. Maack had expressed themselves as heartily in favor of such a procedure on the part of the city.

Eight members of the board of education were present at the meeting of the council, among whom was Isaac P. Witter, president of the board. Characterizing such an action as a wise and progressive one, Mr. Witter strongly recommended that inspection of school children be placed in the control of the city. It showed plainly that it would cost the city no more money to take the matter in hand than to leave it in previous years to the school board, as long as school money comes primarily through city appropriations.

After a short talk by L. M. Nash concerning the advantages of medical school inspection a motion was made by Guy Nash to accept the minority report and thus place the inspection in the hands of the city. The council voted unanimously.

Some Tall Millet.

Paul J. Jurek of the town of Rudolph, brought in a sample of Italian Millet last week that measures just about six feet in length. The seed is so small that he purchased of the Central Hardware Company in this city and he is well pleased with the result.

Charles Schneider has been appointed chairman of the town of Seneca on account of the resignation of George Hermann.

R. J. Wood, President. L. M. Alexander, Vice President.
Guy O. Babcock, Cashier. Warren G. Fisher, Asst. Cashier.

**Local Team Takes Two Good
Games.**

Four scores by the Green Bay Banners in the last four innings prevented Sunday's game from being a one-sided one. Nelson's good work on the mound attracted attention all the way through, and the final score of 5 to 4 gives evidence of good batting by the home team.

Tuesday's game against Fox Lake was one of the fastest of the season. A three bagger by Talbot in the ninth and then a clever sacrifice by Jesso made the score 1 to 0. Art Orowus, of Nekosia, who is with the Fox Lake aggregation this season, was caught on home in the first inning. Dodge, who threw for the visitors, allowed three hits and struck out six, while Pae, of Fond du Lac, pitched for Grand Rapids, allowed only one hit and struck out eight.

Enlarging Store.

Mrs. C. Dunigan has made some changes in her store known as the air, located at the west end of the bridge, of late. The partition that formerly divided the store has been taken out, giving them a greatly increased space for the display of goods, and the stock has been added to until the new place is entirely filled. A general line of novelty goods carried, and they have also added a complete line of the Armor Plate hosiery to their stock.

County Normal is Crowded.

The popularity of the teachers' training school was attested by more than a full house at nine o'clock yesterday morning. Last year the Wood County Normal held in attendance the twenty-five other institutions of its kind throughout the state, and this year the school still maintains its position. Students are assembled from all parts of the county, and a spirit of industry and earnestness marks the beginning of their year's work.

Charles Schneider has been appointed chairman of the town of Seneca on account of the resignation of George Hermann.

Visited Childhood Scenes.

Writers of poetry and prose have had so much to say about the pleasures of visiting childhood scenes, and sitting beside the old swimming hole, and picking apples from the old trees and shaking hands with the old friends, that the Tribune man got all worked up about the matter and decided to take a trip back to the state of Illinois where he was born and "raised". It was thirty-one years since the aforementioned Tribune man strayed the mud of Illinois from his brogue and started for the wilds of Wisconsin to howl out a fortune.

When we say "howl," we are speaking literally for the first three winters were spent in making railroad ties of the cedar and hemlock persuasion, and while there may be harder ways of making a living, still that of swinging an ax if persisted in day after day, will give the average growling boy a pretty good idea of what manual labor is. Well, thirty-one years is a long time to be away from home and naturally there are some changes during the lapse of a generation. The old swimming hole had dried up, the apple trees had long ago been cut down, our old playmates had either died, moved, married or suffered some like calamity. Those that remained were gray headed and in grand olden days, all of which served to emphasize how old Father Time marches on and finds you out, no matter whether you are hiding in the wilds of Wisconsin or playing corn down in the old state of Illinois.

Illinois was quite a state from an agricultural standpoint long before the democrats decided to revise the tariff, the writer's father having settled there in 1847. It didn't take them long to discover that corn was a good crop to raise there, and they have been raising it ever since. In traveling thru the state one is impressed with the immensity of the cornfields and the prevalence of fruit trees, especially apples, peaches and pears, with an occasional vineyard. They laugh at the idea of a failure of crops, for the oldest inhabitant cannot remember anything of the kind. A man with one hundred and sixty acres of farm land is as independent and takes life much more easily than the manager of a National bank up in this country.

Many of the farmers own automobiles and when they want anything in town they crank up and jump into the machine, whizzers, cinders and all and run to town in a few minutes, have a talk with the boys, have their bank filled (that is, their gasoline tank) and "light" for home. Saloons are not so much in evidence down in that country and many of the small towns are dry. In the places where we visited there were only four saloons, although a place of about three thousand people, but a saloon pays a license fee of \$200. The saloons are not allowed on the main street the city also designating where they shall be located. The people move a trifle slower down in that country than they do here, and they do not demand so many amusements as here, seeming to be satisfied to know that things are moving along smoothly, secure in the knowledge that the corn crop will turn out all right and that the price of pork will be a remunerative one. They do not do a great deal of traveling and many can be found who have lived in the same town all their life, with only an occasional trip to the nearest big town to break the monotony of everyday life. It is probably an ideal life but does not appeal strongly to a northern man. Many of the smaller towns have nothing in the shape of a manufacturing plant, living entirely from the surrounding farming community. The trip to the old home town was made by auto, giving an excellent chance to view objects of interest along the way. The town of Illinois are much different from those of the northern country, there being many black walnut and hickory along the road, which are loaded with nuts at this time of the year, while many of the older fields are surrounded with Osgo orange hedges, also this method of fencing has been largely abandoned of late years and given way to barbed wire. Nearly every farm has some sort of an orchard, which in most instances is near the road, and apples and peaches may be picked from a rig if the passer-by feels so inclined. Much coal is mined in Illinois, and in some parts of the state there are many small mines which are apparently only worked occasionally for home consumption. In many parts of the state there is very little wood left, and the coal is used exclusively. However the fuel problem is not quite so strenuous down in that country, as the warm weather hangs on later in the fall, and comes earlier in the spring, also there are plenty of times when mercury goes below the zero mark. The trucks of Illinois average up better than they do in Wisconsin, many of the main highways being built up of gravel, and are quite smooth. The dirt roads, however, are no better than those of Wisconsin, and during wet weather are much worse than ours ever become. Altogether it was a most pleasant trip of more than one thousand miles and served to impress the traveler with the idea that while Wisconsin may not be perfection, still it is not such a bad country to live in after all.

Plans will soon be in progress for a social function to be given at the nearest opportunity, and although this phase of the work was found impossible to carry out during the first year of the organization, there is no doubt but that the social side will be provided for every year hereafter.

Will Open Photo Studio.

Matt Kaudy has leased the second story of the Wheeler and Kruger building on First street and intends to put a skylight into the building and open a photograph studio there in the near future. Mr. Kaudy has been looking for a location for some time past and decided that Grand Rapids was all right.

**Consolidated and Biron Paper
Mills Are Merged.**

The Grand Rapids Pulp & Paper Company and the Consolidated Paper & Paper Company have merged by a vote taken at separate meetings of the stockholders of each company. The capital stock of the Consolidated will be increased from \$200,000 to \$250,000, and with this new increase the stock of the Biron company will be taken up. The name of the Grand Rapids Pulp & Paper Company will be eliminated.

The officers of the Biron company were P. P. Dixon, of La Crosse, president, Charles F. Kellogg, of this city, vice president, Wm. Scott, of Port Arthur, Canada, secretary, and George W. Mead, of Grand Rapids, treasurer. Those of the Consolidated are P. MacKinnon, president, R. L. Kraus, of Marshfield, vice president, Isaac P. Witter, treasurer, and George W. Mead, secretary. With the two companies under the same management, J. H. Wright will give his attention to both of the concerns, and Mr. Mead will continue the management of the two.

Get Your Exhibits Ready.

The Flower and Vegetable show will be held this week Friday and Saturday, September 8 and 9 at the Amusement Hall. Make your entries on Thursday if possible. The hall will be open all that day and some one will be in attendance to take your exhibit. If you bring out flowers please bring a vase or bowl for them as we could not possibly provide receptacles for every one. Only the children will be given prizes, other displays will be marked with a ribbon for first and second prizes.

All exhibits must be in by Friday evening at six o'clock. The judges will place the ribbons and awards Saturday morning and Sept. 8, 9, 10, will award the prizes Saturday evening.

Little, But Oh My.

The wrestling match between John Little of Milwaukee and Bob Fredricks of Nekosia at Dalys' Theatre on Thursday evening was rather a tame affair, as Fredricks failed to throw Little even once in the hour, although he had expected to put him down three times and would have had to do so in order to win the match.

Little weighed about 150 pounds, while the big Nekosia grappler tipped the beam at 210 and it looked as if he ought to pick the Milwaukee boy up and put him on the mat at any old time the notion struck him.

The first thirty minutes were quite tame and Fredricks made several attempts to put the little fellow down, but was unable to turn the trick. Then it apparently dawned upon the Nekosia wrestler that he had tackled more than he could handle and he spent the balance of the time stalling around the ring, part of the time on the defensive.

City Gas Plant Urged.

There has been considerable agitation of late among the people of this city for the institution of a gas plant, and thereby make the lighting facilities of Grand Rapids equal to those of other cities of the same size. The city electric company has already secured the franchise for the construction of a plant, but whether or not one will be built is still in doubt.

In connection with this agitation interest has been shown by outside parties, among whom is G. W. Alt, of Fox Lake, who was in the city last Thursday and Friday, representing the Warren and Pottery Company, contractors and builders of gas and electric plants. Mr. Alt conferred with the electric company here and will send an estimate to the near future.

Odegar Heads Alumni.

Carl Odegar was elected president of the High School Alumni at their second annual meeting last Friday night. The other officers for the following year are Marvin Hatch, Vice President; Ryland Boorman, Secretary; Roy Thornton, Treasurer. Mrs. B. J. Olenit and Miss Rena Phillips will have charge of the press and social committees respectively.

Plans will soon be in progress for a social function to be given at the nearest opportunity, and although this phase of the work was found impossible to carry out during the first year of the organization, there is no doubt but that the social side will be provided for every year hereafter.

Wrestling Match.

Dave Sharkey of Randolph was in the city on Monday. Mr. Sharkey is billed for a wrestling match with Bob Fredericks at Randolph, next Saturday evening, best two out of three falls to win. The match will take place in Maroon's hall, with the usual price of admission.

New Dredge Now Complete.

The sixth dredging machine put out by the U. S. Road Construction Company is now complete, in excellent running order and on its way to Cleveland, Louisiana. A rigid test has proven that the dredge is ready for the work which awaits it. As for its appearance, it is a splendid piece of mechanism worth one's time to see.

The construction of the new dredge was commenced about the first of July, under the supervision of M. W. Vandenberg, who will locate ton shortly at Cleveland and started working. It is operated by a thirty two horse power gasoline engine, and equipped with a one way dipper, the possibilities of the machine can be well imagined.

The White Lake Land Company, of which A. L. Arpin of this city is president, is to be the working hold for the new dredge. Eighty thousand acres comprise this tract of land, upon which ditches will be dug and pumping stations installed for the purpose of regulating the supply of water. J. C. Bell, of Grand Rapids, president of the J. C. Bell Dredging Company, has taken the contract for this piece of work and has left with his family for Louisiana to take up his work.

**Catholic Federation to Meet
Here**

M. L. Carey, Louis Nesquette, and John Jung were sent from here as delegates to Two Rivers to the state convention of the Federation of Catholic Societies, which closed Monday. They bring home the news that Grand Rapids will be the next headquarters for the convention next year.

The enthusiasm which the Grand Rapids delegates showed at the convention proved conclusively that they were loyal backers for the home town. They report that the reception they received at Two Rivers was a royal one, including several nice boat rides on the lake and exhibitions by the life saving crew.

To the Public.

—After Sunday, Sept. 10th, there will be no delivery of Sunday papers. All readers of Sunday papers must call for them and pay for them at the time, as no accounts will be carried for Sunday papers.

The regular Dailies will be distributed as usual and all accounts must be settled at end of each month or papers will be stopped.

This step is absolutely necessary from a business standpoint, as it costs more to deliver the Sunday papers than there is profit in them. Papers will be on sale at Church's Drug store on west side, and Arnold's Fruit Store on east side.

Broom Factory May Locate.

With the view of looking over the grounds for the establishment of a new broom factory in this city, James McKenzie, of Minneapolis, was in Grand Rapids Monday talking over the proposition with a few of our business men. He was exceedingly well pleased with the place and has almost decided to make this his permanent place of business. Mr. McKenzie has been in correspondence with the Commercial Club for some time, and he states that within a few days he will know definitely whether or not he will locate here.

Foster Watches.

Miss T. Foster, well known for the past two seasons among the local social set, was married Monday evening to Miss Ellen Wade at the home of the bride's parents, Mr. and Mrs. Herman Wade, Rev. Maack of the East Side German Lutheran church, performing the ceremony. Miss Estelle Hughes, head nurse at the hospital, and Henry Wade, brother of the bride, acted as bridesmaid and best man.

Mr. and Mrs. Foster departed Monday night for Chicago with the intention of going from there to Cleveland, Louisiana, where the former will hold a position with the J. C. Bell Dredging Company.

Public Schools Again in Session.

Monday morning witnessed the beginning of another school year, with 311 students enrolled in the high school and eighth grade combined. Several more appeared for registration yesterday morning, making in all about 316 up to the second day.

There is an excellent spirit prevailing among the students, according to a statement made by Supt. Charles W. Schwab yesterday afternoon. He says that they all exhibit a feeling of responsibility in their work, which is manifested by the interest they show in selecting their courses of study.

YOUR CONSIDERATION PLEASE

FALL OPENING

The New Fall Garments

We cannot recall the time when our announcement of the first showing of the new season's garments has given us such genuine pleasure. The formal exhibition is to begin

Friday and Saturday, September 8th and 9th.

In such points as correct style, high quality of workmanship, desirable models, snappy creations, perfect fit and full, complete values, we are abundantly able to please you. Fortunately for us, and for you, these garments all carry this label: "The PALMER Garment." For many years the reputation enjoyed by this line has not been equalled, and this reputation, secured through merit only, is guarded jealously. The garments are made in the best possible manner. Not only do the garments excel in style and fit, but they render the service so much desired.

We most cordially invite you to attend this opening exhibition of the new Fall styles. While we shall not object to making sales, we want you to understand that the prime motive of this event is to show the goods—to have you come, inspect critically and pass your judgment. You are sure to be delighted with the beautiful showing that is ready for you.

The people move a trifle slower down in that country than they do here, and they do not demand so many amusements as here, seeming to be satisfied to know that things are moving along smoothly, secure in the knowledge that the corn crop will turn out all right and that the price of pork will be a remunerative one. They do not do a great deal of traveling and many can be found who have lived in the same town all their life, with only an occasional trip to the nearest big town to break the monotony of everyday life. It is probably an ideal life but does not appeal strongly to a northern man. Many of the smaller towns have nothing in the shape of a manufacturing plant, living entirely from the surrounding farming community. The trip to the old home town was made by auto, giving an excellent chance to view objects of interest along the way. The trees of Illinois are much different from those of the northern country, there being many black walnut and hickory along the road, which are loaded with nuts at this time of the year, while many of the older fields are surrounded with orange hedges, altho this method of fencing has been largely abandoned of late years and given way to barbed wire. Nearly every farm has some sort of an orchard, which in most instances is near the road, and apples and peaches may be picked from a rig if the passer-by feels so inclined. Much coal is mined in Illinois, and in some parts of the state there are many small mines which are apparently only worked occasionally for home consumption. In many parts of the state there is very little wood left, and the coal is used exclusively. However the fuel problem is not quite so strenuous down in that country, as the warm weather hangs on later in the fall, and comes earlier in the spring, altho there are plenty of times when mercury goes below the zero mark. The roads of Illinois average up better than they do in Wisconsin, many of the main highways being built up of gravel, and are quite smooth. The dirt roads, however, are no better than those of Wisconsin, and during wet weather are much worse than ours ever become. Altogether it was a most pleasant trip of more than one thousand miles, and served to impress the traveler with the idea that while Wisconsin may not be perfect, still it is not such a bad country to live in after all.

**Consolidated and Biron Paper
Mills Are Merged.**

The Grand Rapids Pulp & Paper Company and the Consolidated Water Power & Paper Company have merged by a vote taken at separate meetings of the stockholders of each concern. The capital stock of the Consolidated will be increased from \$200,000 to \$700,000, and with this new increment the stock of the Biron company will be taken up. The name of the Grand Rapids Pulp & Paper Company will be eliminated. The officers of the Biron company were F. P. Hixon, of LaCrosse, president; Charles F. Kellogg, of this city, vice president; Wm. Scott, of Port Arthur, Canada, secretary; and George W. Mead, of Grand Rapids, treasurer. Those of the Consolidated are F. MacKinnon, president; R. L. Kraus, of Marshfield, vice president; Isaac P. Witter, treasurer; and George W. Mead, secretary. With the two companies under the same management, J. H. Wright will give his attention to both of the concerns, and Mr. Mead will continue the management of the two.

Get Your Exhibits Ready.

The Flower and Vegetable show will be held this week Friday and Saturday, September 8 and 9, at the Amusement Hall. Make your entries on Thursday if possible. The hall will be open all that day and some one will be in attendance to take your exhibit. If you bring out flowers please bring a vase or bowl for them as we could not possibly provide receptacles for every one. Only the children will be given prizes; other displays will be marked with a ribbon for first and second prizes. All exhibits must be in by Friday evening at six o'clock. The judges will place the ribbons and awards Saturday morning and Sept. Schwede will award the prizes Saturday evening.

The Amusement Hall will be open to the general public on Friday morning at 9:30 and it will be open evenings. A small admission fee will be charged. We do not expect to make any money; we only hope to clear expenses.

All who can should attend this show to encourage the children in their home garden work and in the work of beautifying their premises, thereby improving our city, for these boys and girls are our future citizens who must carry on the good work that has been begun.

Little, But Oh My.

The wrestling match between John Little of Milwaukee and Bob Fredericks of Nekosia at Dalys' Theater on Thursday evening was rather a tame affair, as Fredericks failed to throw Little even once in the hour, although he had expected to put him down three times and would have had to do so in order to win the match.

Little weighed about 155 pounds, while the big Nekosia grappler tipped the beam at 210 and it looked as if he ought to pick the Milwaukee boy up and put him on the mat at any old time the notion struck him. The first thirty minutes were quite busy and Fredericks made several attempts to put the little fellow down, but was unable to turn the tick. Then it apparently dawned upon the Nekosia wrestler that he had tackled more than he could handle and he spent the balance of the time stalling around the ring, part of the time on the defensive.

It was the general opinion of those present that had the match gone to a finish that Little would have thrown his big opponent.

Fredericks seems to have plenty of strength but if he does not develop more speed and learn more about the game he had better give up wrestling as a profession as he is at the present time only an ordinary third rater.

City Gas Plant Urged.

There has been considerable agitation of late among the people of this city for the institution of a gas plant, and thereby make the lighting facilities of Grand Rapids equal to those of other cities of the same size. The city electric company has already secured the franchise for the construction of a plant, but whether or not one will be built is still in doubt. In connection with this agitation interest has been shown by outside parties, among whom is G. W. Alt, of Fox Lake, who was in the city last Thursday and Friday, representing the Warren and Pettegrew Company, contractors and builders of gas and electric plants. Mr. Alt conferred with the electric company here and will send an estimate in the near future.

If there is to be a gas plant at all it will probably be built before the streets are paved next spring, consequently it is hoped by many that Mr. Alt's plans and figures will be attractive enough to be acceptable. He states that the so-called water gas is the most suitable for Grand Rapids because this particular form of gas freezes very slowly, thus making it unnecessary for the pipes to be buried very far under the surface.

Odegard Heads Alumni.

Earl Odegard was elected president of the High School Alumni at their second annual meeting last Friday night. The other officers for the following year are Marvin Hatch, Vice President; Ryland Boorman, Secretary; Roy Thornton, Treasurer. Mrs. B. J. Olomit and Miss Rena Phillo will have charge of the press and social committees respectively.

Plans will soon be in progress for a social function to be given at the nearest opportunity, and although this phase of the work was found impossible to carry out during the first year of the organization, there is no doubt but that the social side will be provided for every year hereafter.

New Dredge Now Complete.

The sixth dredging machine put out by the C. W. Root Construction Company stands complete, in excellent running order, and on its way to Graydon, Louisiana. A rigid test has proven that the dredge is ready for the work which awaits it. As for its appearance, it is a splendid piece of mechanism worth one's time to see. The construction of the new dredge was commenced about the first of July, under the supervision of M. W. Vandenberg, who will locate temporarily at Graydon for the purpose of getting it set up and started satisfactorily. Operated by a thirty-five horse power gasoline engine, and equipped with a one yard dipper, the possibilities of the machine can be well imagined.

The White Lake Land Company, of which A. L. Arpin of this city is president, is to be the working field for the new dredge. Eighty thousand acres comprise this tract of land, upon which ditches will be dug and pumping stations installed for the purpose of regulating the supply of water. J. O. Bell, of Grand Rapids, president of the J. O. Bell Dredging Company, has taken the contract for this piece of work, and has left with his family for Louisiana to take up his work.

C. W. Root, whose constant supervision has brought the dredge to a hurried and successful completion, is a mechanic of the progressive type, and best methods of dredging. The company which bears his name was organized less than a year ago with George M. Hill and K. B. Redford the other two members, and during its short existence has sent out five machines in addition to the one just finished. One of these is in the hands of Guy N. Potter, another is being worked by O. G. Ekholm, and the other three, at Elm Lake, City Point, and Alberta, are working under contract taken on directly by the company itself.

Catholic Federation to Meet Here

M. L. Carey, Louis Nequette, and John Jung were sent from here as delegates to Two Rivers to the state convention of the Federation of Catholic Societies, which closed Monday. They bring home the news that Grand Rapids will be the headquarters for the convention next year.

The enthusiasm which the Grand Rapids delegates showed at the convention proved conclusively that they were loyal boosters for the home town. They report that the reception they received at Two Rivers was a royal one, including several nice boat rides on the lake and exhibitions by the life saving crew.

To the Public.

After Sunday, Sept. 10th, there will be no delivery of Sunday papers. All readers of Sunday papers must call for them and pay for them at the time, as no accounts will be carried for Sunday papers.

The regular Dailies will be distributed as usual and all accounts must be settled at end of each month or papers will be stopped. This step is absolutely necessary from a business standpoint, as it costs more to deliver the Sunday papers than there is profit in them. Papers will be on sale at Church's Drug store on west side, and Arndt's Fruit Store on east side.

Epk. Ohuroh,
News Agent.**Broom Factory May Locate.**

With the view of looking over the grounds for the establishment of a new broom factory in this city, James McKenzie, of Minneapolis, was in Grand Rapids Monday talking over the proposition with a few of our business men. He was exceedingly well pleased with the place and has almost decided to make this his permanent place of business. Mr. McKenzie has been in correspondence with the Commercial club for some time, and he states that within a few days he will know definitely whether or not he will locate here.

Foster-Wachs.

Miss T. Foster, well known for the past two seasons among the local baseball fans, was married Monday evening to Miss Ellen Wachs at the home of the bride's parents, Mr. and Mrs. Herman Wachs, Rev. Masok of the East Side German Lutheran church, performing the ceremony. Miss Estelle Hughes, head nurse at the hospital, and Henry Wachs, brother of the bride, acted as bridesmaid and best man.

Mr. and Mrs. Foster departed Monday night for Chicago with the intention of going from there to Graydon, Louisiana, where the former will hold a position with the J. C. Bell Dredging Company.

Public Schools Again in Session.

Monday morning witnessed the beginning of another school year, with 811 students enrolled in the high school and eighth grade combined. Several more appeared for registration yesterday morning, making in all about 316 up to the second day.

There is an excellent spirit prevailing among the students, according to a statement made by Sept. Charles W. Schwede yesterday afternoon. He says that they all exhibit a feeling of responsibility in their work, which is manifested by the interest they show in selecting their courses of study.

Wrestling Match.

Dave Sharkey of Rudolph was in the city on Monday. Mr. Sharkey is billed for a wrestling match with Bob Fredericks at Rudolph, next Saturday evening, best two out of three falls to win. The match will take place in Marceon's hall, with the usual price of admission.

FALL OPENING

The New Fall Garments

We cannot recall the time when our announcement of the first showing of the new season's garments has given us such genuine pleasure. The formal exhibition is to begin

Friday and Saturday, September 8th and 9th.

In such points as correct style, high quality of workmanship, desirable models, snappy creations, perfect fit and full, complete values, we are abundantly able to please you. Fortunately for us, and for you, these garments all carry this label: "The PALMER Garment." For many years the reputation enjoyed by this line has not been equalled, and this reputation, secured through merit only, is guarded jealously. The garments are made in the best possible manner. Not only do the garments excel in style and fit, but they render the service so much desired.

We most cordially invite you to attend this opening exhibition of the new Fall styles. While we shall not object to making sales, we want you to understand that the prime motive of this event is to show the goods—to have you come, inspect critically and pass your judgment. You are sure to be delighted with the beautiful showing that is ready for you.

**City Will Control Medical In-
spection.**

Medical inspection of school children by the city is the plan for the ensuing year, according to a unanimous vote by the city council last night. The matter had been previously referred to a committee, which brought in a split report, the minority being in favor of having inspection placed in the hands of a health officer appointed by the city to inspect school children, the expense not to exceed fifteen cents per pupil.

That medical inspection by the city would be more far-reaching, benefiting parochial as well as public schools, was the idea expressed by Supt. Charles W. Schwede, who appeared before the council and spoke in favor of the minority report. He added that both Father Reding and Rev. Maack had expressed themselves as heartily in favor of such a procedure on the part of the city.

Eight members of the Board of Education were present at the meeting of the council, among whom was Isaac P. Witter, president of the board. Characterizing such an action as a wise and progressive one, Mr. Witter strongly recommended that inspection of school children be placed in the control of the city. He showed plainly that it would cost the city no more money to take the matter in hand than to leave it in previous years to the school board, as long as school money comes primarily through city appropriations.

After a short talk by L. M. Nash concerning the advantages of medical school inspection a motion was made by Guy Nash to accept the minority report and thus place the inspection in the hands of the city. The council voted unanimously.

Some Tall Millet.

Paul Joneau of the town of Rudolph, brought in a sample of Italian Millet last week that measures just about six feet in length. The seed is some that he purchased of the Central Hardware Company in this city and he is well pleased with the result.

Local Team Takes Two Good Games.

Four scores by the Green Bay Bakers in the last four innings prevented Sunday's game from being a one-sided one. Nelson's good work on the mound attracted attention all the way through, and the final score of 5 to 4 gives evidence of good batting by the home team.

Tuesday's game against Fox Lake was one of the fastest of the season. A three bagger by Talbot in the ninth and then a clever sacrifice by Jesse made the score 1 to 0. Art Cronus, of Nekeosa, who is with the Fox Lake aggregation this season, was caught on home in the first inning. Dodge, who threw for the visitors, allowed three hits and struck out six, while Foss, of Tomahawk, pitching for Grand Rapids, allowed only one hit and struck out eight.

Enlarging Store.

Mrs. K. Dunigan has made some changes in her store known as the air, located at the west end of the bridge of late. The partition that formerly divided the store has been taken out, giving them a greatly increased space for the display of goods, and the stock has been added to until the new place is entirely filled. A general line of novelty goods carried, and they have also added a complete line of the Armor Plate hosiery to their stock.

County Normal is Crowded.

The popularity of the teachers' training school was attested by more than a full house at nine o'clock yesterday morning. Last year the Wood County Normal held in attendance the twenty-five other institutions of its kind throughout the state, and this year the school still maintains its position. Students are assembled from all parts of the county, and a spirit of industry and earnestness marks the beginning of their year's work.

Charles Schrader has been appointed chairman of the town of Seneca on account of the resignation of George Hermann.

E. Roenius, Judson G. Rosebush, L. E. Nash, T. E. Mullen,
Guy O. Babcock.**Visited Childhood Scenes.**

Writers of poetry and prose have had so much to say about the pleasures of visiting childhood scenes, and sitting beside the old swimming hole, and picking apples from the old tree and shaking hands with the old friends, that the Tribune man got all worked up about the matter and decided to take a trip back to the state of Illinois where he was born and "raised." It was thirty-one years since the aforementioned Tribune man scraped the mud of Illinois from his breeches and started for the wilds of Wisconsin to hew out a fortune. When we say "hew," we are speaking literally for the first three winters were spent in making railroad ties of the cedar and hemlock persuasion, and while there may be harder ways of making a living, still that of swinging an ax if persisted in day after day, will give the average growing boy a pretty good idea of what manual labor is. Well, thirty-one years is a long time to be away from home and naturally there are some changes during the lapse of a generation. The old swimming hole had dried up, the apple tree had long ago been cut down, our old playmates had either died, moved, married or suffered some like calamity. Those that remained were gray headed and had grand-children, all of which served to emphasize how old Father Time marches on and flaps you out, no matter whether you are hiding in the wilds of Wisconsin or plowing corn down in the old state of Illinois.

Illinois was quite a state from an agricultural standpoint long before the democrats decided to revive the tariff, the writer's forefathers having settled there in 1837. It didn't take them long to discover that corn was a good crop to raise there, and they have been raising it ever since. In traveling thru the state one is impressed with the immensity of the cornfields and the prevalence of fruit trees, especially apples, pears and peaches, with an occasional vineyard. They laugh at the idea of a failure of crops, for the oldest inhabitant cannot remember anything of the kind. A man with one hundred and sixty acres of farm land is as independent and takes life much more easily than the manager of a National bank up in this country.

Many of the farmers own automobiles and when they want anything in town they crank up and jump into the machine, whisks, overalls and all and run to town in a few minutes. have a talk with the boys, have their tank filled (that is, their gasoline tank), and "git" for home. Saloons are not so much in evidence down in that country and many of the small towns are dry. In the place where we visited there were only four saloons, although a place of about three thousand people, but a saloon pays a license fee of \$2000. The saloons are not allowed on the main street the city dais designating where they shall be located. The people move a trifle slower down in that country than they do here, and they do not demand so many amusements as here, seeming to be satisfied to know that things are moving along smoothly, secure in the knowledge that the corn crop will turn out all right and that the price of pork will be a remunerative one. They do not do a great deal of traveling and many can be found at their life, with only an occasional trip to the nearest big town to break the monotony of everyday life. It is probably an ideal life but does not appeal strongly to a northern man. Many of the smaller towns have nothing in the shape of a manufacturing plant, living entirely from the surrounding farming community. The trip to the old home town was made by auto, giving an excellent chance to view objects of interest along the way. The trees of Illinois are much different from those of the northern country, there being many black walnut and hickory along the road, which are loaded with nuts at this time of the year, while many of the older fields are surrounded with Osgood orange hedges, also this method of fencing has been largely abandoned of late years and given way to barbed wire. Nearly every farm has some sort of an orchard, which in most instances is near the road, and apples and peaches may be picked from a rig if the passer-by feels so inclined. Much coal is mined in Illinois, and in some parts of the state there are many small mines which are apparently only worked occasionally for home consumption. In many parts of the state there is very little wood left, and the coal is used exclusively. However the fuel problem is not quite so strenuous down in that country, as the warm weather hangs on later in the fall, and comes earlier in the spring, although there are plenty of times when mercury goes below the zero mark. The roads of Illinois average up better than they do in Wisconsin, many of the main highways being built up of gravel, and are quite smooth. The dirt roads, however, are no better than those of Wisconsin, and during wet weather are much worse than ours ever become. Altogether it was a most pleasant trip of more than one thousand miles and served to impress the traveler with the idea that while Wisconsin may not be perfection, still it is not such a bad country to live in after all.

Consolidated and Biron Paper Mills are Merged.**New Dredge Now Complete.**

The Grand Rapids Pulp & Paper Company and the Consolidated Water Power & Paper Company have merged by a vote taken at separate meetings of the stockholders of each concern.

The capital stock of the Consolidated will be increased from \$200,000 to \$700,000, and with this new increment the stock of the Biron company will be taken up. The name of the Grand Rapids Pulp & Paper Company will be eliminated.

The officers of the Biron company were F. P. Hixon, of LaCrosse, president; Charles E. Kellough, of this city, vice president; Wm. Scott, of Port Arthur, Canada, secretary; and George W. Mead, of Grand Rapids, treasurer. Those of the Consolidated are F. MacKinnon, president; R. L. Krans, of Marshfield, vice president; Isaac P. Witter, treasurer; and George W. Mead, secretary. With the two companies under the same management, J. H. Wright will give his attention to both of the concerns, and Mr. Mead will continue the management of the two.

Get Your Exhibits Ready.

The Flower and Vegetable show will be held this week Friday and Saturday, September 8 and 9, at the Amusement Hall. Make your entries on Thursday if possible. The hall will be open all that day and some one will be in attendance to take your exhibit. If you bring cut flowers please bring a vase or bowl for them as we could not possibly provide receptacles for every one. Only the children will be given prizes; other displays will be marked with a ribbon for first and second prizes.

All exhibits must be in by Friday evening at six o'clock. The judges will place the ribbons and awards Saturday morning and Sept. Schwede will award the prizes Saturday evening.

The Amusement Hall will be open to the general public on Friday morning at 9:30 and it will be open evenings. A small admission fee will be charged. We do not expect to make any money; we only hope to clear expenses.

All who can should attend this show to encourage the children in their home garden work and in the work of beautifying their premises, thereby improving our city, for these boys and girls are our future citizens who must carry on the good work that has been begun.

Little, But Oh My.

The wrestling match between John Little of Milwaukee and Bob Frederichs of Nekeosa at Dalys' Theater on Thursday evening was rather a tame affair, as Frederichs failed to throw Little even once in the hour, although he had expected to put him down three times and would have had to do so in order to win the match.

Little weighed about 155 pounds, while the big Nekeosa grappler tipped the beam at 210 and it looked as if he ought to pick the Milwaukee boy up and put him on the mat at any old time the notion struck him.

The first thirty minutes were quite busy and Frederichs made several attempts to put the little fellow down, but was unable to turn the tick. Then it apparently dawned upon the Nekeosa wrestler that he had tackled more than he could handle and he spent the balance of the time stalling around the ring, part of the time on the defensive.

It was the general opinion of those present that had the match gone to a finish that Little would have thrown his big opponent. Frederichs seems to have plenty of strength but if he does not develop more speed and learn more about the game he had better give up wrestling as a profession as he is at the present time only an ordinary third rater.

City Gas Plant Urged.

There has been considerable agitation of late among the people of this city for the institution of a gas plant, and thereby make the lighting facilities of Grand Rapids equal to those of other cities of the same size. The city electric company has already secured the franchise for the construction of a plant, but whether or not one will be built is still in doubt.

In connection with this agitation interest has been shown by outside parties, among whom is G. W. Alt, of Fox Lake, who was in the city last Thursday and Friday, representing the Warren and Pettegreen Company, contractors and builders of gas and electric plants. Mr. Alt conferred with the electric company here and will send an estimate in the near future.

If there is to be a gas plant at all it will probably be built before the streets are paved next spring, consequently it is hoped by many that Mr. Alt's plans and figures will be attractive enough to be acceptable. He states that the so-called water gas is the most suitable for Grand Rapids because this particular form of gas freezes very slowly, thus making it unnecessary for the pipes to be buried very far under the surface.

Odegard Heads Alumni.

Carl Odegard was elected president of the High School Alumni at their second annual meeting last Friday night. The other officers for the following year are Marvin Hatch, Vice President; Ryland Boorman, Secretary; Roy Thornton, Treasurer. Mrs. B. J. Close and Miss Rena Phillips will have charge of the press and social committees respectively.

Plans will soon be in progress for a social function to be given at the nearest opportunity, and although this phase of the work was found impossible to carry out during the first year of the organization, there is no doubt but that the social side will be provided for every year hereafter.

Consolidated and Biron Paper Mills are Merged.

The Grand Rapids Pulp & Paper Company and the Consolidated Water Power & Paper Company have merged by a vote taken at separate meetings of the stockholders of each concern. The capital stock of the Consolidated will be increased from \$200,000 to \$700,000, and with this new increment the stock of the Biron company will be taken up. The name of the Grand Rapids Pulp & Paper Company will be eliminated.

The officers of the Biron company were F. P. Hixon, of LaCrosse, president; Charles E. Kellough, of this city, vice president; Wm. Scott, of Port Arthur, Canada, secretary; and George W. Mead, of Grand Rapids, treasurer. Those of the Consolidated are F. MacKinnon, president; R. L. Krans, of Marshfield, vice president; Isaac P. Witter, treasurer; and George W. Mead, secretary. With the two companies under the same management, J. H. Wright will give his attention to both of the concerns, and Mr. Mead will continue the management of the two.

The White Lake Land Company, of which A. L. Arpin of this city is president, is to be the working field for the new dredge. Eighty thousand acres comprise this tract of land, upon which ditches will be dug and pumping stations installed for the purpose of regulating the supply of water. J. C. Bell, of Grand Rapids, president of the J. C. Bell Dredging Company, has taken the contract for this piece of work, and has left with his family for Louisiana to take up his work.

C. W. Road, whose constant supervision has brought the dredge to a hurried and successful completion, is a mechanic of the progressive type, taking a keen interest in the newest and best methods of dredging. The company which bears his name was organized less than a year ago with George M. Hill and E. B. Redford the other two members, and during its short existence has sent out five machines in addition to the one just finished. One of these is in the hands of Guy N. Potter, another is being worked by C. G. Ekelund, and the other three, at Elm Lake, City Point, and Alberta, are working under contract taken out directly by the company itself.

Catholic Federation to Meet Here

M. L. Carey, Louis Noquette, and John Jung were sent from here as delegates to Two Rivers to the state convention of the Federation of Catholic Societies, which closed Monday. They bring home the news that Grand Rapids will be the headquarters for the convention next year.

The enthusiasm which the Grand Rapids delegates showed at the convention proved conclusively that they were loyal boosters for the home town. They report that the reception they received at Two Rivers was a royal one, including several nice boat rides on the lake and exhibitions by the life saving crew.

To the Public.

After Sunday, Sept. 8th, there will be no delivery of Sunday papers. All readers of Sunday papers must call for them and pay for them at the time, as no accounts will be carried for Sunday papers.

The regular Dailies will be distributed as usual and all accounts must be settled at end of each month or papers will be stopped.

This step is absolutely necessary from a business standpoint, as it costs more to deliver the Sunday papers than there is profit in them. Papers will be on sale at Church's Drug Store on east side, and Arrault's Fruit Store on east side.

Ept. Church,
News Agent.**Broom Factory May Locate.**

With the view of looking over the grounds for the establishment of a new broom factory in this city, James McKenzie, of Minneapolis, was in Grand Rapids Monday talking over the proposition with a few of our business men. He was exceedingly well pleased with the place and has almost decided to make this his permanent place of business. Mr. McKenzie has been in correspondence with the Commercial club for some time, and he states that within a few days he will know definitely whether or not he will locate here.

Foster-Wachs.

Miles T. Foster, well known for the past two seasons among the local baseball fans, was married Monday evening to Miss Ellen Wachs at the home of the bride's parents, Mr. and Mrs. Herman Wachs, Rev. Maack of the East Side German Lutheran church, performing the ceremony. Miss Estella Hagel, head nurse at the hospital, and Henry Wachs, brother of the bride, acted as bridesmaid and best man.

Mr. and Mrs. Foster departed Monday night for Chicago with the intention of going from there to Gueydan, Louisiana, where the former will hold a position with the J. C. Bell Dredging Company.

Public Schools Again in Session.

Monday morning witnessed the beginning of another school year, with 311 students enrolled in the high school and eighth grade combined. Several morning sessions for registration yesterday morning, making in all about 316 up to the second day.

There is an excellent spirit prevailing among the students, according to a statement made by Supt. Charles W. Schwede yesterday afternoon. He says that they all exhibit a feeling of responsibility in their work, which is manifested by the interest they show in selecting their courses of study.

Wrestling Match.

Dave Sharkey of Rudolph was in the city on Monday. Mr. Sharkey is billed for a wrestling match with Bob Frederichs at Rudolph, next Saturday evening, best two out of three falls to win. The match will take place in Marceau's hall, with the usual price of admission.

FALL OPENING**The New Fall Garments**

We cannot recall the time when our announcement of the first showing of the new season's garments has given us such genuine pleasure. The formal exhibition is to begin

Friday and Saturday, September 8th and 9th.

In such points as correct style, high quality of workmanship, desirable models, snappy creations, perfect fit and full, complete values, we are abundantly able to please you. Fortunately for us, and for you, these garments all carry this label: "The PALMER Garment." For many years the reputation enjoyed by this line has not been equalled, and this reputation, secured through merit only, is guarded jealously. The garments are made in the best possible manner. Not only do the garments excel in style and fit, but they render the service so much desired.

We most cordially invite you to attend this opening exhibition of the new Fall styles. While we shall not object to making sales, we want you to understand that the prime motive of this event is to show the goods—to have you come, inspect critically and pass your judgment. You are sure to be delighted with the beautiful showing that is ready for you.

**First
Show-
ing of****JOHNSON & HILL COMPANY**

GRAND RAPIDS, WIS.

THE BUSYBODY.

We shun them at every opportunity. These busybodies who pose as our friends when really they are quite the contrary, and who seem to think they are endowed by a special act of Providence with regaining the affairs of their neighbors as well as of those who would rather not be their neighbors. It is easy to comprehend how such persons earn their characterization and easier still for us to apply such a description to all those who in any way display what we regard as an undue interest in our affairs. It is possible, however, that the cap which we place so unhesitatingly upon the heads of certain persons would prove a better fit for us if we could persuade ourselves to "try it on." Unquestionably the mere suggestion to some of us that we could ever overstep the limit of our friendly interest in others is distasteful, and in many cases probably unwarranted, yet it is true that one of the distinctive characteristics of the present age, with its freedom of living and its consequent sacrifice of many of those refining and restraining influences that were so vital a part of another and more distant day, is the readiness with which we indulge our curiosity. Not satisfied nowadays with the bestowal of a confidence which is sufficient, perhaps, to pique our interest it is not unusual for some persons to solicit further details and in other ways to evince a too eager concern in the affairs of others.

Quintus Frensen's "Klaus Hirsch" reminds one of "David Copperfield" in its long deliberative unrolling of a life history up to middle age, and a little, too, in its general plan, with its unhappy love marriage followed by a more satisfactory union, says the London "Times." But Frensen plows deep in the field of moral and social problems, and his plot is convincing—we are not obliged to take the facts on the honor of the narrator. The hero is a peasant's son—a place of tough, proud, blood-bred Norman German humanity. In one moment of bitter disillusionment he makes himself what his too great teachers, school and church, had done for him except mislead him. They had given him fables, impossible idealisms, "two gospels, the gospel of the Savior and the gospel of Schiller, but of true, genuine knowledge of life not a vestige." How he gets this knowledge is the theme of the book; a fine and moving story which flows on in a broad stream of incident and character that gives a singularly powerful impression of the massiveness and variety of life.

New York is protesting against a new danger in the reckless driving of automobiles by boys and girls through the streets, and legal means are to be sought to prevent the lives of citizens being put in danger by children. The automobile, in some way, seems to be associated with disregard of the rights of pedestrians to an extent which has rendered it a menace of civilization, as well as one of its luxuries. But as far as children are concerned, they should be legally restrained from being allowed in charge of any vehicle. They are too fond of any kind of power and too irresponsible in its use—an exceedingly dangerous combination.

Now it is discovered that the famous pirate, Captain Kidd, who, according to the old song, "much wickedness he did as he sailed," was really no pirate at all, but an honest and good-hearted old sailor. But there are some cherished illusions to which the mind will always cling, and it will require more authority than is given to induce the popular imagination to accept a romantic and picturesque pirate as an uninteresting and commonplace good honest man.

Another rich American girl is to marry an English nobleman. The next generation of the British peerage will be as much American as English, if those international marriages keep on, and with such an infusion of Americanism, even the famous British conservatism and love of tradition may give way to a startling extent. But the nation seems not to care for this American danger as long as it can assimilate so much of the American coin.

A dreadnaught is a formidable object, but it affords a shining mark for a little aeroplane flitting hither and yonder among the clouds. In a few years, perhaps, somebody will build an aeroplane destroyer.

From Honey Creek, Ind., comes the story that a bolt of lightning dug a well and found water after a farmer had tried in vain for years. Evidently Honey Creek is trying to compete with Winsted, Conn.

A Pennsylvania pastor, getting \$30 a month salary, has been ordered to pay his wife \$3 monthly alimony. How true it is that "to him that hath shall be given, and from him that hath not even that which he hath shall be taken away."

One railroad is to teach politeness to its employees. It will be great to get the soft answer which turneth away wrath when one has just missed the 7:19 train.

Chicago doctors have demonstrated that one can separate a human being from his aura, but the operation will never become as widespread as that of separating him from his bank account.

A dozen chickens were hatched out by the sun when a Massachusetts hen deserted her nest during the recent hot spell. That hen ought to be ashamed to look her chicks in the face.

DAMAGE UPWARD OF \$1,000,000;
GREATEST LOSS IN SOUTH-
EASTERN SECTION.

TWO DROWNED AT SAVANNAH

Hotel Guests on Isle of Palms Spend Night of Terror—Six Torpedo Boats Torn From Moorings and Driven Ashore.

Charleston, S. C.—At least 15 persons are dead as the result of the storm which swept this city. Conservative estimates of the damage place the loss at upward of \$1,000,000. Both bridges into the city have been badly damaged.

The greatest damage was suffered in the southeastern section of Charleston. Shipping has suffered heavily, but it is impossible at this time to fix the loss in dollars. Scores of launches have been broken away and efforts are being exerted to catch them.

Heavy rains have contributed to the height of the water in the streets and yards caused by the abnormal tide, many lower floors being inundated and household effects being damaged.

The Clyde Line steamer Apache made port after a thrilling experience off this harbor during the hurricane. Passengers were life preservers for several hours and were prepared to leave the ship at any moment.

It is stated by passengers that the steamer was kept at work at the points a few hours, although the captain denies the tale.

Savannah's parks are scenes of desolation as a result of the wind. Two men are reported to have been drowned in Laxmeire creek.

Augusta, Ga.—Seventy-five guests of the hotel on the Isle of Palms spent a night of terror while the storm raged. Congregated in the lobby, the only spot immune from the wind and rain, women wept and prayed, and one man had a pistol in readiness to shoot himself to avoid drowning.

Washington.—The storm which swept the South Atlantic left its imprint on the navy. Six torpedo boats were wrecked on their moorings at the Charleston navy yard and tossed as toys high upon the beach by the gale. Many buildings of the yards are believed to be wrecked.

DISHONESTY IN ARMY POSTS

Major-General Grant Recommends That They Be Managed by Civilians.

Washington.—The revelation of irregularities in some of the post exchanges in the department of the east during the fiscal year, which ended recently, has caused Maj.-Gen. Frederick D. Grant to recommend to the war department that post exchanges be placed in the hands of civilians.

Bad management and dishonesty has been disastrous to two post exchanges, he says, causing the loss of funds and the trial of one officer and several enlisted men. He attributes the trouble primarily to the fact that the army officers, occupied with military duties, are unable to give the exchanges the proper attention.

SHIP SEA-CROSSING BALLOON

Monster Air Craft Is Ready for Attempt to Fly Across Atlantic.

Akron, O.—Molvin Vaniman's balloon, with which he and five others will attempt to fly across the Atlantic ocean October 22, will be shipped from Akron to Atlantic City, having just been completed in a local rubber factory. As soon as the framework of steel tubing is attached and the balloon inflated in the mammoth hangar the airship will be christened the Akron with fitting ceremony.

The Akron is the only dirigible of the first class ever built this side of the Atlantic. It is 268 feet long, or about thirty feet longer than the American, which was lost in the ocean as a sequel to the Walter Wellman expedition last year.

CIGARETTE STARTS A BLAZE

Careless Smoker Drops Stub Among Light Cigarettes and Causes Fire in Cincinnati Hotel.

Cincinnati.—The stub of a light cigarette, carelessly thrown into an open suit case filled with light fabrics last night caused a fire at the Burnet house, one of Cincinnati's leading hotels.

A ten-bell alarm, calling upon all available fire companies, was turned in, but the fire was extinguished with small loss. All of the guests were taken from the building in safety.

WILL CALL ARIZONA ELECTION.

Phoenix, Ariz.—Governor Sloan received from President Taft an official certification of the passage of the statehood resolution which authorizes him to issue a proclamation for an election of state officers and for a vote on the recall of the judiciary.

W. C. T. U. Hits Mrs. Reese. John, Kan.—Judge D. B. D. Sheltzer's action in sentencing Mrs. Ella Reese to work with the city chain gang has been indorsed by the W. C. T. U. of Humboldt, near here.

Mayor Seldel Is Rued. Milwaukee.—Circuit Judge F. C. Eschweiler began a suit for \$50,000 against Mayor Emil Seldel, in which he alleges that the mayor slandered him in remarks made during a speech at Dayview in the last judicial campaign.

Upton Sinclair Sues Wife. New York.—Upton Sinclair, author and Socialist, brought suit against his wife, Meta Fuller Sinclair, for divorce on statutory grounds. Harry Kemp is named as co-respondent.

Girl's Auto Injures Woman. Dickinson, N. D.—Mrs. M. H. Linney was run down by a automobile and probably fatally injured. The car was driven by Miss Ethel Peck, who was entertaining girl friends.

Potter Heads Risk Folk. Milwaukee.—Fred W. Potter, superintendent of insurance of Illinois, was elected president of the National Association of State Insurance Commissioners. H. R. Cunningham secretary.

DRIVER BUCK AND MECHANICIAN
JACOBS KILLED AT ELGIN.

Nearly 100 Persons Hurt When Grand Stand Collapses, Precipitating 2,000 to Ground.

Elgin, Ill.—Tragedy raced with the record-breaking speed demons here and overtook one of the cars in which two men were careening around the road course. Just before the winner of the National trophy dashed across the finish line, one of the automobiles of the Popo-Hartford type, jumped into the air and turned a somersault. The mechanic, Samuel Jacobs, was killed instantly and the driver, David Buck, suffered injuries that resulted in his death a short time later.

The trophy was won by Len Zengel in a National car, who ran at an average speed of 65.45 miles an hour, four miles an hour faster than the record of 1910.

Zengel sustained an engine killing speed for the 300 miles. His car ran in splendid luck, outlasting Ralph Mulford's Lozier, Ralph De Palma's Simplex and Spencer Wishart's Simplex, three of the most touted cars in the race. Every one of them fell before the tremendous pace, leaving the trophy between Zengel, Grant and Hughes, who finished in the order named.

The crowd had a touch of excitement not on the program at the end of the first lap when the grand stand folded up like a window shutter and tobogganed 2,000 persons to the ground.

It was at first thought that there were some fatal injuries, but investigation showed that the worst sufferers sustained nothing more than a broken limb. Nearly a hundred persons in all sustained bruises and other minor hurts.

BEATTIE CONFESSED, SAYS KIN

Accused Virginian's Cousin Paul Gives Damaging Evidence Against Defendant at Trial.

Chesterfield Courthouse, Va.—Paul Beattie, cousin of the man now on trial for his life in connection with the murder of his young wife, made his effort to send Harry Clay Beattie, Jr., to the electric chair.

With the least hesitation Paul Beattie declared that Harry Beattie had himself said that he killed the bride of a year. This testimony created a sensation not equaled since the murder of Mrs. Beattie.

The prosecution sprung another surprise when it introduced as a witness, without warning, Mrs. R. V. Owen, mother of the slain girl.

In a taxibail, the arrival of which was timed to coincide with the moment Sheriff Kirk exhibited in the courtroom the clothing worn by Beattie on the night of the murder, Mrs. Owen appeared and took the witness stand.

Prosecutor Wendenburg questioned Mrs. Owen as to her knowledge of the domestic life of the Beatties and brought out a point intended as relevant to the alleged motive for the murder, namely that Beattie's physical condition, due to dissipation, had caused much unhappiness to his wife.

The witness said that on the night of the murder she had cautioned Harry Beattie not to go out alone with her husband.

TRIMBLE IS CHIEF OF G. A. R.

Illinois Man Is Unanimous Choice of Veterans at Annual Encampment at Rochester.

Rochester, N. Y.—Harvey M. Trimble of Princeton, Ill., was unanimously elected commander in chief of the Grand Army of the Republic when Col. John McElroy of Washington, D. C., opponent, ended a bitter contest by withdrawing from the race. On motion of Colonel McElroy the adjutant general cast one vote for Mr. Trimble. On recommendation of the committee on resolutions, the encampment indorsed the Sherwood pension bill. Los Angeles, Cal., was selected by an almost unanimous vote for the 1912 encampment.

RACE TROUBLE IN MISSOURI

One Negro Killed, White Man Wounded in Fight Over a Pint of Whisky.

Huntsville, Mo.—Race trouble is feared as a result of a fight over a pint of whisky at a negro barboque seven miles south of here in which one negro was killed and a white man and a negro were wounded.

John and Robert Damoran, Roy Burton and William Terry were the white men in the fight. Edward Evans, a negro, was shot in the head and killed. John Damoran was cut with razors. Two of the whites and six of the negroes were arrested.

Kaiser Has Narrow Escape.

Berlin.—The Kaiser narrowly escaped injury in a collision between two trains, which occurred on the track adjoining that on which his special train was standing. The accident occurred at Luebeck, Germany.

Lawson After 80,000-Acre Ranch. Greeley, Colo.—Thomas W. Lawson, Boston financier, is negotiating for 80,000 acres of land 45 miles north-east of Greeley. He intends to raise fancy cattle and horses for exhibition and racing purposes.

Balls to Death in Bathtub. Waterloo, Ia.—E. A. Morgan, a well-known business man of this city, was literally cooked to his death in a bathtub. Mr. Morgan was subject to attacks of vertigo and it is thought he suffered an attack while allowing the water to run into the tub.

Commits Suicide at Seventy-Four. New Orleans, La.—Samuel H. Shoemaker, seventy-four years old, a prominent merchant of this city, committed suicide here; ill health being assigned as the cause.

Sandfly Cause of Pellagra? Topeka, Kan.—Believing the sandfly causes pellagra, Prof. S. J. Shubert, of the Kansas State university, has sent four expert bacteriologists to various parts of the state to collect specimens of the fly and its larvae for examination.

Boy Dies of Broken Neck. Minneapolis, Minn.—Martin Gray, sixteen years old, who lived for six weeks with a broken neck, is dead. His case was a puzzle to physicians and surgeons.

400 FLEE FLAMES

FIRE IN CHICAGO OFFICE BUILDING IMPERILS LIVES OF SCORES.

COOL HEADS PREVENT PANIC

Elevator Operators Stick to Post Until Last Person Leaves Burning Structure—Police Rescue Telephone Operator Overcome by Smoke.

Chicago.—Fire starting in a store-room of the Chicago and Alton Railway company in the Pullman building, Harrison street and Fifth avenue, imperiled the lives of 400 men, women and girls employed on the eighth and ninth floors.

Only a few were injured slightly, cool-headed men and women preventing a stampede that might have resulted in great loss of life. With scores of frightened women clinging to the fire escapes men in the street gave warning that there was no great danger and prevented several from jumping.

A. B. Greig proved the hero of the elevators. He was the operator of one and he never left his post until the last person was out of the building. When he brought down the final "load," he had to be carried from his car, but quickly revived in the open air. The three other elevator men also did heroic work, all sticking to their cars till the last.

The loss is estimated at \$25,000, not including priceless records of the Chicago & Alton railroad.

29 ARE KILLED IN WRECK

G. A. R. Veterans Returning From Rochester Meeting Among Victims of Accident.

Rochester, N. Y.—The Chicago, Buffalo & New York express on the L. V. Valley railroad, loaded with Grand Army men returning from the Rochester encampment, was wrecked at Manchester. Twenty-nine persons lost their lives and 60 were injured.

WOMAN TO RUN POSTAL BANK

Chosen to Manage Savings Concern at Los Angeles Because of Special Fitness.

Los Angeles, Cal.—When the postal savings bank opens in Los Angeles it is to be in charge of Mrs. B. C. Shelton, who for years has been assistant superintendent of the money order division. She was once connected with the auditor's division in Washington. Postmaster Harrison says he selected Mrs. Shelton for this responsible position because of her fitness for the place. It is said she is the first woman to be placed in charge of a postal savings bank.

MAN KILLS BABIES AND SELF

Oxford Graduate's Deed Due to Grief Over Wife's Death—Uses Chloroform and Cyanide.

Thomaston, Me.—Grief over the death of his wife led Edward Bennett, an Englishman and a graduate of Oxford university, England, who had been a resident of this town for the last six years, to murder his three children and then take his own life.

Two of the children were killed by the use of chloroform and the third by cyanide of potassium and chloroform. To make his own death certain the man went to the water's edge and there swallowed a quantity of cyanide of potassium and jumped in.

Iron Mine's Shops Burn.

Duluth, Minn.—Fire destroyed the machine shops of the Hawkins mine, belonging to the International Harvester company at Nashua, Minn., on the Mesaba iron range. The damage was \$50,000.

Canada Seizes U. S. Schooner. Ottawa, Ont.—The gasoline schooner Sarah of Seattle was taken into New Westminster Harbor in charge of a Canadian fishery protective cruiser while fishing. It is alleged within the three-mile limit.

Kentuckian Kills Two. Pineville, Ky.—In a revolver battle here Calvin Miracle shot and killed Matthew Jones and immediately after killed Mrs. William Gibson. Miracle killed Mrs. Gibson to prevent her testifying against him in court.

Fire Wipes Out Town. Elmhurst, Mo.—Fire practically destroyed this town, the loss being estimated at \$200,000. A sawmill, \$100,000 worth of lumber, six stores and 14 residences were destroyed.

Two Railroad Men Killed. Black River Falls, Wis.—A hand car loaded with laborers was struck by a freight train here last week, killing brakeman and a laborer, and injuring several others. The engine and several cars left the track.

Lippincott Jewels Are Stolen. Newport, R. I.—A daring theft of jewels from the summer home here of J. B. Lippincott, the publisher, was reported by the police. They estimate the value of the stolen property at \$2,000.

26 KILLED IN PANIC

FUSE BLOWS OUT AT MOVING PICTURE SHOW.

Dead and Dying Piled in Single Stairway in Frantic Rush to Escape.

Camdenburg, Pa.—Twenty-six persons were killed and sixty injured in a panic which followed the explosion of a moving picture film in the Grand opera house in this city. Of the dead thirteen were children under fifteen years of age and seven were women.

Operator John McCullough had just thrown the title of the next series of pictures on the screen, "A Little Child Shall Lead Them," when the film exploded and his asbestos cabinet was filled with flames.

Some one yelled "Fire!" and the 1,500 people in the audience turned in their seats, saw the smoke and made a frantic rush for the one doorway leading to the narrow eight-foot stairway, with 50 steps leading up from a vestibule. Here they piled down on 200 people crowded into the passage, awaiting the end of the performance to take the places of those who had seen the show.

Immediately the narrow stairway was packed and jammed ten feet high with the dead and dying, the shrieking injured and the screaming hurt.

29 ARE KILLED IN WRECK

G. A. R. Veterans Returning From Rochester Meeting Among Victims of Accident.

Rochester, N. Y.—The Chicago, Buffalo & New York express on the L. V. Valley railroad, loaded with Grand Army men returning from the Rochester encampment, was wrecked at Manchester. Twenty-nine persons lost their lives and 60 were injured.

SANITARY BOARD
CERTIFICATES VOID

Bancroft Holds Tuberculin Tests Are Illegal.

MUST PASS EXAMINATION

Decision of Attorney General Is Important and of Large Interest to Farmers Who Have Had Testing Done.

Madison.—Attorney General Bancroft has held that all certificates issued by the state livestock sanitary board, giving permission to the holders to administer the tuberculin test to cattle under the law passed in 1909, are void and the holders thereof not entitled to administer such test under the law. It is also held that before persons, not regularly registered as veterinarians, may be permitted to administer the tests under the law of 1911, applicants must pass another civil service examination.

The situation arose through a mix-up by the legislature of 1909. A law was passed which contained a section which provided for the holding of civil service examinations for the purpose of issuing permits to non-veterinarians to administer the tuberculin test. The law became effective on June 12, 1909. Then another bill was passed repealing the former measure except that portion of it which provides for the holding of the examinations and issuing the permits.

The minimum tax for improving a piece of road is \$400. One or both of several taxes can be voted providing the total of all taxes does not exceed three mills on the town's valuation, unless by a three-quarters vote the limit is raised to five mills. If there is no county system of prospective state highways laid out in the county, taxes can be voted and the town board selects the roads or bridges to be built after a county board selects a system.

If an improvement is voted, the town board must apply to the county board through the county clerk on or before September 1 for county aid on the improvement.

For Equal Suffrage During Fair.

The Wisconsin Woman's Suffrage association has been assigned a choice location at the fair grounds by Superintendent Wiley. A large tent, decorated with United States flags and red, white and blue bunting and the interior decorated with yellow chrysanthemums, will be pitched between the education and publicity buildings.

The plans for the week are as yet incomplete. The association hopes to invite different organizations for the various days of the week, creating a variety of interest and the privilege of these organizations to participate in their work and arranging a program of their own, reserving the right, however, to give one address on woman's suffrage by some eminent speaker during each session.

There will be no special program on woman's day.

The suggestion of woman's day came to the state fair board through the Wisconsin Woman's Suffrage association, and this association now feels in duty bound to exert every effort to help make this day a success and give such assistance to the chairman of the day, as it may be called upon to give.

LABOR IS TRUE ALCHEMY.

"Labor is the only true alchemy. The laborer alone really transmutes base metals into gold by giving value to things before found worthless. Labor on the farm, in the mines and in the forest adds to the sum of raw materials adapted to man's use. Labor in the shop, factory and mill fits products thus wrested from stubborn nature to practical ends and the satisfaction of human wants. The laborer, therefore, is the real creator of wealth."

To the end that our people may unite in showing proper respect for the dignity of labor and do honor to him who tills, I, Francis E. McGovern, governor of the state of Wisconsin, do hereby designate Monday, the 4th of September, 1911, as Labor day, and I earnestly recommend that so far as possible, work shall be suspended on that day in order that all workers everywhere may join as laborers with organizations of workmen in making it a day of recreation, pleasure and profitable discussion of social questions."

NEW STATE CORPORATIONS.

Articles of incorporation were filed in the office of Secretary of State Freear as follows:

Beloit Sand and Gravel company, Beloit; capital, \$30,000; incorporators, A. C. Powers, Owen Baker, H. W. Adams.

A. B. Krauth company, Phillips; capital, \$10,000; incorporators, P. De Jos Shaw, A. B. Krauth, Emma J. Krauth.

THE HIDALGO MINING AND SMELTING COMPANY OF LAKE GENEVE.

The Hidalgo Mining and Smelting company of Lake Geneva filed notice of dissolution.

HUDNALL'S HIRING ILLEGAL.

The Wisconsin railroad commission declared the practice of the Chicago & North Western of hiring men to work on the Chicago & North Western to be illegal.

FINDS WATER IS POLLUTED.

Dr. C. A. Harper, secretary of the state board of health, returned from Stevens Point, where he investigated complaints of bad condition of the water furnished by a local water company. He found the water polluted and brought several samples to be analyzed by university authorities. The company is drawing water from the Wisconsin river, but filters it in case of fire. However, water is forced into tanks without filtering and is used for drinking purposes.

SEE HEAVY POTATO CROP.

The potato crop of Wisconsin bids fair from the present outlook to reach the 2,000,000 mark, according to a local buyer who has just made a trip about the state. The yield of potatoes in the country will be about 1,800,000 bushels. The acreage in the state and county is about the same as last year, but the growing conditions all through the summer have been most propitious for a good crop. The potatoes are now in the ground and beyond danger of early frosts which usually visit us early in September.

Humane Exhibit for State Fair.

For the first time in the history of organizations for the protection of animals, an exhibition relating to this work is to be given a place in a state fair.

The Wisconsin Humane society has arranged for a tent on the fair grounds, near the machinery building, and in this there is to be shown sanitary box and closed stalls, the newest thing in managers and drinking places and the most comfortable and convenient of harnesses, exhibited on a pair of horses. Needless to say the horses on which it is shown will not be docked. Shipping baskets for poultry and other small animals will also be exhibited. These baskets are designed to prevent torture to the animals shipped.

Many other interesting exhibits will be shown, among which is a cabinet filled with instruments of torture for both children and animals, which have been taken from the users by the society.

This is but the first step taken by Superintendent H. Leif Phillips toward the organization of new branch societies throughout the state. The Wisconsin Humane society is ready to have 20 active and 25 inactive branches, mostly in the southern, eastern and western districts of the state. Mr. Phillips wants as many more in the northern part.

Vote Road Taxes Soon.

Many special town meetings will be held soon to determine whether towns will vote a tax for state aid on roads or bridges to be built in 1912. Procedure in voting these taxes will be the same as in voting taxes at regular town meetings. The question can be presented in the form of a resolution and can be voted on by acclamation or by a division of the house. If a majority of the meeting so decide, the question can be voted on by ballot, but this is not necessary.

The minimum tax for improving a piece of road is \$400. One or both of several taxes can be voted providing the total of all taxes does not exceed three mills on the town's valuation, unless by a three-quarters vote the limit is raised to five mills. If there is no county system of prospective state highways laid out in the county, taxes can be voted and the town board selects the roads or bridges to be built after a county board selects a system.

If an improvement is voted, the town board must apply to the county board through the county clerk on or before September 1 for county aid on the improvement.

For Equal Suffrage During Fair.

The Wisconsin Woman's Suffrage association has been assigned a choice location at the fair grounds by Superintendent Wiley. ILLUSTRATIONS BY RAY WALTERS

SYNOPSIS.

Howard Jeffries, banker's son, under the evil influence of Robert Underwood, fellow-student at Yale, leads a life of dissipation, marries the daughter of a gambler who died in prison, and is disowned by his father. He is out of work and in desperate straits. Underwood, who had once been engaged to Howard's step-brother, Alicia, is apparently a prosperous businessman. "Taking advantage of the intimacy with Alicia," he becomes a sort of social highwayman. Discovering the true character, Alicia denounces him. He cannot make good. Howard calls at his apartment in an intoxicated condition to request a loan of \$200 to enable him to take up a business proposition. Howard drinks himself into a maudlin condition, and goes to sleep on a divan. A caller is announced and Underwood appears. Alicia enters. She demands a promise from Underwood that he will not repeat a word of what she has said. He promises. Alicia enters. She demands a promise from Underwood that he will not repeat a word of what she has said. He promises. Alicia enters. She demands a promise from Underwood that he will not repeat a word of what she has said. He promises.

stared at her in a strange, absent-minded kind of way, until finally she lost patience. Boldly she said: "Well, you sent for me. What do you want to see me about, Judge?" "I want to tell you that you mustn't come here again," he answered. "Anything else?" she exclaimed. The Judge began to fuss with the papers on his desk, as he usually did when embarrassed for words. "Of course," he stammered, "you will be amply compensated." "Of course," she cried, rising from her chair, she shrugged her shoulders, and said: "Oh, well, this is not my lucky day. They wouldn't let me into the prison to see Howard today. Capt. Clinton doesn't like me. He has always tried to prevent my seeing Howard, but I'll see him to-morrow, captain or no captain. He can make up his mind to that!" The lawyer looked up at her. "Poor girl—you are having a hard time, aren't you?" "Things have been better," she replied, with a tremor in her voice. "Howard and I were very happy when we first—"

question. How do you account for Howard's confessing to the shooting?" "I don't account for it," she replied, as she resumed her seat. "He says he didn't confess. I don't believe he did." "But three witnesses—" she interrupted, contemptuously. "Policemen!" "That makes no difference," he said. "He made a confession and signed—" "And he signed forward," she said. "What does this question mean?" The Judge became interested after all. Her heart gave a leap as she answered eagerly: "He confessed against his will. I mean—he didn't know what he was doing at the time. I've had a talk with the physician who was called in to Dr. Bernstein. He says that Capt. Clinton is a hypnotist, that he can compel people to say what he wants them to say. Well, Howard is what they call a subject—they told him he did it till he believed he did it." "Oh, well, what's the use—" The Judge quickly put out his hand and partly pushed her back in the chair. "Don't go," he said. Then he added: "Who told you he was a hypnotic subject?" "He hopes revived once more. "Dr. Bernstein. Besides, Howard took me to himself. A friend of his at college used to make him out all sorts of capers."

CHAPTER XV.—Continued.

"You're going on the stage?" She nodded. "I've had a very big offer." The Judge leaned forward, and in a low voice, so that no one in the outer office might hear, he said: "Well, I'll give you two as much if you refuse the engagement." She laughed ironically. "You mean that my father-in-law will give it," she said, lightly. "Then she went on: "You know it's no use your asking me to concede anything unless you agree to defend Howard."

"You Take Too Much for Granted." "You know he is as incapable of that crime as you are. Alicia, Jeffries, how do you know that your husband did not kill Robert Underwood?" "I know it," she said, confidently. "Yes," persisted the Judge, "but how do you know it?" Annie looked steadily at him, and then she said solemnly: "I know there's a God, but I can't tell you how I know it, that's all. Howard didn't do it. I know he didn't."

"Every day," she replied, calmly. "I shall say it and think it until—until it comes true." Judge Brewster tried to feel angry, although inwardly he had hard work to keep from smiling. With pretended indignation, he said: "You mean that you intend to keep at me until I give way—through sheer exhaustion?" She nodded. "That's it exactly," she said. The lawyer gasped. "Well, I must say you—you're very brave."

and you know he is as incapable of that crime as you are. Alicia, Jeffries, how do you know that your husband did not kill Robert Underwood?" "I know it," she said, confidently. "Yes," persisted the Judge, "but how do you know it?" Annie looked steadily at him, and then she said solemnly: "I know there's a God, but I can't tell you how I know it, that's all. Howard didn't do it. I know he didn't."

He said nothing, and she continued: "Well, I guess I'll go home—home—that's the worst part of it—home—"

"No, I'm not," she said, earnestly. "It's an awful coward, but I'm fighting for him. Howard Jeffries lifted me up when I was way down in the world. He gave me his name. He gave me all he had, to make me a better woman, and I'm grateful. Why, even a dog has gratitude, even a dog will lick the hand that feeds him. Why should I hesitate to express my gratitude? That's all I'm doing—just paying him back a bit of the debt he owes him, and I'm going to move Heaven and earth to bring his father around to my way of thinking. I've got you already."

"The lawyer looked at her fixedly without speaking. Their eyes met, and the silence continued until it became embarrassing. Judge Brewster shook his head. "It's too bad. I'm sorry for you, really, I am." Annie laughed, and he asked: "Why do you laugh?" "What's the use of crying?" she said. "Hah! Hah! It's almost a joke. You're sorry, my father-in-law is sorry, and I suppose my mother-in-law is sorry, too. You're all sorry for me, too. You're all sorry and you're all wearing creases for us, but why can't some of you do something?"

Forgetting His Own Dinner Party. There was a surprise for a couple of men in the Hotel Knickerbocker, at New York recently when one found the other sitting at a five-course dinner alone in the room. The latter man had asked "no friends" to join him at an elaborate dinner in a private dining room, there and in an absent-minded moment had walked into the cafe, as usual. He was half way through his repast, when he was seen by one of his guests.

Another Food Boycott

When an olive-colored touring car, as big as a coal gondola, drew up in front of a stall at the market house there was some lively stepping by the marketeers. The man at the wheel wore a huge bearskin coat that must have set him back \$200; the female occupant was attired in a seal-skin that was the exact duplicate of a thousand-dollar bill, while every

barrel of the big machine proclaimed that it took \$7,000 to pry it loose from its makers. The woman approached the stall. "How much are strawberries?" she inquired. "Seventy-five a basket," replied the market man. "Seventy-five?" she gasped. "Yes, that's the price," he said. "Well, it's simply too

Look Upward. Morbid fancies, diseased imaginations, and distorted perspectives are the results of looking into the pit of shame and folly. Impelling impulse, compelling purpose toward the true, the beautiful and the good, flow from pure feeling, high thinking and slow living. That man sees little truth who gains his life and most uplifting from his living, he who has strengthened his soul by contemplation of the great and good things which bless our humanity."

HARVESTER AT WORK

Uncounted Miles of Bountiful Crops Make Glad the Farmers of Western Canada.

YIELD WILL BE RECORD ONE

Practically Beyond Reach of Accident, the Fruit of the Fertile Fields is Being Gathered—Elevators and Railroads Will Be Taxed to Their Capacity.

On a beautiful Saturday afternoon, four weeks ago, the writer started for a twenty-mile drive into the country, from one of the hundred or more new towns that have been well started during the past spring, in the Province of Saskatchewan, in Western Canada. Mile after mile, and mile after mile, was traversed through what was one continuous wheat field, the only relief to the scene being the roadways that led back into other settlements, where would have been repeated the same great vista of wheat.

Steam Plowing in Western Canada.

he could do the same and still have a balance in the bank. Flax produces wonderfully well, and the current price is about \$2.50 per bushel. We then drove over into another township, getting further back from the railway, and the main travel route. Here we found ourselves in the center of a Swedish settlement. Those forming the settlement were originally from Nebraska, invited to put up our horses and stay over for dinner, and a dinner that was enjoyed not only on account of the generous appetite created by the exhilarating drive, but also because of the clean linen, the well-prepared dishes of roast fowl, potatoes, cabbage, and a delightful dessert, some of the history of the settlement was learned. The host and hostess were modest, and equally modest as to those of their friends, but enough was learned to satisfy us that they had come there about three years ago, in moderate, almost poor, circumstances. Most of them had received their homesteads as a gift from the government, and by careful diligence had purchased and paid for adjoining land. They had plenty of cattle and horses, some sheep and hogs, and large well-kept gardens, showing an abundance of potatoes and cabbage and other vegetables. The buildings were good. Schools were in the neighborhood, and there was evidence of comfort everywhere.

On to the Park Country. Reluctant to leave this interesting people, the horses thoroughly rested, were "hooked up," and driven on, under a sun still high in the heavens, with the horses pulling on the bit and traveling at a 12-mile an hour gait over a road that would put to shame many of the macadamized streets, we were whirled along a sinuous drive through the woods and then out in the park country.

Here was another scene of beauty, groves of poplar, herds of cattle, fenced fields of wheat and oats, and barley and flax. Here was wealth and happiness and surely contentment. The crops were magnificent. The settlers, most of them, by the way, from Iowa, had selected this location because of its beauty. Its entire charm was wholesome. Fuel was in abundance, the soil was the best, the shelter for the cattle afforded by the groves gave a splendid supply of food, while hay was easy to get. They liked it. Here was a sturdy farmer, a merchant in an Iowa town, his children had been given a college education, and one of the boys was about to marry the accomplished daughter of a neighboring farmer.

Through Land of Wealth. The invitation to remain to supper was accepted, but that given to remain over night was tabled. It was only a 26-mile drive into town over the best of roads, through "such a

splendid country, all one beautiful picture, and such an opportunity to use one's imagination in figuring up the amount of the wealth of the crops through which the trip into town took us, was not to be enjoyed every day. And away we started.

It was delightful. We drove and drove through avenues of wheat, which today, having yellowed with the abundant sun, is being laid low by the reaper, stacked and threshed by the thousands of hands required to do it, and in great wagons is being taken to the elevator.

A night's ride by train took us through 225 miles of this great province of Saskatchewan—into the southwestern part—and from appearances it might have been as though a transfer had been made across a township. There were wheat fields, oat fields, barley fields and flax fields, and many more that could not be seen. Yet there they were, and during the night we had passed through a country similarly cultivated.

It will all secure a market and get its way to ocean or local mill by means of the great railways whose well-arranged systems are penetrating everywhere into the agricultural parts.

Prosperous Alberta. We afterward went over into Alberta, and here again it was grain and cattle, and comfortable farm houses, splendidly built cities and towns, the best of churches and the most thoroughly equipped schools.

While talking with a Southern Saskatchewan farmer he said that the land he was working, and for which he had been offered \$50 an acre, had been purchased five years ago for \$12 an acre, but he won't sell. He is making a good profit on his land at \$50 an acre, and why should he sell? Farther north, land was selling at from \$15 to \$18 and \$20 an acre. It was learned afterward that the soil was similar to that in the south, the price of which today is \$50 an acre.

The climate was similar and the markets as good. In fact the only difference was that today these northern lands occupy the same position that the more southerly ones did five years ago, and there are found many who

say they will come into a price nearer their legitimate value of \$50 or \$60 an acre quite as quickly as the southerly lands. And I believe it.

Throughout all this great country, practically 500 by 800 miles square, there are still a great many homesteads which are given free to actual settlers. Many who have secured patents for their homesteads consider their land worth from \$18 to \$25 per acre.

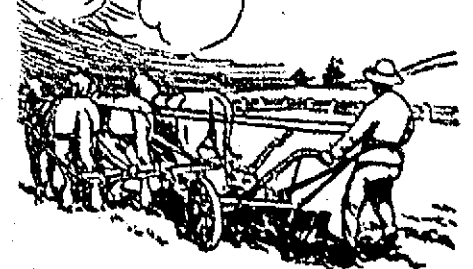

Immense Crops Assured. Throughout the southern portion of Alberta, a district that suffered more or less last year from drought, there will be harvested this year one of the best crops of fall wheat, winter wheat, oats, flax and alfalfa that has ever been taken off these highly productive lands.

In Central Alberta, which comprises the district north of Calgary and east of two hundred miles, through Camrose, Sedgewick, Card, Red Deer, Wetaskiwin, Edmonton, Lacombe, Vegreville, Tofield, Vermillion and a score of other localities, where are settled large numbers of Americans, the wheat, oats and flax, three weeks ago, was standing strong and erect, large heads and promising from 30 to 35 bushels of wheat and as high as 100 bushels of oats on carefully tilled fields, while flax would probably yield from 15 to 18 bushels per acre. In these parts the harvesters are busy today gathering in this great crop, and it will shortly be known whether the great anticipations are to be realized.

Throughout all parts of Saskatchewan, whether north, south, east or west, the same story was heard, and the evidence was seen of the splendid and bountiful crop.

NOTES From MEADOWBROOK FARM

By William Pitt

One of the very best feeds to grow for sheep is fodder corn.

Blue grass and white clover make an ideal pasture for sheep.

Corn for grain and alfalfa hay go well together in animal feeding.

Sudden changes in the calf's feed are almost certain to start trouble.

All dairy utensils should be washed as soon as possible after being used.

If you grow squashes and have never seen the squash bug you are fortunate.

Be sure there are no drafts in the hen house or your hens are likely to have the roup.

Chicks and young cockerels are apt to become weak in their legs while running at large.

Look out for ticks. Your sheep can not fatten if they are troubled with these pests.

The brood mare in foal should be handled by a firm, steady hand, not an excitable, rash hand.

With over 100 breeds of chickens already in existence, breeders are at work trying to fix new ones.

Stagnant water should never be allowed to remain where sheep can get at it. It conveys parasites.

There is no crop that a stock feeder can grow that will make so much feed as corn and peas or soy beans.

If the man who has no silo would watch his neighbor feed and watch the results he would soon have one.

Short rows cause frequent turning and a consequent loss of time and wasted energy for both man and team.

After the asparagus season is over remove the weeds, stir the soil and put a coating of well-rotted manure on the bed.

There is only one time when a poultryman is justified in selling a good pullet, and that is when he is going out of the business.

Dairying does not imply that any other line of farming is bad. It makes the fields more profitable and the farm more profitable.

It makes some horses ugly to work them with horses that do not travel up with them. Match them as to gait as well as to other things.

A drop of melted lard rubbed on top of the head and another drop under its bill and along the neck will put an end to the head lice.

One reason why more farmers do not have better breeds of poultry is because the hatching and brooding season comes in their busiest time of the year.

To succeed with celery you should have cold manure or muck applied in large quantities. It is a deep feeder and does best on a compact cold or deep soil.

All crops should be severely thinned—better have a good ear of corn than two rubbins; better have a good bush than a thrashy rubbin and an empty shoot.

The sow should be given a warm milfed slop, made fresh for each meal, whole oats and a little sound corn twice a day.

In order that a horse may trot or pace he must have the physical conformation, adoption to the gait, and a favorable condition of mental and nervous organizations.

Keeping down the weeds will aid the garden crops in maturing, and make picking easier. Much the clean surface of the ground with old straw in case of dry conditions.

If you have a crop of hoffer calves, be sure to select those that have the greatest promise of being producers. Give them the best of care and build up your future herd in this way.

The condition of the soil, the location with regard to schools and markets, and the desirability of a farm from a general standpoint are three things that should enter into consideration before buying.

Do you know that alone can't be eaten with great relish by hogs? Some haul a part of a load and dump in the hog lot, others take the slack from the fuel pile and they eat it as greedily as if it were corn. The feeding value is no doubt small, but there is something in it the hogs crave, so supply it.

In starting with sheep it is advisable to select a few good ewes and a pure-bred ram and gradually enlarge the flock as you gain a better knowledge of the business. One may gain considerable knowledge from reading good books and papers; but with sheep, the same as with any other kind of live stock, there are certain lessons that must be learned by associating with the animals themselves.

If a colt is worth raising at all, he is worth raising well.

If you haven't a silo, think over the matter of building one.

Some horses have learned to balk by being overloaded and abused.

A small amount of linseed meal added to the horse ration is invaluable.

The cow that loses flesh in October or November will be an expensive one to winter.

Alfalfa hay is a fine food for horses once per day if fed in moderate quantities.

All over the country people are keeping better poultry than they did a few years ago.

Sweet corn is a very profitable crop. One reason for this is because it is so easily handled.

Cow pox is a contagious eruption; running a fixed course, and accompanied by a slight fever.

Mature hogs that are thin may be made a gain of a half pound a day on alfalfa without grain.

Running the mower along the sides of the ditches will make it easier keeping them clear of weeds.

Hot water and sunshine are two of the best cleansers for the dairy utensils that can be found anywhere.

Some English farmers are paying as high as \$400 per pair for American mules to send to the Argentine Republic.

Until we get perfect animals we should search for a sire that in some particulars is superior to the cows in our herds.

A good pedigree counts, and the good ram is bound to show his good points; if he is not good he will show his defects.

Many orchards have sufficient available plant food, but lack water at that critical period while the tree is fruit making.

The man who has plenty of selling crops does not fear the dry pastures so much as the one who depends upon the grass alone.

Of the insects attacking squashes, melons, cucumbers, pumpkins, etc., the common striped cucumber beetle is the most injurious.

The right time to castrate pigs is a week or so before they are weaned, if healthy; if delicate, wait a week or so until they are stronger.

The separator is an absolute necessity upon the modern dairy farm. It safeguards the health of the calves and the pigs and increases the profits.

No cow can properly digest and assimilate balanced rations and economically convert them into milk unless she has been properly developed.

The keeping of goats for milk is not a fad; and the breeding of dairy goats is coming to the front most rapidly in both the United States and Canada.

A well planned garden is one that will allow as much of it as possible to be cultivated with a horse. Hoofing in the garden doesn't set well with most of us.

When pigs are six weeks old they may be turned into grass, and clover pasture if the weather is warm. If cold and ground wet, keep them in dry, roiny pens.

When water is given a short time before feeding it passes out of the stomach quickly and leaves that organ free to deal with any food consumed afterward.

Expert truckers and market gardeners apply, in connection with manure spread in the drill or hill, 600 to 800 pounds of some standard bone phosphate to the acre.

Young pigs should have the best of care and get eating nicely while on the mother. They should not be weaned until they are nine weeks old. If good results are obtained.

A field of rape makes an excellent summer pasture crop for sheep; pasture during the dry summer period, when the regular pastures are either too short or burned entirely down.

Experiments made at the Pennsylvania experiment station show that hill strawberries are not larger and better formed than those grown in matted rows, provided the matted row is a narrow one.

To prevent thimblep see the cows are not fed too much while the pigs are young and also see that the pigs are kept moving and kept warm. Make them take the exercise when they want to or not. Thimblep is a fatty degeneration of the heart, and can only be prevented by withholding food and compelling exercise.

It has been proven that the cow coming fresh in the fall and giving the largest flow of milk through the winter will produce during the year of lactation from one-fourth to one-half more than the cow coming fresh in the spring. To make her do this, however, she must be well fed and sheltered during the winter to maintain a heavy flow of milk pastures during the winter in the spring, when she will again increase in flow.

It is important that every drop of milk should be drawn from the udder, the richest milk comes last and in addition to this, if the cow is not milked dry she will fall off in her flow more quickly.

When selecting a cow for the dairy look and see if the eye of the animal is large and full. The largeness of the eye indicates a strong nervous system. Digestion and milk secretion is the work of the nervous system. The nervous system is the power that drives the animal's milk machine.

We shun them at every opportunity, those busybodies who pose as our friends when we want, they are quite the contrary, and by a special act of Providence with regulating the affairs of their neighbors as well as of those who would rather not be their neighbors. It is easy to comprehend how such persons earn their characterization and easier still for us to apply such a description to all those who in any way display what we may regard as an undue interest in our affairs, says the Christian News and Courier. It is possible, however, that the cap which we place so unhesitatingly upon the heads of certain persons would prove a better fit for us if we could persuade ourselves to "try it on." Unquestionably the mere suggestion to some of us that we could ever overstep the limit of our friendly interest in others is distasteful, and in many cases probably unwarranted, yet it is true that one of the distinctive characteristics of the present age, with its freedom of living and its consequent sacrifice of many of those refining and restraining influences that were so vital a part of another and more distant day, is the readiness with which we indulge our curiosity. Not satisfied nowadays with the bestowal of a confidence which is sufficient, perhaps, to please our interest it is not unusual for some persons to solicit further details and in other ways to evince a too eager concern in the affairs of others.

Gustav Freytag's "Klaus Hirsch" remains one of "David Copperfield" in the line of deliberate unkindness of a life history up to middle age, and a little, too, in its general plan, with its unhappy love marriage followed by a more satisfactory union, says the London Times. But Freytag plows deep in the field of moral and social problems, and his plot is convoluted; we are not obliged to take the facts on the honor of the narrator. The hero is a penniless son—a piece of tough, proud, full-blooded North German humanity. In one moment of bitter disillusionment he asks himself what his too great teachers, School and Church, had done for him except mislead him. They had given him fables, impossible idealisms, two gospels, the gospel of the Savior and the gospel of Schiller, but of true, genuine knowledge of life not a vestige. How he gains this knowledge is the theme of the book, a fine and moving story which flows on in a broad stream of incident and character, and gives a singularly powerful impression of the massiveness and variety of life.

New York is protesting against a new danger in the reckless driving of automobiles by boys and girls through the streets, and legal means are to be sought to prevent the lives of citizens being put in danger by children. The automobile, in some way, seems to be associated with disregard of the rights of pedestrians to an extent which has rendered it a menace of civilization, as well as one of its luxuries. But as far as children are concerned, they should be legally restrained from being allowed in charge of any vehicle. They are too fond of any kind of power and too irresponsible in its use—an exceedingly dangerous combination.

Now it is discovered that the famous pirate, Captain Kidd, who, according to the old song, "much wickedness he did as he sailed," was really no pirate at all, but an honest and good-tempered old sailor. But there are some cherished illusions to which the mind will always cling, and it will require more authority than is given to induce the popular imagination to accept a romantic and picturesque pirate as an uninteresting and commonplace good honest man.

Another rich American girl is to marry an English nobleman. The next generation of the British peerage will be as much American as English, if those international marriages keep on, and with much an infusion of American blood, even the famous British conservatism and love of tradition may give way to a startling extent. That the nation seems not to care for this American danger as long as it can assimilate so much of the American coin.

A dreadnaught is a formidable object, but it affords a shining mark for a little aeroplane flitting hither and yonder among the clouds. In a few years, perhaps, somebody will build an aeroplane destroyer.

From Honey Creek, Ia., comes the story that a bolt of lightning had a well and found water after a farmer had tried in vain for years. Evidently Honey Creek is trying to compete with Winsted, Conn.

A Pennsylvania pastor, getting \$30 a month salary, has been ordered to pay his wife \$3 monthly alimony. How true it is that "To him that hath shall be given, and from him that hath not even that which he hath shall be taken away."

One railroad is to teach politeness to its employees. It will be great to get the soft answer which turneth away wrath when one has just missed the 7-19 train.

Chicago doctors have demonstrated that they can separate a human being from his aura, but the operation will never become as widespread as that of separating him from his bank account.

A dozen chickens were hatched out by the sun when a Massachusetts hen asserted her nest during the recent hot spell. That hen ought to be hatched to look her chicks in the face.

GALE FATAL TO 15

DAMAGE UPWARD OF \$1,000,000; GREATEST LOSS IN SOUTH-EASTERN SECTION.

TWO DROWNED AT SAYANNAH

Hotel Guests on Isle of Palms Spend Night of Terror—Six Torpedo Boats Torn From Moorings and Driven Ashore.

Charleston, S. C.—At least 15 persons are dead as the result of the storm which swept this city. Conservative estimates of the damage place the loss at upward of \$1,000,000. Six bridges into the city have been badly damaged.

The greatest damage was suffered in the southeastern section of Charleston.

Shipping has suffered heavily, but it is impossible at this time to fix the loss in dollars. Scores of launches have been broken away and efforts are being exerted to catch them.

Heavy rains have contributed to the height of the water in the streets and yards caused by the abnormal tide, many lower floors being inundated and household effects being damaged.

The Clyde Lido steamer Apache made port after a thrilling experience off this harbor during the hurricane. Passengers wore life preservers for several hours and were prepared to leave the ship at any moment.

It is stated by passengers that the steamer was kept at work at the points of foyers, although the captain denies the tale.

Savannah's parks are scenes of desolation as a result of the winds. Two men are reported to have been drowned in Laxartree creek.

Augusta, Ga.—Twenty-five guests at a hotel on the Isle of Palms spent a night of terror while the storm raged. Congregated in the lobby, the spot immune from the wind and rain, women wept and prayed, and one man had a pistol in readiness to shoot himself at any moment.

Washington, D. C.—The storm which swept the South Atlantic left its imprint on the navy. Six torpedo boats were wrecked from their moorings at the Charleston navy yard and tossed as toys high upon the beach by the gale. Many buildings of the yards are believed to be wrecked.

DISHONESTY IN ARMY POSTS

Major-General Grant Recommends That They Be Managed by Civilians.

Washington, D. C.—The revelation of irregularities in some of the post exchanges in the department of the east during the fiscal year, which occurred recently, has caused Maj.-Gen. Frederick D. Grant to recommend to the war department that post exchanges be placed in the hands of civilians.

Bad management and dishonesty have been disastrous to two post exchanges, he says, causing the loss of funds and the trial of one officer and several enlisted men. He attributes the trouble primarily to the fact that the army officers, occupied with military duties, are unable to give the exchanges the proper attention.

SHIP SEA-CROSSING BALLOON

Monster Air Craft Is Ready for Attempt to Fly Across Atlantic.

Akron, O.—A Molins-Yanman's balloon, with which he and five others will attempt to fly across the Atlantic ocean October 22, will be shipped from Akron to Atlantic City, having just been completed in a local rubber factory. As soon as the framework of steel tubing is attached, the balloon will be inflated in the mammoth hangar the airship will be christened the Akron with fitting ceremony.

The Akron is the only dirigible of the first class ever built this side of the Atlantic. It is 268 feet long, or about thirty feet longer than the America, which was lost in the ocean as a sequel to the Walter Wellman expedition last year.

CIGARETTE STARTS A BLAZE

Careless Smoker Drops Stub Among Light Fabrics and Causes Fire in Cincinnati Hotel.

Cincinnati.—The stub of a lighted cigarette, carelessly thrown into an open suit case filled with light fabrics last night caused a fire at the Burnet house, one of Cincinnati's leading hotels.

A ten-blow alarm, calling upon all available fire companies, was turned in, but the fire was extinguished with small loss. All of the guests were taken from the building in safety.

Will Call Arizona Election.

Phoenix, Ariz.—Governor Sloan received from President Taft an official certification of the passage of the Arizona resolution which authorizes him to issue a proclamation for an election of state officers and for a vote on the recall of the judiciary.

W. C. T. U. Hits Mrs. Reese. Toia, Kan.—Judge D. B. D. Shelton's action in sentencing Mrs. Elia Reese to the workhouse for a year has been endorsed by the W. C. T. U. of Humboldt, near here.

Mayor Seidel Is Quoted.

Milwaukee, Wis.—Circuit Judge P. C. Eschweiler began a suit for \$50,000 against Mayor Emil Seidel, in which he alleges that the mayor slandered him in remarks made during a speech at Dayton in the last judicial campaign.

Upton Sinclair's Wife.

New York.—Upton Sinclair, author and Socialist, has been ordered to pay \$100,000 damages to his wife, Mrs. Elia Reese, for a divorce on statutory grounds. Harry Kemp is named as co-respondent.

Girl's Auto Injures Woman.

Dickinson, N. D.—Mrs. M. R. Linney was run down by an automobile and probably fatally injured when the car was driven by Miss Ethel Pearson who was entertaining girl friends.

Potter Heads Risk Folk.

Milwaukee, Wis.—Fred W. Potter, superintendent of insurance of Illinois, has been indicted by the grand jury of the State Insurance Commission. H. R. Cunningham, secretary and surgeon.

TWO DIE IN RACE

DRIVER BUCK AND MECHANICIAN JACOBS KILLED AT ELGIN.

Nearly 100 Persons Hurt When Grand Stand Collapses, Precipitating 2,000 to Ground.

Elgin, Ill.—Tragedy raced with the record-breaking speed of a bullet here and overtook one of the cars in which two men were careening around the road course. Just before the winner of the National trophy flashed across the finish line, one of the automobiles of the Pope-Hartford type, jumped into the air and turned a somersault.

The trophy was won by Len Zengel in a National car, who ran at an average speed of 66.45 miles an hour, four miles an hour faster than the record of 1910.

Zengel sustained an engine killing speed for the 305 miles. His car ran in splendid luck, outlasting Ralph Mulford's Lozier, Ralph De Palma's Simplex and Spencer Wishart's Simplex, three of the most touted cars in the race. Every one of them fell before the tremendous pace leaving the driver, mechanic Zengel, Grant and Hughes, who finished in the order named.

The crowd had a touch of excitement not on the program at the end of the first lap when the grand stand folded up like a wad of paper and tobogganed 2,000 persons to the ground.

It was at first thought that there were some fatal injuries, but investigation showed that the worst sufferers sustained nothing more than a broken limb. Nearly a hundred persons in all sustained bruises and other minor hurts.

BEATTIE CONFESSED, SAYS KIN

Accused Virginian's Cousin Paul Gives Damaging Evidence Against Defendant at Trial.

Chesapeake, Va.—Paul Beattie, cousin of the man now on trial for his life in connection with the murder of his young wife, made his effort to end Harry Clay Beattie, Jr., to the electric chair.

Without the least hesitation Paul Beattie declared that Harry Beattie had himself said that he killed the bride of a year. This testimony created a sensation not equaled since the murder of Mrs. Beattie.

The prosecution sprung another surprise when it introduced as a witness, without warning, Mrs. R. V. Owen, mother of the slain girl.

In a taxicab, the arrival of which was timed to coincide with the moment Sheriff Galt exhibited in the courtroom the clothing worn by Beattie on the night of the murder, Mrs. Owen appeared and took the witness stand.

Prosecutor Vendenberg questioned Mrs. Owen as to her knowledge of the domestic life of the Beatties and brought out a point intended as relevant to the alleged motive for the murder, namely that Beattie's physical condition, due to disipation, had caused much unhappiness to his wife.

The witness said that on the night of the murder she had cautioned Mrs. Beattie not to go out alone with her husband.

TRIMBLE IS CHIEF OF G. A. R.

Illinois Man Is Unanimous Choice of Veterans at Annual Encampment at Harvey.

Rochester, N. Y.—Harvey M. Trimble of Princeton, Ill., was unanimously elected commander in chief of the Grand Army of the Republic when Col. John McElroy of Washington, his opponent, ended a bitter contest by withdrawing from the race.

Trimble, a former colonel of the 68th regiment of the Illinois National Guard, was elected on resolutions, the encampment indorsed the Sherwood pension bill.

Los Angeles, Cal., was selected by an almost unanimous vote for the 1912 encampment.

RACE TROUBLE IN MISSOURI

One Negro Killed, White Man Wounded in Fight Over a Pint of Whiskey.

Huntsville, Mo.—Race trouble is feared as a result of a fight over a pint of whiskey at a negro bar where seven miles south of here in which one negro was killed and a white man and a negro were wounded.

John and Robert Dameron, Roy Barton and Willie Taylor were the white men in the fight. Edward Evans, a negro, was shot in the head and killed. John Dameron was cut with razors. Two of the whites and six of the negroes were arrested.

Kaiser Has Narrow Escape.

Berlin.—The Kaiser narrowly escaped injury in a collision between two trains, which occurred on a track adjoining that on which his special was standing. The accident occurred at Luebeck, Germany.

Lawson After 80,000-Acre Ranch.

Greeley, Colo.—Thomas W. Lawson, Boston financier, is negotiating for 80,000 acres of land 45 miles north-east of Greeley. He intends to raise fancy cattle and horses for exhibition and racing purposes.

Boils to Death in Bath.

Waterloo, Ia.—E. A. Morgan, a well-known business man of this city, was literally cooked to his death in a bathtub. Mr. Morgan was subject to attacks of vertigo and it is thought he suffered an attack while allowing the water to run into the tub.

Committee Succeeds at Seventy-Four.

New York, N. Y.—Samuel H. Shoemaker, seventy-four years old, a prominent merchant of this city, committed suicide here. His health being assigned as the cause.

Sandfly Cause of Pellagra.

Topeka, Kan.—Believing the sandfly causes pellagra, Prof. S. J. Hunter, of the Kansas State university, has sent four expert bacteriologists to various parts of the state to collect specimens of the fly and its larvae for examination.

Boy Dies of Broken Neck.

Minneapolis, Minn.—A boy, Gray, sixteen years old, died, lived for six weeks with a broken neck. It is said his case was a puzzle to physicians and surgeons.

JUST CAMPING, THAT'S ALL

400 FLEE FLAMES

FIRE IN CHICAGO OFFICE BUILDING IMPERILS LIVES OF SCORES.

COOL HEADS PREVENT PANIC. Elevator Operators Stick to Post Until Last Person Leaves Burning Structure—Police Rescue Telephone Operator Overcome by Smoke.

Chicago.—Fire starting in a store-room of the Chicago and Alton Railroad company in the Patton building, Harrison street and Fifth avenue, imperiled the lives of 400 men, women and girls employed on the eighth and ninth floors.

Only a few were injured slightly, cool-headed men and women preventing a stampede that might have resulted in great loss of life. With scores of frightened women clinging to the fire escapes men in the street gave warning that there was no great danger and prevented several from jumping.

A. B. Greig proved the hero of the elevators. He was the operator of one and he never left his post until the last person was out of the building. When he brought down the final "load" he had to be carried from the car, but quickly revived in the open air. The three other elevator men also did heroic work, all sticking to their cars till the last.

The loss is estimated at \$25,000, not including priceless records of the Chicago and Alton railroad.

WOMAN TO RUN POSTAL BANK. Chosen to Manage Savings Concern at Los Angeles Because of Special Fitness.

Los Angeles, Cal.—When the postal savings bank opens in Los Angeles it is to be in charge of Mrs. B. C. Shelton, who for years has been assistant superintendent of the money market in the city. Mrs. Shelton, an opponent, ended a bitter contest by withdrawing from the race.

Postmaster Harrison says he selected Mrs. Shelton for his responsible position because of her fitness for the place. It is said she is the first woman to be placed in charge of a postal savings bank.

MAN KILLS BABIES AND SELF

Oxford Graduate's Dead Due to Grief Over Wife's Death. Chloroform and Cyanide.

Thomaston, Me.—Grief over the death of his wife led Edward Bennett, an Englishman and a graduate of Oxford university, England, who had been a resident of this town for the last six years, to murder his three children and then take his own life.

Two of the children were killed by the use of chloroform and the third by cyanide of potassium and chloroform. To make his own death certain the man went to the water's edge and there swallowed a quantity of cyanide of potassium and jumped in.

Iron Mine's Shops Burn.

Duluth, Minn.—Fire destroyed the machine shops of the Hawkins mine, belonging to the International Harvester company at Nashua, Minn., on the Mesabi iron range. The damage was \$50,000.

Canada Seizes U. S. Schooner. Ottawa, Ont.—The gasoline schooner Sarah of Seattle was taken into New Westminster harbor in charge of a Canadian fishery protective cruiser while fishing. It is alleged, within the three-mile limit.

German Bankers Are Arrested.

Berlin, Germany.—Paul Kwieler and Martin Gans, the heads of the firm of Kwieler & Gans, a private banking house here, were arrested charged, it is alleged by the police officials, with embezzling \$500,000 of the bank's deposits.

Human Chain Snaps; Man Dies. Tucson, Ariz.—The breaking of a human chain formed in an attempt to rescue Henry D. Hildy of Belle Plaine, Ia., from drowning in the Santa Cruz river, cost Hildy his life.

Battleship Sinks Steamer.

Kiel, Germany.—In executing maneuvers with a torpedo boat flotilla in the outer bay, the German battleship Hessen sank the small Swedish steamer "Akersund." The crew of the steamer was rescued, but no one was hurt. The battleship was not damaged.

Whole Town Fights Fire.

Bangor, Me.—The little village of Stetson Me. was swept by fire. The entire population turned out with buckets. The damage was estimated at \$50,000.

Taken as Mob Ringleader.

Conestoga, Pa.—Oscar Lamplong, aged thirty, whom District Attorney Gathright refers to as the "ringleader" of the mob which dragged Zack Walker from the hospital and burned him, was arrested and held on a charge of murder.

Indiana Lawyer Is Slain.

Shelbyville, Ind.—Charles Tindall, an attorney of this city, was shot twice in the right side by Edward C. Van Pelt and died one-half hour later. Van Pelt was arrested on a charge of murder.

SANITARY BOARD CERTIFICATES VOID

Bancroft Holds Tuberculin Tests Are Illegal.

MUST PASS EXAMINATION

Decision of Attorney General Is Important and of Large Interest to Farmers Who Have Had Testing Done.

Madison.—Attorney General Bancroft has held that all certificates issued by the state livestock sanitary board, giving permission to the holders to administer the tuberculin test to cattle under the law passed in 1909, are void and the holders thereof not entitled to administer such test under the law. It is also held that before persons, formerly registered as veterinarians, may be permitted to administer the tests under the law of 1911, applicants must pass another civil service examination.

The situation arose through a mix-up by the legislature of 1909. A law was passed which contained a section which provided for the holding of civil service examinations for the purpose of issuing permits to non-veterinarians to administer the tuberculin test. The law became effective on June 12, 1909. Then another bill was passed re-enacting the former measure, except that portion of it which provides for the holding of the examinations and issuing the permits in question. This law became effective June 22. All examinations were held and permits issued subsequent to June 22, and as the law under which the proceedings were had, had been repealed by the enactment of the latter law the permits issued are void.

The decision of the attorney general is important and of large interest to farmers who have had testing done by these persons to whom the permits were issued. How many of these certificates were issued or how many herds were tested by the holders of them is not known.

The law passed by the last legislature authorizes the livestock sanitary board to hold examinations of persons other than veterinarians to determine their competency to administer the tuberculin test and to issue permits to such as may be found qualified. Whether or not such examinations will be held has not yet been determined. State Veterinarian Hartwig said that it would be the aim of his department to provide for the farmers of the state a safe and sane system for the administration of the test to the herds of the state.

26 KILLED IN PANIC

FUSE BLOWS OUT AT MOVING PICTURE SHOW. Dead and Dying Piled in Single Stairway in Frantic Rush to Escape.

Cannonsburg, Pa.—Twenty-six persons were killed and sixty injured in a panic which followed the explosion of a moving picture film at the Grand opera house in this city. Of the dead thirteen were children under fifteen years of age and seven were women.

Operator John McCullough had just thrown the title of the next series of pictures on the screen, "A Little Child Shall Lead Them," when the film exploded and his asbestos cabinet was filled with flames.

Scenes were called "Fire" and the 1,500 people in the audience turned in their seats, saw the smoke and made a frantic rush for the one doorway leading to the narrow eight-foot stairway, with 50 steps leading up from a vestibule. Here they piled down on 200 people crowded into the passage, waiting the end of the performance to take the places of those who had seen the show.

Immediately the narrow stairway was packed and jammed ten feet high with the dead and dying, the shrieking injured and the screaming unhurt.

29 ARE KILLED IN WRECK

G. A. R. Veterans Returning From Rochester Meeting Among Victims of Accident.

Rochester, N. Y.—The Chicago, Buffalo and New York express, on the Lehigh Valley railroad, loaded with Grand Army men returning from the Rochester encampment, was wrecked at Manchester. Twenty-nine persons lost their lives and 60 were injured.

The disaster was caused by spreading rails. The locomotives and the baggage car had passed over the trestle when the tracks gave way. A dining car filled with passengers at luncheon was the first to plunge headlong into the water. Two coaches followed, one standing and in the water with all its passengers hurled into a heap, which completely buried two-thirds of the car, crushing and maiming all who were underneath.

TO TALK ON CONSERVATION

Taft Will Be Only Speaker Evening of September 25 at Kansas City Congress.

Kansas City, Mo.—President Taft will be the only speaker on the program of the national conservation congress at Convention hall here the night of September 25. The congress convenes for its first session on the morning of that day, and the officials decided to set aside the entire night for the evening session for the president, who will speak on the general subject of "Conservation."

Wisconsin Penalties.

The following Wisconsin penalties have been graded: Theft of \$100, \$15; \$200, \$20; \$500, \$25; \$1,000, \$30; \$2,000, \$35; \$5,000, \$40; \$10,000, \$45; \$20,000, \$50; \$50,000, \$60; \$100,000, \$75; \$200,000, \$100; \$500,000, \$125; \$1,000,000, \$150; \$2,000,000, \$200; \$5,000,000, \$250; \$10,000,000, \$300; \$20,000,000, \$350; \$50,000,000, \$400; \$100,000,000, \$450; \$200,000,000, \$500; \$500,000,000, \$600; \$1,000,000,000, \$700; \$2,000,000,000, \$800; \$5,000,000,000, \$900; \$10,000,000,000, \$1,000; \$20,000,000,000, \$1,100; \$50,000,000,000, \$1,200; \$100,000,000,000, \$1,300; \$200,000,000,000, \$1,400; \$500,000,000,000, \$1,500; \$1,000,000,000,000, \$1,600; \$2,000,000,000,000, \$1,700; \$5,000,000,000,000, \$1,800; \$10,000,000,000,000, \$1,900; \$20,000,000,000,000, \$2,000; \$50,000,000,000,000, \$2,100; \$100,000,000,000,000, \$2,200; \$200,000,000,000,000, \$2,300; \$500,000,000,000,000, \$2,400; \$1,000,000,000,000,000, \$2,500; \$2,000,000,000,000,000, \$2,600; \$5,000,000,000,000,000, \$2,700; \$10,000,000,000,000,000, \$2,800; \$20,000,000,000,000,000, \$2,900; \$50,000,000,000,000,000, \$3,000; \$100,000,000,000,000,000, \$3,100; \$200,000,000,000,000,000, \$3,200; \$500,000,000,000,000,000, \$3,300; \$1,000,000,000,000,000,000, \$3,400; \$2,000,000,000,000,000,000, \$3,500; \$5,000,000,000,000,000,000, \$3,600; \$10,000,000,000,000,000,000, \$3,700; \$20,000,000,000,000,000,000, \$3,800; \$50,000,000,000,000,000,000, \$3,900; \$100,000,000,000,000,000,000, \$4,000; \$200,000,000,000,000,000,000, \$4,100; \$500,000,000,000,000,000,000, \$4,200; \$1,000,000,000,000,000,000,000, \$4,300; \$2,000,000,000,000,000,000,000, \$4,400; \$5,000,000,000,000,000,000,000, \$4,500; \$10,000,000,000,000,000,000,000, \$4,600; \$20,000,000,000,000,000,000,000, \$4,700; \$50,000,000,000,000,000,000,000, \$4,800; \$100,000,000,000,000,000,000,000, \$4,900; \$200,000,000,000,000,000,000,000, \$5,000; \$500,000,000,000,000,000,000,000, \$5,100; \$1,000,000,000,000,000,000,000,000, \$5,200; \$2,000,000,000,000,000,000,000,000, \$5,300; \$5,000,000,000,000,000,000,000,000, \$5,400; \$10,000,000,000,000,000,000,000,000, \$5,500; \$20,000,000,000,000,000,000,000,000, \$5,600; \$50,000,000,000,000,000,000,000,000, \$5,700; \$100,000,000,000,000,000,000,000,000, \$5,800; \$200,000,000,000,000,000,000,000,000, \$5,900; \$500,000

One Year.....\$1.50
Six Months......75

Advertising Rates.—For display matter a flat rate of 10 cents an inch is charged. The columns in the Tribune are 21 inches long, making a one column advertisement cost \$2.10 for one insertion. All local notices, cards of thanks, resolutions of respect, and all notices of entertainments where an admission fee is charged will be published at 5 cents per line.

MEDICAL INSPECTION IN WAUSAU SCHOOLS

S. H. TOBBY

Superintendent of Schools, Wausau, Wis.

During the school year 1909-10 an epidemic of scarlet fever prevailed in Wausau; and, while the disease was mild in character, the probability of its assuming a more virulent form admonished the health authorities and the board of education that vigorous measures were necessary to eradicate the disease. After careful consideration of the matter the board of education decided that in the interest of public health and safety, through medical inspection of the schools would be wise. They accordingly employed, under the supervision of the health officer, seven physicians. The location of the schools is such that the entire work of inspection could be done at these seven centers. Two of the schools were situated within a block of each other. The parochial schools were near the public schools, and children of the former were sent to the nearest inspection center.

Each morning at 9 o'clock on school days a physician was present at each of the seven inspection centers.

All children who had been absent more than one-half day without the prior knowledge and consent of the teacher were sent to the principal's office where they were examined by the physician and received a clean bill of health before they re-entered school. Children who were known to have been exposed, or were suspected of having been exposed, to contagious diseases, were sent to the examining physician, as were those who were believed to have adenoid growth, enlarged tonsils, defective vision or hearing, or any other physical ailment where the advice of the physician would be valuable.

Cards stating the nature of the trouble were sent to parents and teachers. Pupils having contagious disease or who had been exposed to contagion were sent home, and teacher and health officer were notified.

Two visiting nurses, paid by private citizens, assisted teachers and physicians in following up cases, and where the parents were unable to provide proper medical or surgical aid, it was given free at a dispensary maintained by subscription of citizens. Physicians were paid one dollar per visit to the schools, the entire cost for inspection being seven dollars per day, which was paid out of the general school fund.

The results were highly satisfactory: 5,603 children were examined; 23 cases of scarlet fever were discovered and prevented from entering the schools; 16 cases of whooping cough, 15 cases of measles, 6 cases of chickenpox, 33 of scabies, and 35 of impetigo contagiosa, while 744 cases of enlarged tonsils, 170 of adenoids, 48 defective vision, 6 defective hearing, and 86 with tonsillitis were reported to parents and advised to consult the family physician. No cases were treated in the schools by the examining physicians.

At the free infirmary 308 children made 970 visits, while the visiting nurses made 408 visits at their homes; 21 children were operated on; 46 were given prescriptions; 34 treatments and 9 dressings were given, and 56 children given free dental treatment. One totally deaf child was discovered and reported.

Not only did the board of education expect to prevent a recurrence of the epidemic of the preceding year, but they also hoped to effect an actual saving in the education of the children by the increased regularity of attendance and the more rapid and uniform progress consequent upon it.

That they were fully justified in this hope was proved by the results. The cost per pupil for instruction in the grades (based upon the total number of days of attendance, estimating 180 day (perfect attendance) for each pupil) was 64 cents less than that of the preceding year effecting a saving of \$1,488.84, though the salaries in the grades were about two per cent higher this year than last.

The saving per pupil in the high school was \$3.40, and for the 526 pupils \$1,785.00. The total reduction of cost was \$3,203.84. If from this we deduct \$1,170.00, the cost of medical inspection, we have a net saving of \$2,033.84. There was an additional saving not easy to estimate, in the reduction of time taken to complete the course of study due to greater regularity of attendance. There were more than 12,000 days more attendance this year than last for the same number of children enrolled.

With such results this city could not afford to discontinue thorough and efficient medical inspection.

The Heater Which Maintains a Steady, Even Temperature.

—Throughout zero weather you can keep your home plants by using Cole's Original Hot Blast Heater. It holds fire over night and you can heat your living rooms for two hours next morning with the coal put in the night before. Allow us to show you this heater. Prices \$12.00 and up.

Be Sure You're Right

Great Road Exhibit at State Fair

The Wisconsin Highway Commission has arranged for this year's fair one of the most complete and interesting road exhibits ever assembled at a state fair.

In one tent there will be moving pictures showing road construction in this and other countries, and also ordinary stereoscopic pictures showing modern road and bridge construction. These pictures will be accompanied by lectures given by experts from the U. S. Office of Public Roads, State Highway Commission and manufacturing concerns.

In another tent will be installed the U. S. model road exhibit, which was first shown at the Alaska-Yukon Exposition and is the most complete thing of its kind in America. There will also be shown plans and photographs of all types of roads and bridges. The state road and bridge engineers will be in attendance to answer questions and to give consultation on any problem in road or bridge construction.

Back of these tents will be placed a complete exhibit of modern road machinery made by various manufacturers, which will cover nearly two acres of space. Each company will exhibit its latest appliances and have its best demonstrators on the ground. These exhibits should be of interest to town, village and city officials and all others who use the public roads, and it is hoped that many will take the opportunity of acquainting themselves with the latest developments in the science of road building.

The exhibit will be just east of the new Machinery Building near the west gate, and is, of course, entirely free. The fair will be held from September 12th to 15th inclusive.

Odd Geographical Facts.

The following list of facts about the earth that the average person does not know has been compiled by Prof. R. H. Whitcomb of the University of Wisconsin geology department:

—Did you know —
That the Pacific and the Panama Canal is farther east than the Atlantic?

That Venice, Italy, and Montreal, Canada, are in about the same latitude?

That if an express train had started out from the earth for the planet Neptune at the birth of Christ, and had traveled 60 miles an hour day and night ever since, it would not yet be half way there?

That Cuba would reach from New York to Chicago?

That the mouth of the Amazon river is as near to Europe as it is to New York?

That Texas is larger than Germany and as large as 212 Rhode Islands?

That, when measured in degrees of longitude, San Francisco is about in the middle of the United States, including Alaska?

That the entire continent of South America lies farther east than Florida?

That Glasgow, Scotland, is in the same latitude as Alaska?

That, if the southern end of Chile, South America, were placed at Florida, that single country would extend across the United States and Canada half way across Hudson Bay?

Will Fly at State Fair.

Lincoln Beachey, the world's highest flyer, has accepted all of the program outlined by William MacLaren and Glenn H. Curtiss for performance at the State Fair.

MacLaren yesterday received a telegram from Beachey reading as follows: "Program submitted by Mr. Curtiss acceptable to me. Would like to add to it an attempt to break the world's altitude record of 11,575 feet on day of the fair. Mr. Curtiss suggests Wisconsin day. Will that be satisfactory to you? Think the record can be passed at your fair as I understand flying ground is ten miles from here. This makes it ideal."

The program submitted to Mr. Beachey and his flying partner O. C. Witmer includes every feature of aviation that proved attractive to the spectators at Chicago last week. The time of Beachey and Witmer while in the air will be divided so as to include special contests, quick climbing, altitude, volplaning and duration in the air.

"We will have a different program every day," said William MacLaren yesterday, "and there will be enough variety to furnish thrills and sensations enough for all. There will be a principal feature each day. One day it will be speed, the next day altitude, the third day the attraction, third day the world's record, the fourth day volplaning and the fifth day will be devoted to showing what the aeroplane can do in time of war."

"This will give the big feature of the air carnival to Wisconsin day, Wednesday, and every condition and every incident that can be availed of, will be attended to, so that the thrill will be successful. No one will be permitted to enter the enclosure at any time during the fair and every precaution will be taken to avoid accident. Beachey's exhibition will be given on the east side of the race track and he will not come as close to the grandstand as Hoxsey did a year ago. The starting and finishing line will be a clearing in the center of the enclosure of the race track, and all starts and finishes will be made from that point."

Arrangements were also made by telegraph yesterday to place the Curtiss aeroplane on exhibition in a tent where the mechanism and parts of the flying machines can be scrutinized by visitors to the fair. The tent will be located at the north end of the grandstand and when the air flights are to be made they will be removed across the race tracks to the starting platform.

No Other Stove Does This.

Cole's Hot Blast Heater maintains a continuous fire, also a steady, even heat. It will hold fire from Saturday night until Monday morning (48 hours). It will hold fire over night with less coal than any other stove. Open the drafts in the morning and the room is quickly heated with the coal put in the night before. Come in and examine Cole's Original Hot Blast Heater. Price \$12.00 and up, according to size.

Reservations Open.

Would you like to secure a government home? Well here is your chance.

Have a million acres, or about 3000 farms of 160 acres each will be thrown open to settlers. This land is located in the Pine Rosebud Indian Reservations in South Dakota. Persons desiring to make homestead entry must make application for registration in person at one of the places designated as registration points a by the government—Dallas, Gregory, and Rapid City, S. D. having been designated as such.

All registrations must be made between October 3rd and 21st, the drawing taking place on Oct. 24 1911, and final entries to be made by successful applicants on April 1, 1912.

The location is a highly desirable one, being within easy reach of the great markets of the west, including Omaha, Council Bluffs, Sioux City, Chicago, St. Paul and Minneapolis. The line of the Chicago and Western Union has been completed westward through the Rosebud lands that have been opened to the public use in the past and provide a direct route to all principal points.

The lands have been classified and appropriated by the government, and a price of from 25 cents to \$6.00 per acre has been established, payment whereof is divided into annual installments covering a period of five years.

The following persons are not qualified to make homestead entry:

1. A married woman, unless she had been deserted or abandoned by her husband, or unless her husband is incapacitated by disease or other cause from earning support for his family, and she is the head and main support of the family.

2. One not a citizen of the United States, and who has not declared his intention of becoming such.

3. One under twenty-one years of age not the head of a family.

4. One who is proprietor of more than 160 acres of land in any state or territory. The ownership of a town lot or any other amount of land in excess of 160 acres, disqualified the owner from making entry.

Do not attempt to buy out a homesteader without keeping in view the fact that he can give you no title in the United States. If you purchase a relinquishment of his claim it must run the United States. Entries and filings for the purpose of holding the land for speculation are illegal and fraudulent; and the sale of relinquishments is also illegal.

Repairing Sandy Roads.

In repairing some of the sandy roads which can be found in certain sections of the northwest, we note that the road makers are making a mistake in merely grading these roads without making due allowance for the conditions which make sandy roads difficult to travel.

Since the sandy road problem is being so successfully overcome in other sections, we would like to offer a few suggestions along this line.

Sandy roads are bad for travel for many reasons that sand itself is poor for crops; in other words it lacks vegetable matter, or humus, which will hold the sand together and retain the moisture. If we are to make sandy land good for crops, we must add to it the vegetable matter.

In the same way, if we are to make good roads out of sand, we must add a binder in the form of clay, or vegetable matter, which, in decaying, will improve the texture of the road.

In the sandy districts between the Twin Cities and Duluth the sandy road problem is being satisfactorily solved in a number of ways. First, by adding a straw covering to the sand, the road is permanently improved. A second way of improving these roads is by growing clover, rye or other green crops along the side of the roadbed, and when these crops gain their greatest green growth they are plowed down and incorporated into the road bed. Both of these plans of improving sandy roads have been tried out by the State Highway Commission and the results have been satisfactory.—Friendship Reporter.

EXCURSION RATES WISCONSIN STATE FAIR MILWAUKEE.

Via the North-Western Line.

Daily, September 12th to 15th; return limit September 18th, Grand Excursion rates to Milwaukee, via Lake Street, Industrial and Educational interests of the state. Apply to ticket agents. The North-Western Line.

ARPIN

Mr. and Mrs. Wm. Bloett of Donau, Wis., arrived here Thursday to visit at the home of their son, C. W. Bloett, and daughter, Mrs. Geo. Lewis.

Mrs. John Kissinger and two children of Marshfield returned to their home Friday after a few days visit with her sister, Mrs. Dwan Robinson.

John Byrnes, who has resigned his position as cheese-maker at the Fairview factory, has moved his family into Peter Vandenberg's home.

The Royal Neighbors held their regular meeting of lodge, Saturday, p. m. They were honored by the presence of two visiting members of the Pilsbville Camp, viz., Mrs. Wagoner and Mrs. John Kurtz. Light refreshments were served after the meeting.

W. J. Mann held a public auction at his farm Tuesday, Aug. 30th, and on Friday designated for Waukegan, where he expects to make his future home.

Mrs. John Moll returned home from Bryant Munday, where she had spent the past two weeks at the home of her daughter, Mrs. Edward Ogilka.

Miss Mary LaVigne came from Grand Rapids Monday where on Tuesday she opened her school in Dist. No. 8.

Miss Myrtle Lewis went to Grand Rapids Monday where she will attend the Teachers' Training school the coming year.

SHERRY

The Northwest Collegiate Institute, opens Tuesday, September 12. Two strong teachers are to be added to the faculty. Miss Patterson and James Provan, M. A. D. Dr. Provan, as President, Agency's associate, will occupy the position of principal. He is a very bright man and deeply interested in the institution. He has been a successful teacher for over ten years. Miss Specht and Miss Ardis, who so thoroughly enjoy the esteem and confidence of the institution, will be with it again this year. There will be a large increase in the student body. A new heating plant has just been installed in the boys' dormitory. The Institute is located on a fine farm and the yield in the past year has been excellent.

PITTSVILLE.

(From the Record.)

Another to return from the west this week is Henry Schlegel. Since being in Pittsville last he has made nearly all the northwestern states and claims Wisconsin to be the place for the man of any means.

The Messes Lena and Elizabeth Hirsch came home the latter part of last week from Watertown where they have spent the past year. Neighbor friends surprised them Saturday night and a nice little time is reported. They expect to return in a couple of weeks.

The German Lutherans at what is called Klondike, this county, celebrated their 25th church anniversary Sunday.

School commenced in Dist. No. 4 Monday with Miss Ada Green as teacher. We all wish her success in her undertakings.

Quite a number from this way attended the sale at the old Andrew Hager place Saturday.

A. G. Cotey was up from the Arpin marsh Sunday to get some needed articles in the medical line. He is the whole thing down there, even to doctoring his own and other people's ailments. The cranberry crop this year will be better than last year, a good average, he says, and the Arpin marshes will yield exceedingly well.

Mr. Edwin A. Peart and Miss Bessie Margaret Hedlund were married at the home of the bride's parents in this city Thursday evening at 7 o'clock, August 24th. Rev. J. A. Steman, of the Presbyterian church, Stevens Point, performed the ceremony. The ring service was used.

DEWHURST.

Albert Knoll made a business trip to Pittsville Monday.

Mrs. Jensen and children of Grand Rapids, are visiting with friends and relatives.

Clara Galt, Elsie Shwanbeck and Henry Seltrich were confirmed Sunday.

Hazel and Leslie Planke returned to their home in Grand Rapids after a five weeks visit at the home of Albert Knoll.

There was quite a big crowd attended church Sunday afternoon and evening.

Mrs. Jacob Jacobson is on the sick list this week.

Henry Egeen and wife took dinner with Mr. and Mrs. Art Sparks Sunday.

Mr. Nyquist is some better at this writing.

L. Winslow and Albert Galt made a flying trip to Pittsville Monday to get repairs for their threshing machine.

Mr. Winslow has finished sawing logs for Mr. L. A. Coffey.

Ed Zimmerman and Dave Sparks were Pittsville callers Monday.

Albert Knoll and wife spent Sunday with Mr. Jacobson and family.

Teaching seems to be the order of the day. Zimmerman of Grand Rapids is visiting at the home of her parents.

SIGEL

A surprise party was given in honor of Mr. and Mrs. Englen last Thursday evening at the M. Adam home. All report a fine time.

Mrs. Wm. Buchen was visiting friends in Grand Rapids a few days.

Mr. and Mrs. Frank Nordstrom of Grand Rapids, Mr. and Mrs. Jim Pelot, Mr. and Mrs. Chas. Hladick Sundayed at the M. Hladick home.

Quiet a few of our people attended the dance at Vesper Saturday night. All reported a fine time.

Mr. Deranek of Milwaukee made a call at the Joe Rokins and M. Adam home on Saturday.

Mrs. J. Jolinski and daughter, Mary, spent Saturday, Sunday and Monday at the J. Patrick home.

People in this vicinity are cutting corn.

Mrs. A. Adam of Vesper, Mrs. F. Rosey, Mrs. J. Rokins and children Sundayed at the Joe Hladick home.

Miss Lily Adam spent Sunday with Miss Jennie Benish.

SARATOGA

The farmers on Sunflower ave, finished their threshing last week and are now busy planting rye, harvesting millet and cutting corn.

C. Beers Sr., of Knox, Ind., and Chicago, is spending a vacation at the home of his daughter, Mrs. Leo B. Margrey.

John McGirr of DeKalb, Ill., was buying outfit in East Saratoga and along Sunflower ave, last week.

Mrs. C. O. Dietrich of Sunflower ave, was called to Chicago Saturday, Aug. 26th, by a telegram from her daughter, Mrs. Thos. Robinson.

School began in Dist. No. 8 last Monday. Miss Rums again waves the rod and imparts the germ of knowledge to the young hopefuls. In other words she still teaches the young idea how to shoot.

FOURTEEN MILE CREEK.

F. M. Rous and family and Miss Powers, the teacher, attended the harvest picnic at Spring Creek Friday.

Mrs. C. E. Duck was a Grand Rapids shopper Monday.

Miss Blossom Skinner of Grand Rapids, is visiting friends in this place this week.

Miss Mary Winegarden of Grand Rapids, visited her parents last week, returning Sunday.

Frank Duck and son, Lewis, visited his brother, Charley of this place last week.

Miss Florence Green went to Bancroft to work Sunday.

School commenced in Dist. No. 4 Monday with Miss Ada Green as teacher. We all wish her success in her undertakings.

Quite a number from this way attended the sale at the old Andrew Hager place Saturday.

A. G. Cotey was up from the Arpin marsh Sunday to get some needed articles in the medical line. He is the whole thing down there, even to doctoring his own and other people's ailments. The cranberry crop this year will be better than last year, a good average, he says, and the Arpin marshes will yield exceedingly well.

Mr. Edwin A. Peart and Miss Bessie Margaret Hedlund were married at the home of the bride's parents in this city Thursday evening at 7 o'clock, August 24th. Rev. J. A. Steman, of the Presbyterian church, Stevens Point, performed the ceremony. The ring service was used.

Albert Knoll made a business trip to Pittsville Monday.

Mrs. Jensen and children of Grand Rapids, are visiting with friends and relatives.

Clara Galt, Elsie Shwanbeck and Henry Seltrich were confirmed Sunday.

Hazel and Leslie Planke returned to their home in Grand Rapids after a five weeks visit at the home of Albert Knoll.

There was quite a big crowd attended church Sunday afternoon and evening.

Mrs. Jacob Jacobson is on the sick list this week.

Henry Egeen and wife took dinner with Mr. and Mrs. Art Sparks Sunday.

Mr. Nyquist is some better at this writing.

L. Winslow and Albert Galt made a flying trip to Pittsville Monday to get repairs for their threshing machine.

Mr. Winslow has finished sawing logs for Mr. L. A. Coffey.

Ed Zimmerman and Dave Sparks were Pittsville callers Monday.

Albert Knoll and wife spent Sunday with Mr. Jacobson and family.

Teaching seems to be the order of the day. Zimmerman of Grand Rapids is visiting at the home of her parents.

DOUBT DISAPPEARS

No One in Grand Rapids Who Has a Bad Back Can Ignore This Doubtful Proof.

Does your back ever ache? Have you suspected your kidneys? Backache is kidney ache.

With it comes dizzy spells, Sleepless nights, tired, dull days, Distressing urinary disorders. Cure the kidneys to cure it all.

Doan's Kidney Pills bring quick relief. Bring thorough, lasting cures. That's what thousands of Grand Rapids sufferers say.

Profit then by another's testimony. Two-fold and well confirmed. Mrs. Kate Clark, of Plainfield, Wis., says: "I suffered greatly from backache and kidney trouble.

I had headaches and was unable to get my proper rest at night. After using Doan's Kidney Pills, procured at Burdett's Drug Store, I was relieved and my condition improved in every way." (Statement given in July, 1907.)

THREE YEARS LATER. Mrs. Clark was interviewed on September 7, 1910, and she said: "The benefit Doan's Kidney Pills brought me has been permanent. I gladly confirm my former endorsement of them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Sept. 6,—16. State of Wisconsin } Wood County } City of Grand Rapids)

In Justice Court. Before Edward N. Pomainville, Esq., Justice of the Peace. To Paul Gogere: You are hereby notified that a summons and garnishes has been issued against you and your property, garnished to satisfy the demand of Gus Braun amounting to Twelve and 50-100 (\$12.50) Dollars. School and town order books for sale at the Tribune office.

H. F. Thiel and daughter of Marshfield, spent Saturday in this city.

Born to the home of Mr. and Mrs. August Manz, a baby boy last Wednesday.

An infant son arrived Monday morning at the home of Mr. and Mrs. Paul Goodrich.

Dr. J. A. Jackson of Rudolph was in the city on Monday looking after some business matters.

August Jacoby of Rudolph was among the pleasant callers at the Tribune office on Monday.

William Glene, proprietor of the Glene Brothers shoe store, spent a few days this week in Milwaukee on business.

Mrs. Joseph Wright and daughter, Marie, of Merrill, spent last week visiting at the home of Mrs. George W. Parnell.

High Giggins returned to his home in this city Saturday after attending the ten weeks' summer law session at Madison.

O. E. Goodrich of Grand Rapids, Michigan, who had been visiting his son in this city for a week, returned to his home on Friday.

Mrs. A. L. Norton celebrated her birthday Monday afternoon by entertaining a few of her friends at her home on Oak street.

D. J. Hayes of Dubuque, Ia., spent the past week in this city looking after business matters. Mr. Hayes is the owner of the Hotel Julian.

FOR SALE—Winchester Auto motor rifle .361 caliber, fitted with improved sights. In first class condition. Inquire O. E. Boles.

Mrs. Lydia Houston and her two grandchildren, Russell and Jack, of Green Bay, are visiting relatives at Mrs. Houston's former home in this city.

F. C. Brockhausen, Jake Grupp and Alex Baudell are camping up river near the Thomas McGraw farm where they are engaged in fishing and hunting deer.

S. F. Trisko of Waupun was in the city on Saturday. Mr. Trisko has been at Vesper where he is operating his son, Elmer, who is operating a printing office there.

Sam Church has purchased the daily paper agency from Geo. E. Wood and has been handling the matter since last week. Eph. Church is attending to the business at present.

Alvin Snyder resumed his work at Glene Brothers Monday morning after two weeks spent in Marlboro, while in Marlboro he operated a linotype machine in one of the newspaper offices.

Paul Love of Kansas City, Mo., spent several days in the city last week visiting with friends and relatives. Mrs. Love who had been visiting here and at Mosinee, returned home with Mr. Love.

Curtis Bernard, traveling salesman for the Rolland Packing Company, spent Saturday and Sunday visiting friends in this city. He returned Sunday afternoon to Green Bay where he makes his headquarters.

Rev. Fred Staff, of the Congregational church, preached his first sermon last Sunday since his month's vacation spent in the southern part of the state. A large congregation turned out to welcome the pastor home.

George Ormroff, who graduated last year from Lawrence College, spent last Saturday afternoon and evening in this city on his way to Tomah, where he has taken a position as professor of Economics in the Tomah high school.

Mrs. Dena Harvey, formerly of this city, and now employed as a stenographer at Madison, spent Labor day at the home of Mrs. Nan Schlotter. A few of her old friends were invited to the Schlotter home Monday evening. Mrs. Harvey spent Saturday visiting her son in Merrill.

Mrs. W. E. Little and daughter Julia, who had spent the past five weeks in the east, returned home on Friday. Mrs. Little attended a two weeks school conducted by the Sprella Corset Company and Miss Julia visited with relatives. They report a very pleasant trip.

Francis, the little daughter of Mr. and Mrs. H. Hill of Rudolph, met with a painful accident last Thursday while playing in the hay-mow. Losing her balance she fell down through a hole in the floor into the stable below, and when medical aid was summoned it was found that the child's shoulder was broken.

J. O. Bell and family departed last night for Gaydon, Louisiana, where Mr. Bell will supervise the dredging on the tract of land belonging to the White Lake Land company. Mr. and Mrs. Bell are leaving a large circle of Grand Rapids acquaintances, who wish them success in their new place of residence.

S. N. Whitley of Cranmoor was a business visitor at the Tribune office on Friday. Mr. Whitley began picking berries in a small way on his marsh last week, but expected to start up with a full crew on Monday morning. He reports a fair crop of berries on his marsh and says other growers in that locality are similarly situated.

Reports received at the office of Secretary Graneland of the State Horticultural Society show that over 75 carloads of Wisconsin strawberries, averaging three hundred bushels each, were shipped this year to points outside of the state. Most of the Sparta berries go to Minnesota and the Dakotas. Bayfield ships as far south as St. Louis.

Bob Friedrich, of Nekosco, was in the city last Saturday on his way to Chicago, where he took in the boat race between Frank Gotoh and the Russian Lion on Labor day. He will be in Sheboygan Falls day after tomorrow to meet Abel, of Madison, in what promises to be an interesting match to those interested in the game, after which Bob will come back and wrestle Dave Sharkey in Rudolph on the ninth.

Miss Alma Abel spent Sunday at Wausau.

"No Hunting Allowed". Signs for sale at the Tribune office.

Miss Inez Reibel left on Saturday for Milwaukee, where she will finish her course in the normal school.

Boy attending high school would like a place to work for his board.

Apply at Tribune office.

Mrs. Abner Atwood of Biron was a visitor in the city on Thursday attending to some business matters.

Mrs. W. C. Merrill returned last week from a two weeks visit with friends in the northern part of the state.

Dr. E. J. Clark and family, and J. S. Clark and family spent last Sunday at one of the club houses above Biron.

Miss May Johnson returned on Wednesday evening from a six weeks visit in Madison, Janesville and Milwaukee.

T. P. Poreenboom sold his Maxwell runabout last week to Rev. Dowey, who will use the machine in his work in the nearby towns.

Prof. M. H. Jackson returned home Saturday afternoon after a few weeks summer institute work at Fowler and South Bend, Indiana.

Mrs. F. O. Brockhausen and little daughter left last week for Milwaukee where they will visit with relatives for a couple of weeks.

A suitable wedding gift is usually a hard thing to select. This week's ad of the First National Bank makes a good suggestion along this line.

Mrs. J. W. Natwick and Mrs. M. H. Jackson were in Nekosco Monday evening to attend an informal party at the home of the former's sister, Mrs. Wm. Hooper.

Miss Anna Hayward of Neenah, is paying a two weeks' visit at the home of her nephew, E. L. Hayward, principal of the Grand Rapids business college.

Mr. and Mrs. Glen Foss, of Tomahawk were in Grand Rapids Tuesday and Wednesday. Mr. Foss came down to throw for the locals against Fox-Lake.

O. Koeholm, who resides up river near the Portage County line, has been under the weather for a week past, but has been able to be about most of the time.

Sixty-five carloads of strawberries were shipped out of Sparta this year. This amounts to over 37,000 cases of 16 quarts each. Sturgeon Bay shipped 40 cars of strawberries.

Fred G. Rockwood, formerly of Vesper, who has spent the past year doing carpenter work in South Dakota, returned to Grand Rapids last Saturday with the intention of looking up work for the fall months.

Miss Mabel Hamilton, who had been spending her vacation at the home of her parents, Mr. and Mrs. C. L. Hamilton, left for Oshkosh on Friday to take up her work in the schools there again.

Wm. Jackson of the town of Seven brought in a large apple on Monday morning, the fruit having been raised on his place. It is a fine specimen and demonstrates that some apples may be raised in Wood County.

Frank Andrews of the town of Sigel favored the Tribune with a pleasant call on Monday while in the city. His school was to open on Tuesday, they having remained closed on Monday on account of Labor Day.

Misses Katherine and Dorothy Steele returned Saturday night to their home in Port Edwards after an extended tour through the east, visiting for a greater part of the time with relatives at Dorchester, Massachusetts.

John Backley returned to this city Monday after spending the summer vacation at his home in Colorado. He will attend the Grand Rapids high school again this year and will live at the home of his grandmother, Mrs. Claressen Arpin.

Bert McLees left on Monday for Marshfield and from there he goes to Oshkosh to visit with friends. The boys say that Bert intends to return to this city a benedict, having selected a young lady in Oshkosh for the future Mrs. McLees. Well, Bert has our best wishes in case anything of the kind occurs.

Miss Ruby Natwick leaves tomorrow for Chicago to resume her study of vocal music. She expects to leave in November for a winter concert tour with a ladies' quartette, known as "The College Girls' Quartette," an organization which has already made a number of successful appearances in Chicago.

Labor Day was observed in this city by the banks and postoffice closing and the members of the different labor organizations taking a day off, but there was no public demonstration. In many places the members of the trades unions celebrate the event by a parade in the morning and a picnic dinner with doings of some kind.

The Cow and the Moon, presented at Daly's Theater on Sunday evening did not pull as large a crowd as it should considering the merit of the production. It was full of fun all the way thru and there were a number of mysterious effects that were good. The costumes were very nice and there was an abundance of singing.

The State Horticultural Society now publishes a 16 page monthly magazine, Wisconsin Horticulture, which is sent free to members of that organization. The fee for annual membership is but 50 cents and includes a copy of the Annual Report, a book of 250 pages. In addition to the magazine, W. H. Graneland, Madison, is the Secretary.

S. H. Smart left this city about a month ago for Florida, and located near Jacksonville, where he had purchased a small tract of land. Mr. Smart had been troubled considerably with rheumatism during the winter months in this city, and hoped by the change to get rid of his old malady. Recent advices from Mr. Smart are to the effect that while he has not suffered any from rheumatism, he has been inconvenienced considerably by the excessively warm weather.

Fred Finupp, who has been at Alliance, Ohio, during the past year, returned to this city last week and expects to spend a few weeks visiting his people in the town of Sigel.

Announcements have been received concerning the marriage of Gay Wood of this city, and Miss Helen Hayden, of Lexington, Kentucky. They will be at home in Eau Claire after October first.

Mr. and Mrs. Frank Abel, who have been living at the home of the former's parents on Tenth street, are moving into the house at the corner of Oak and Fourth street recently vacated by J. O. Bell and family.

C. W. Rood, of the Rood Construction Company, left yesterday over the Green Bay and Western for Alberta, Minnesota, and Great Falls, Nebraska. He will spend some time looking over prospect work in the two states.

The automobile factory question is still a live one, although as yet the interested parties have not been on the grounds to exhibit their machines. S. F. Darga, of the Grand Rapids Commercial Club, says that the matter will probably be settled this week.

Armor Plate hosiery isn't made of coarse, heavy yarns, that isn't the secret of its great wearing qualities. It wears better because it isn't rotted in the dying process like most hosiery is. You'll be interested to hear more about this wonderful hosiery. At the Fair, west end of the bridge.

An Appleton man has invented a mechanical cow milker which is said to be a perfect success in every way and on which he has applied for a patent. The new milker is different from those that have gone before, as once it has been applied to the cow, it remains there, and all that is necessary is to hang a pail on the harness, turn a faucet and draw off a pail of milk. Milkers may come and milkers may go, but it is probable that Hiram, armed with a tin pail and a one-legged stool, will continue to coax the lactating fluid from the mild-eyed bovine in the same old way for some little time yet.

Biggest Fair of the Season.

Manager John Bell reports that the monthly stock fair to be held next Tuesday, will be the biggest thing of the kind ever held in this city. He reports that there is an unprecedented demand for horses, both draft and driving animals and farmers and others having such for sale are instructed to bring them in.

The ladies of the different churches are notified that if they have any articles of furniture which they want sold for the benefit of the church, that the articles will be auctioned off free of charge.

The Packing house will pay Chicago prices for all fat stock.

The Grand Rapids Brewing Company will give an eighth of beer to farmer bringing in the largest number of empties.

Those having farm machinery, wagons or buggies which they want to dispose of are instructed to bring them in.

There is a good demand for little pigs. Also a number of new milch cows wanted.

Don't forget the day and date, Tuesday, Sept. 11.

How to Kill Flies

To clear rooms of flies carbolic acid may be used as follows: Heat a shovel or any similar article and drop thereon 20 drops of carbolic acid. The vapor kills the flies.

A cheap and perfectly reliable fly poison, one which is not dangerous to human life, is bichromate of potash in solution. Dissolve one dram, which can be bought at any drug store, in two ounces of water, and add a little sugar. Put some of this solution in shallow dishes, and distribute them about the house.

Sticky fly paper, traps and liquid poisons are among the things to use in killing flies, but the latest, cheapest, and best is a solution of formalin or formaldehyde in water. A spoonful of this liquid put into a quart of a pint of water and exposed in the room, will be enough to kill all the flies.

To quickly clear the room where there are many flies—burn pyrethrum powder in the room. This stupefies the flies when they may be swept up and burned.

If there are flies in the dining room of your hotel, restaurant or boarding house, complain to the proprietor that the premises are not clean.

Changes In School Laws.

Below is given a synopsis of some of the important school laws for the guidance of parents, scholars and teachers, passed by the legislature this year and which are now in effect.

It forbids spitting on the floors of school houses and other public buildings. Requires notices to be posted in such buildings forbidding spitting and requires that spittoons be provided and properly cleaned and disinfected.

Saturday, June 22, 1912, sees the end of the township system of school government in Wisconsin. The township may still be the school district, but must be organized and run as an independent district. The town board of supervisors, after granting a public hearing, shall proceed to create one or more suitable independent districts. This meeting shall be held between March 1 and June 1, 1912, and the resulting order shall be effective June 22 following.

In theory, the township system seems ideal, but so many abuses and defects were connected with its practical administration during the many years of its existence in Wisconsin that the legislature cut the Gordian knot by abolishing it. The system prevailed mainly in the northern part of the state.

History of Wisconsin is specifically added to the subjects that shall be taught in every district school. In as much as this subject has been taught as a part of the history of the United States, this law will mean in effect that the history of Wisconsin shall receive more time and attention than heretofore.

School boards are authorized to permit the use of school houses for such civic, social and recreational activities as in their opinion do not interfere with the use of the buildings for school purposes.

Non-partisan, non-sectarian, and non-exclusive association of citizens of the community shall be allowed the use of school buildings free of charge.

In cases where there are children of school age living more than two miles from the school house in the home district and transportation is not provided, and there is another school in an adjoining district nearer to the home of such children by half a mile or more the children shall be privileged to attend the nearer school. The school district in which the children live shall pay their tuition, not, however, to exceed \$1.00 per month if they attend a rural school or \$1.75 per month if they attend a state graded school or grades below a free high school.

The rates above named are also the maximum charge that can be made by a district in cases in which the parent or guardian pays the tuition.

Chapter 545 of the laws of 1911 appropriates to each school maintaining a department of manual training, or domestic economy, or agriculture, or any or all of said departments, one-half the amount actually expended for instruction in each such department; not, however, to exceed \$350 for each department above named which shall have been maintained in connection with the high school and the three upper grades below the high school, but not to exceed \$250 for each department named maintained only in connection with the high school.

Under this act a school district maintaining courses in agriculture, domestic economy, and manual training in both grades and high school may receive as much as \$1,050 per year for special taxes and \$25,000 annually to the district free high school fund. This makes the amount \$106,000. The increase will add approximately \$100 to the appropriation to each district high school, which last year amounted to \$356,75.

The law provides that the certificate granted to a graduate from a county training school for teachers shall have the full force and effect of a third grade certificate as issued by a county superintendent, and shall be valid for three years in ordinary cases and if the holder shall have completed a four-year high school course and taught successfully for seven months, the certificate shall be valid for five years and legally qualifies the holder to teach in any department of any state graded school, the principalship of a state graded school of the first class excepted.

This important measure provides that whenever the electors vote to close the school in any rural school district and provide transportation and tuition for all persons of school age who may desire to attend school in a district maintaining a state graded below a free high school or a first class rural school, or at least thirty-two weeks in the year, the district closing the school may receive as special aid, in addition to the moneys received from the distribution of the usual school fund, \$1.50 annually. If arrangements are made to transport the children to a rural school the building must be equipped, maintained and taught under the provisions relating to a rural school of the first class.

A Wedding Gift

of five or ten dollars in the Savings Bank may lead the happy pair toward habits of systematic saving, which will in a short time increase the amount to a three figured amount.

Small deposits are welcome at the old

First National Bank,

Plants May Be Kept Throughout The Winter

Throughout zero weather you can keep your house plants by using Cole's Original Hot Blast Heater.

This heater maintains a steady even temperature day and night. It will hold fire and heat over night and you can heat your living rooms for two hours next morning with the coal put in the night before.

The patented construction of

Cole's Original Hot Blast Heater

enables the manufacturer to guarantee it to remain always air-tight.

You have perfect control over the fire at all times. Thus, the coal does not waste away and you don't have to kindle a fire in the morning as with other stoves.

Think of it! Your dressing rooms and breakfast rooms warmed by the fuel put in the night before.

This truly great heater is growing in popular favor year after year. The following is a message just received from the manufacturer:

We are working full force to supply the demand

for Cole's Original Hot Blast Heater—Never in

our history was the demand so heavy for our

better finished heaters.

Cole Manufacturing Co.

Now is the time to select your heater. We will set one aside for you and have it ready when you wish it put up.

Burns Soft Coal, Slack, Lignite, Hard Wood and lighter fuel.

Come now while the assortment is complete.

Cole's Hot Blast Stoves and Ranges Sold With Confidence. They are the Best Made.

mit to himself that she had almost guessed right. Now he came to think of it, he had taken this stand in the matter because he knew that any other course would displease his wealthy client. After all, was he doing right? Was he acting in conformity with his professional oath? What he not letting his material interests interfere with his duty? He was silent for several minutes, and then, in an absent-minded kind of way, he turned to his visitor.

"So you think I'm afraid of him, do you?"

"I'm sure of it," she said, quickly. "You liked my husband, and you just love to rush in and fight for him. His father thinks he is guilty and, well—you don't like to disobey him, it's very natural. He's an influential man, a personal friend of the president, and all that. You know on which side your bread is buttered, and—oh, it's very natural—you're looking out for your own interests."

Judge Brewster interrupted her impatiently.

"Circumstances are against Howard. His father judges him guilty from his own confession. It's the conclusion I'm compelled to come to myself. Now, how do you propose to change that conclusion?"

"You don't have to change it," she said, quietly. "You don't believe Howard guilty."

"I don't," exclaimed the lawyer. "No, at the bottom of your heart. You know Howard when he was a boy,

question. How do you account for Howard's account for it?" she replied, as she resumed her seat. "He says he didn't confess. I don't believe he did."

"But three witnesses—" she interrupted, contemptuously. "Policemen!" "That makes no difference," he said. "He made a confession, and signed."

Annie leaned forward. What did this question mean? Was the judge becoming interested after all? Her heart gave a leap as she answered eagerly.

"He confessed against his will. I mean—he didn't know what he was doing at the time. I've had a talk with the physician who was called in—Dr. Bernstein. He says that Capt. Clinton is a hypnotist, that he can compel people to say what he wants them to say. Well, Howard is—what he said—subject—they told him he did it. He believed he did."

"Oh, well, what's the use—"

The judge quickly put out his hand and partly pushed her back in the chair.

"Don't go," he said. Then he asked, "Who told you he was a hypnotic subject?"

Her hopes revived once more. Quickly she said:

"Dr. Bernstein. Besides, Howard told me so himself. A friend of his at college used to make him out all sorts of capers."

"A friend at college, eh? Do you remember his name?"

"Howard knows it."

"Um!" ejaculated the lawyer. He took up a pad and wrote a memorandum on it. Then, he said, "I'd like to have a little talk with Dr. Bernstein. I think I'll ask him to come and see me. Let me see. His address is—"

"342 Madison avenue," she exclaimed, eagerly.

The lawyer jotted the address down, and then he looked up.

"So you think I'm afraid of Mr. Jeffries?"

She smiled.

"Oh, no, not really afraid," she answered, "but just—scared. I didn't mean—"

Judge Brewster was enjoying the situation hugely. He had made up his mind to what to do, but he liked to see this bold young woman who had not been afraid to show him where his duty lay. Striving to keep a serious face, he said:

"Oh, yes, you did, and I want you to understand I'm not afraid of you. As to allowing my personal interests to interfere with my duty—"

Annie took alarm. She was really afraid she had offended him.

"Oh, I didn't say that, did I?" she exclaimed timidly.

Judge Brewster forced his face into a frown.

"You said I knew on which side my bread was buttered!"

"Did I?" she exclaimed in consternation.

"You say a great many things, Mrs. Jeffries," said the lawyer solemnly. "Of course, I realize how deeply you feel, and I make excuses for you. But I'm not afraid. Please understand that."

He rapped the table with his eyes-glasses as if he were very much offended indeed.

"Of course not," she said apologetically. "If you were you wouldn't even see me—let alone talk to me—and—"

Pointing to the piece of paper he held in his hand, she added: "And—"

"And what?" demanded the judge, amused.

Half hysterical, now laughing, now crying, she went on:

"And—take the names and addresses of witnesses for the defense—and—think out how you're going to defend Howard—and all that—"

The lawyer looked at her and laughed.

"So you think I'm going to help Howard?" he said. "You take too much for granted."

(TO BE CONTINUED.)

"You Take Too Much for Granted."

and you know he is as incapable of this as you are."

"Mrs. Jeffries, how do you know that your husband did not kill Robert Underwood?"

"I know it," she said, confidently.

"Yes," persisted the judge, "but how do you know that?"

Annie looked steadily at him, and then she said solemnly:

"I know there's a God, but I can't tell you how I know it, that's all. Howard didn't do it. I know he didn't."

The lawyer smiled.

"That's a very fair sample of female logic."

"Well, it's all I have," she retorted, with a toss of her head. "And it's a mighty comfort, too, because when you know a thing you know it and it makes you happy."

Judge Brewster laughed outright.

"Feminine deduction!" he cried. "Think a thing, believe it, and then you know it!" Looking up at her, he asked:

"Haven't you any relatives to whom you can go?"

She shook her head.

"No," she said, sadly. "My father died in—Sing Sing—and the rest are not worth—"

"Yes, yes, I know," replied the judge, hastily. "I got your family history from Mr. Jeffries after your marriage. It is filed away among the papers. It is filed away among the papers. It is filed away among the papers."

She smiled sadly.

"It's a wonder you don't burn 'em up—my folks were not a very brilliant lot." Earnestly she went on:

"But my father was all right, Judge. Blood was thicker than water with him. He'd never have gone back on me in the way Howard's father has on him."

The lawyer looked at her fixedly without speaking. Their eyes met, and the silence continued until it became embarrassing. Judge Brewster shook his head.

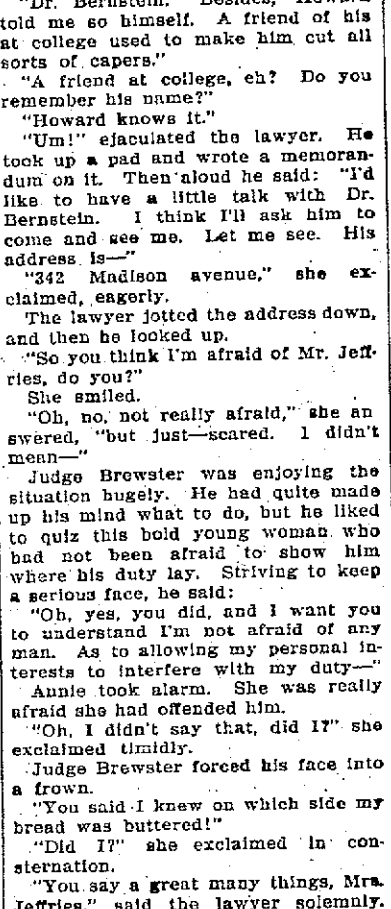

"It's too bad. I'm sorry for you, really."

Annie laughed, and he asked:

"Why do you laugh?"

"What's the use of crying?" she said. "Ha! Ha! It's almost a joke. You're sorry my father-in-law is in jail, and I suppose my mother-in-law is in jail, and you're all wearing caps for us, but why can't those boys do something?"

The lawyer said nothing. He still

"You Take Too Much for Granted."

reached the way food products stay up. And an instant later the sealant and the black-and-white olive-colored ink had flowed around the corner in a vanishing cloud of gasoline vapor, and another food boycott was on. Pittsburgh Times-Gazette.

Up-to-date, caution.

Mother bird—Run along and play now; but be careful you don't get run over by any of those flying machines."—Metropolitan Magazine.

When an olive-colored touring car as big as a coal gondola drew up in front of a stall at the market house there was some lively stepping by the marketeers. The man at the wheel wore a huge bearskin coat that must have set him back \$300; the female occupant was dressed in a seal-skin that cost the exact duplicate of a thousand-dollar bill, while every

Forgetting His Own Dinner Party.

There was a surprise for a couple of men in the Hotel Knickerbocker, at New York, recently when one found the other eating a five-course dinner alone in the cafe. The latter man had asked 30 friends to join him at an elaborate dinner in a private dining room; there and in an absent-minded moment had walked into the cafe, where he was half way through his repast, when he was seen by one of his guests.

"What are you doing here?" asked the guest.

"Why shouldn't I be here?" asked the host.

"But what about us?"

Then the fact that his own dinner party was to take place in half an hour came to the host.

The Woman in the Moon.

About nine days after the new moon's "pale" and "unmistakable" face in the sky, the "lunar lady" who is worth watching for, is formed by the mountains and tablelands embraced by the "Sons of Tranquility." Vapors and Serenity, and is best seen through an ordinary opera glass.

HARVESTER AT WORK

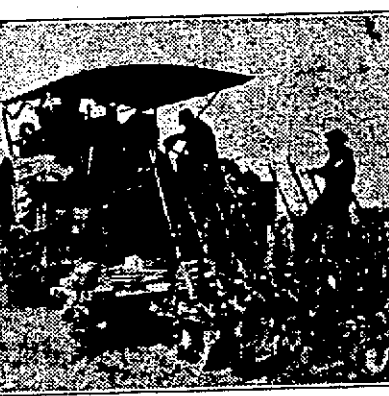

Uncounted Miles of Bountiful Crops Make Glad the Farmers of Western Canada.

YIELD WILL BE RECORD ONE

Practically Beyond Reach of Accident, the Fruit of the Fertile Fields is Being Gathered—Elevators and Railroads Will Be Taxed to Their Capacity.

On a beautiful Saturday afternoon, four weeks ago, the writer started for a twenty-mile drive into the country, from one of the hundred or more new towns that have been well started during the past spring, in the Province of Saskatchewan, in Western Canada. Mile after mile, and mile after mile, was traversed through what was on the surface a level, the only relief to the scene being the roadways that led back into other settlements, where would have been repeated the same great vista of wheat.

What a wealth! Here were hundreds and thousands, and millions of bushels of what was declared to be a quality of grain equal to any that have been grown in the province. As we drove on and on I thought of those fellows down on the Board of Trade at Chicago, St. Louis, Minneapolis and Duluth. While they were exploiting each other's energies the farmer of Saskatchewan, Alberta and Manitoba was contemplating how much he would realize out of his crop, now past his danger of accident, over what his anticipations were two months ago. One man said to me: "The profits of that field of wheat will give me sufficient money to purchase 320 acres of land, for which the railway company is asking \$2,400, and pay it in cash. Another with a field of flax—it was only 320 acres—said

Steam Plowing in Western Canada.

he could do the same and still have a balance in the bank. Flax produces wonderfully well, and the current price is about \$2.50 per bushel. They drove over into another town, getting further back from the railway, and the main travel road. Here we found ourselves in the center of a Swedish settlement. These farming the settlement were originally from Nebraska. Invited to put up our horses and stay over for dinner, and a dinner that was enjoyed not only by the settlers, but by the writer, who, as a result of the clean linen, the also prepared dishes of roast fowl, potatoes, cabbage, and a delightful dessert, some of the history of the settlement was learned. The host and his wife were modest in their own achievements, and equally modest in those of their friends, but enough was learned to satisfy us that they had come there about three years ago, in moderate, almost poor, circumstances. Most of them had received their homesteads as a gift from the government, and by careful tillage had purchased and paid for adjoined land. They had plenty of cat-johning land, some sheep and hogs, and large well-kept gardens, showing an abundance of potatoes and cabbage and other vegetables. Their buildings were good. Schools were in the neighborhood and there was evidence of comfort everywhere.

On to the Park Country.

Reluctant to leave these interesting people, the horses thoroughly rested, were "hooked up" and driven on, under a sun still high in the heavens, with the horses pulling on the bit and traveling at a 12-mile an hour gait over a road that would put to shame the best of the macadamized streets. We were waded along a sinuous drive were through the woods and then into the park country.

Here was another scene of beauty, groves of poplar, herds of cattle, fenced fields of wheat and oats and barley and flax. Here was wealth, and happiness and security, contentment. The crops were magnificent. The settlers, most of them, by the way, from Iowa, had selected this location because of its beauty. Its entire charm was wholesome. Fuel was in abundance, the soil was the best, the shelter for the cattle afforded by the groves gave a splendid supply of food, while hay was easily to be had. Here was a sturdy farmer, liked it. Here was a sturdy farmer, liked it. Here was a sturdy farmer, liked it.

Chess Players Mourn.

In the death of Albert de Rothschild the great fraternity of chess players has lost a devoted brother, according to one of the Vienna biographers of the late financier. He was one of the founders and for many years the president of the Vienna Chess club and a devotee of the royal game. "Not only in the councils of the organization did he take an active part, but for years he has been a player," says one paper.

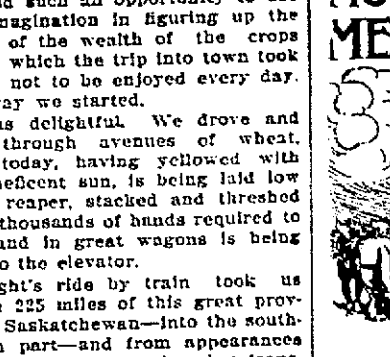

Always.

The Cop—Which of these houses do you live in?

Mr. Jagger: "Take me all 'long the street, I'm in every door, and I'm only one I can't open 'em, Puck."

The fighter for conquering is the one who can last and has the open brain—and there you have a point against alcohol.—George Meredith.

It's easier to part a fool and his money than a wise man and his wisdom.

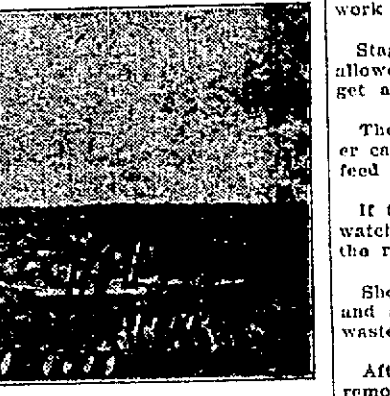

One of the very best feeds to grow for sheep is fodder corn.

It was a night's ride by train took us through 225 miles of this great province of Saskatchewan—into the southwestern part—and from appearances it might have been as though a trans-fer had been made across a township. There were wheat fields, oat fields, barley fields and flax fields, and many more that could not be seen. Yet there they were, and during the night we had passed through a country similarly cultivated.

It will all secure a market and get its way to ocean or local mill by means of the great railways whose well-arranged systems are penetrating everywhere into the agricultural parts.

Prosperous Alberta.

We afterward went over into Alberta, and here again it was grain and cattle, and the best of churches and the most thoroughly equipped schools. While talking with a Southern Saskatchewan farmer he said that he had been offered \$60 an acre, had been purchased five years ago for \$12 an acre, and he would sell. He is making a good profit on his land at \$48 an acre, and why should he sell? Farther north, land was selling at from \$15 to \$18 and \$20 an acre. It was learned afterward that the soil was similar to that in the south, the climate was similar, and the markets as good. In fact the only difference was that today those northern lands occupy the same position that the more southerly ones did five years ago, and there are found many who

One of the very best feeds to grow for sheep is fodder corn.

say they will come into a price nearer their legitimate value of \$50 or \$60 an acre quite as quickly as the southerly lands. And I believe it.

Throughout all this great country, practically 500 by 800 miles square, there are still a great many homesteads which are given free to actual settlers. Many who have secured patents for their homesteads consider their land worth from \$18 to \$25 per acre.

Immense Crops Assured.

Throughout the southern portion of Alberta, a district that suffered more or less last year from drought, there will be harvested this year one of the best crops of fall wheat, winter wheat, oats, flax and alfalfa that has ever been taken off these highly productive lands.

In Central Alberta, which comprises the district north of Calgary and east two hundred miles, through Camrose, Sedgewick, Castor, Red Deer, Wetaskiwin, Edmonton, Lacombe, Vegreville, Tofield, Vermilion and a score of other localities, where are settled large numbers of Americans, the wheat, oats and flax, three weeks ago, was standing strong and erect, large heads and promising from 30 to 35 bushels of wheat and as high as 100 bushels of oats on carefully tilled fields, while flax would probably yield from 15 to 18 bushels per acre. In these parts the harvesters are busy today gathering this great crop and it will shortly be known whether the great anticipations are to be realized.

Throughout all parts of Saskatchewan, whether north, south, east or west, the same story was heard, the evidence was seen of the splendid and bountiful crops.

Rich Yield in Manitoba.

In Manitoba it was the same. The fields of grain that were passed through in this province promised to give to the growers a bumper yield, and as high as 35 bushels of wheat and 60 bushels of oats was freely discussed.

It would appear as if the expectation of an average of 25 bushels of wheat throughout the three provinces would be met.

In a few days the 40,000,000-bushel elevator capacity throughout the country will be taxed, the 25,000,000 bushels capacity at Port William and Port Arthur will be taken up, and the railroads and their equipment will be called upon for their best. Today the great, broad, yellow fields are industrial bays, the self-industry is at work in its giant task of reducing into sheaves the standing grain, the harvesters are busy stacking and stacking, the threshing machines are being fed the sheaves, the large box wagons are taking it to the elevators, and no matter where you go it is the same story and a picture such as can only be seen in the great grain fields of Manitoba, Saskatchewan and Alberta.

Market for Human Hair.

The annual hair fair was held at Longwood, France, a few days ago. This curious market brings the great dealers in human hair and the representatives of important hairdressers from all parts of Europe, America, Spain and Austria, and Rome, and the great towns of France. Fair and dark hair is seen there in great quantities, but here and there can be seen rarer plaits of white hair, which with the red, are sold for as much as \$60 and \$70 a kilo.

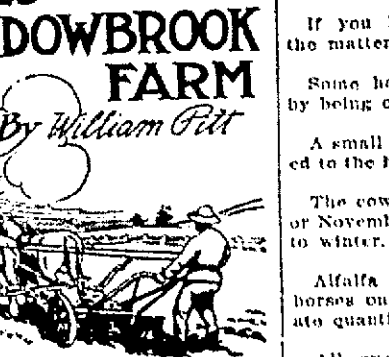

His Inspiration.

Wagner told where he got his inspiration.

"It was from the garbage cans, being emptied at night," he confessed.

Love is a triple cord, and when all three strands are firmly knotted together, the cord can break or end it—not even death.—Bain.

Big things are only little things put together. It is ignorance of this fact that makes some men afraid to try.—W. P. Warren.

One of the very best feeds to grow for sheep is fodder corn.

Blue grass and white clover make an ideal pasture for sheep.

Corn for grain and alfalfa hay go well together in animal feeding.

Sudden changes in the calf's feed are almost certain to start trouble.

All dairy utensils should be washed as soon as possible after being used.

If you grow squashes and have never seen the squash bug you are fortunate.

Be sure there are no drafts in the hen house or your hens are likely to have the roup.

Chicks and young cockerels are apt to become weak in their legs while running at large.

Look out for ticks. Your sheep can not fatten if they are troubled with these pests.

The brood mares in foal should be handled by a firm, steady hand, not an excitable, rash hand.

With over 100 breeds of chickens already in existence, breeders are at work trying to fix new ones.

Stagnant water should never be allowed to remain where sheep can get at it. It conveys parasites.

There is no crop that a stock feeder can grow that will make as much feed as corn and peas or soy beans.

If the man who has no silo would watch his neighbor feed and watch the results he would soon have one.

Short rows cause frequent turning and a consequent loss of time and wasted energy for both man and team.

After the asparagus season is over remove the weeds, stir the soil and put a coating of well-rotted manure on the bed.

There is only one time when a poultryman is justified in selling a good pullet, and that is when he is going out of the business.

Dairying does not imply that any other line of farming is bad. It makes the fields more profitable and the farm more profitable.

It makes some horses ugly to work them with horses that do not travel up with them. Match them as to gait as well as to other things.

A drop of melted lard rubbed on top of the head and another drop under its bill and along the neck will put an end to the head lice.

One reason why more farmers do not have better breeds of poultry is because the hatching and brooding season comes in their busiest time of the year.

To succeed with celery you should have cold manure or muck applied in large quantities. It is a deep feeder and does best on a compact cold or deep soil.

All crops should be severely thinned—better have a good crop of corn than two bushels; better have a good bush than a thrashy rubbin and an empty sheaf.

The sow should be given a warm unfired slop, made fresh for each meal, whole oats and a little sound corn twice a day.

In order that a horse may trot or pace he must have the physical conformation, adoption to the gait, and a favorable condition of mental and nervous organizations.

Keeping down the weeds will aid the garden crops in maturing, and make picking easier. Muck the surface of the ground with old straw in case of dry conditions.

If you have a crop of heifer calves, be sure to select those that have the greatest promise of being producers. Give them the best of care and build up your future herd in this way.

The condition of the soil, the location with regard to schools and markets and the desirability of a farm from a general standpoint are three things that should enter into consideration before buying.

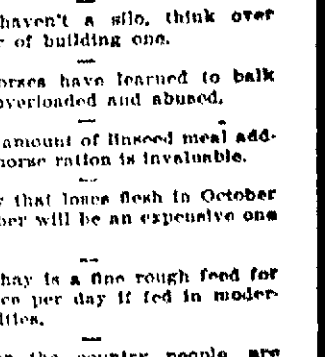

Do you know that stone coal is eaten with great relish by hogs? Some haul a part of a load and dump in the hog lot, others take the slack from the fuel pile and they eat it as greedily as if it were corn. The feeding value is no doubt small, but there is something in it the hogs crave, so supply it.

In starting with sheep it is advisable to select a few good ewes and a pure-bred ram and gradually enlarge the flock as we gain a better knowledge of the business. One may gain considerable knowledge from reading good books and papers, but with a kind of live stock, there are certain lessons that must be learned by associating with the animals themselves.

The cow is the final judge as to the real worth of silage. She is the ultimate consumer, and when she says that silage is the best dairy feed the wise dairyman will abide by her decision.

It is poor policy to starve and stunt a pig during the first few months, expecting to make it up by heavy feeding later. The 100-pound pig makes gains 20 per cent cheaper than the 200-pound pig if equally thrifty.

When selecting a cow for the dairy look and see if the eye of the animal is large and full. The largeness of the eye indicates a strong nervous system. Digestion and milk secretion is the work of the nervous system. The nervous system is the power that drives the animal's milk machine.

One of the very best feeds to grow for sheep is fodder corn.

It is a cow it is worth raising at all, be it worth raising well.

If you haven't a silo, think over the matter of building one.

Some horses have learned to balk by being overloaded and abused.

A small amount of linseed meal added to the horse ration is invaluable.

The cow that lones flesh in October or November will be an expensive one to winter.

Alfalfa hay is a fine rough feed for horses once per day if fed in moderate quantities.

All over the country people are keeping better poultry than they did a few years ago.

Sweet corn is a very profitable crop. One reason for this is because it is so easily handled.

Cow pox is a contagious eruption; running a fixed course, and accompanied by a slight fever.

Mature hogs that are thin may be made a gain of a half pound a day on alfalfa without grain.

Running the mower along the sides of the ditches will make it easier keeping them clear of weeds.

Hot water and sunshine are two of the best cleansers for the dairy utensils that can be found anywhere.

Some English farmers are paying as high as \$400 per pair for American mules to send to the Argentine Republic.

Until we get perfect animals we should watch for a sire that in some particular is superior to the cows in our herd.

A good pedigree counts, and the good ram is bound to show his good points; if he is not good he will show his defects.

Many orchards have sufficient available plant food, but lack water at that critical period while the tree is fruit making.

The man who has plenty of selling crops does not fear the dry pastures so much as the one who depends upon the grass alone.

Of the insects attacking squashes, melons, cucumbers, pumpkins, etc., the common striped cucumber beetle is the most injurious.

The right time to castrate pigs is a week or so before they are weaned. If healthy, if delicate, wait a week or so until they are stronger.

The separator is an absolute necessity upon the modern dairy farm. It safeguards the health of the calves and the pigs and increases the profits.

No cow can properly digest and assimilate balanced rations and economically convert them into milk unless she has been properly developed.

The keeping of goats for milk is not a fact, and the breeding of dairy goats is coming to the front most rapidly in both the United States and Canada.

A well planned garden is one that will allow as much of it as possible to be cultivated with a horse. Hoofing in the garden doesn't set well with most of us.

When pigs are six weeks old they may be turned into grass, and clover pasture if the weather is warm. If cold and ground wet, keep them in dry, rooey pens.

When water is given a short time before feeding it passes out of the stomach quickly and leaves that organ free to deal with any food consumed afterward.

Expert truckers and market gardeners apply, in connection with manure spread in the drill or hill, 600 to 800 pounds of some standard bone phosphate to the acre.

Young pigs should have the best of care and get to eating nicely while on the mother. They should not be weaned until they are nine weeks old if good results are obtained.

Stewers fed on clover hay will not only consume more roughage, but also more grain than those fed on timothy hay if grain and roughage are fed according to appetite.

A vicious old mare in a herd of horses, in the pasture is likely to do great harm by biting and kicking. She should either be hobbled or kept entirely away from other horses.

A field of rape makes an excellent summer pasture crop for sheep during the dry summer period when the regular pastures are either too short or burned entirely down.

Experiments made at the Pennsylvania experiment station show that hill strawberries are not larger and better formed than those grown in matted rows, just as the matted row is a narrow one.

To prevent thumps rear the rows are not fed too much while the pigs are young and also see that the pigs are kept moving and kept warm. Make them take their exercise whether they want to or not. Thumps is a fatty degeneration of the heart, and can only be prevented by withholding food and compelling exercise.

It has been proven that the cow coming fresh in the fall and giving her largest flow of milk through the winter will produce during the year half more than the cow coming fresh in the spring. To make her do this, however, she must be well fed and sheltered during the winter to maintain a heavy flow of milk. Pasture grass comes in the spring, when she will again increase in flow.

It is important that every drop of milk should be drawn from the udder for the richest milk comes last and in addition to this, if the cow is not milked dry she will fall off in her show more quickly.

Another Food Boycott

When an olive-colored touring car as big as a coal gondola drew up in front of a stall at the market house there was some lively stepping by the marketeers. HOW IT LOOKED TO A RUDOLPH SPORT

Who is John Little? This question was asked in the Milwaukee Journal a few days ago. Ask Nekoma. Rob Fredericks, the Nekoma strong boy started in to throw John Little of Milwaukee three times in one hour at Daly's opera house last Thursday. Both boys came together in the center of the mat with a hand shake, then the fun commenced. The mixup only lasted a couple of minutes and Rob managed to get his worthy antagonist to the mat. But oh, in what a funny position. Instead of being on his back as Rob intended he should be, John was sitting in an upright position on the mat. This being a comfortable position he decided to stay there a few minutes and pass away the time. Not being in the right position so that the referee could call him down Rob undertook to change his position but all in vain. This could not be done. The crowd suggested using a cant hook stump machine and all other means of handling heavy loads, but all in vain. The load of 150 lbs. could not be moved.

This being play, and tired of play, Little decided to stand on his feet once more. This was easily done. Being on his feet and in no danger he started after Rob. Pushing him all over the stage he finally found a soft spot (barn covered with a canvas). This being a good place he picked up his load of 210 lbs. and placed it gently on the mat, almost in a position that could be called a fall. The balance of the hour Rob was on the defense.

Business College Has Good Opening Attendance.

The Grand Rapids Business College opened Monday morning with 20 students enrolled, representing nearly every section of Wood County. It is expected that several more will enter the school before the end of the week. This opening attendance exceeds any of the previous years, and the present aspect gives promise of a successful year.

The school is now located in its new headquarters above the Nash Grocery Company, supplied with the best of equipment, and situated in one of the most favorable parts of the city. It surpasses the average business college in its furnishings and facilities for carrying on its work.

Night sessions will commence in October, according to an announcement made by Prin. E. L. Hayward yesterday.

RUDOLPH

Father John O'Reilly, who has been on a vacation to his old home in Canada, and has been sight seeing in different places, arrived here Thursday evening, and will spend some time here.

Mrs. Pat Case went to the Rapids Wednesday noon to stay some time with her sister, Mrs. P. Conway.

Our Catholic Sisters went to the Rapids Wednesday to see the sisters before their departure.

David Sharkey and Rob Fredericks will wrestle in Marcell's hall Saturday evening Sept. 9th, the best two out of three to win. Ladies are invited. This will be Dave's last wrestle before his departure for Canada, where he will spend a few weeks.

School began Monday in Dist. No. 4, with Miss Maud Moulton of Grand Rapids as teacher.

Mrs. Thon Foley of Grand Rapids, spent Sunday with Mrs. Daniel Haunschild.

Dr. Jackson attended the medical convention at Marshfield Wednesday evening, returning home Thursday.

Mrs. Styles of Babcock came up on the way right Wednesday and visited her parents, Mr. and Mrs. J. Borokor, until the night train.

The ladies aid of the Moravian church met with Mrs. Korstin last Thursday p. m. A large crowd was in attendance and \$5.00 was collected.

Mrs. C. O. Chase and son, Clark, of Stanley, N. D., spent last week with Mrs. C. O. Hassell.

Medadance C. O. Hassell and C. O. Chase went to Junction City Saturday evening and visited until Sunday evening with friends.

There was a shingling bee at Moose Sharkey's last Thursday to shingle his new home.

Emil Haunschild has erected a new shed back of his place of business which will be greatly appreciated by his patrons.

Mr. and Mrs. Jeff DeMars of Biron arrived here Friday evening for a short visit at the home of his parents, Mr. and Mrs. Geo. Bates. They have just returned from Rochester, Minn.

Mr. DeMars was operated on for a cancer.

Arthur Clark arrived home Saturday evening from the north where he has been out camping.

Mrs. Mary and Albin Kujawa departed Saturday morning for Stevens Point, where they will attend school this year.

Misses Marie and Selma Kurger spent last Thursday at the Andrew Shumers home.

Dr. Jackson went to Wausau Friday morning to operate on Mrs. Kujawa, who lives in Grand Rapids.

Misses Mabel Wittenberg, Martin Kroski and Willie Brown of Grand Rapids spent Sunday with Norma and Armetta Bade.

Mrs. Nick Ratelle went to the Rapids Friday noon to see her mother who is sick in bed with an attack of bronchitis. At this writing she is a little better.

ADDITIONAL LOCALS

Henry Ebert transacted business in Milwaukee on Tuesday.

Miss Anna McMillan leaves on Friday to resume her teaching at the Stout school.

Miss Beulah Searls leaves on Saturday for Monomonic where she will study domestic science this year.

Mrs. Henry Hulmer has purchased a home and lot of Mrs. Lester on 10th avenue south. The price paid was \$2100.

Will Kallag, Jr., Fred Gaffney and Clarence Christensen are enjoying a week's outing at the east side club house above Biron.

Moses, E. M., Daming, E. C. Pore, P. N. Christensen and Dave Harney of Marshfield transacted business at the court house on Tuesday.

Mr. and Mrs. P. J. Lucas, P. W. Reinhold and Miss Mabel Pratt of Platteville were guests at the W. C. Slater home over Sunday.

Elmer J. Baldwin returned last Saturday from Milwaukee where he has been attending the Northwestern school for the past six weeks.

Archib McMillan, who has been sick with typhoid fever for several weeks past, is somewhat better, although still confined to his bed and very weak.

Charles Loeffelbein, who has been located at Rockford, Ill., for some time past, arrived in the city on Tuesday to visit with his people for a couple of weeks.

Kenneth McManley has had quite a lovely display in the window of the hardware department of the Johnson & Hill Co. of late, which depicts a hunting scene with the paraphernalia that goes with it.

Henry Halvorsen is putting up a new home on the lot upon which the old Grand House barn formerly stood. It is to be a 28 by 30 frame house and the work is being done by John Martinson of Merrill.

Charles Natwick returned on Tuesday morning from the east, having visited his brothers Henry and Joseph at Baltimore, Md., for a week. On his way home he stopped at Chicago and attended the Gotoh-Hackenschmidt wrestling match.

C. J. Fay, who spent the past summer at Idaville, near Sturgeon Bay, where he was conducting a summer resort hotel, returned to this city on Tuesday. Mrs. Fay is still at Sturgeon Bay, but expects to return later. Mr. Fay reports having had a very good business.

—Marjorie Sweet and Beatrice Terry who are the comedians with the Messenger Boy, are pretty, winsome and petite, their charming personalities and marvellous specialties receive unlimited praise everywhere. See the Messenger Boy at Daly's Theatre, Sunday Sept. 10. Popular Sunday night prices.

Frank Whitlock, the melon man, reports that the warm weather of the past week has ripened both the water and meat melons very rapidly so that he has had an abundance to supply all of the demands, something unusual in this locality. The melons this year are of good flavor and fine quality throat.

Mr. and Mrs. Martin Jacobson returned Thursday after spending a year and a half at Great Falls, Montana, where Mr. Jacobson was engaged in the grocery business. Mr. Jacobson, who is a brother of J. O. Jacobson, states that he intends to make Grand Rapids his permanent home hereafter, and will build a residence on Fifth street south. Before returning to Grand Rapids Mr. and Mrs. Jacobson paid an extended visit in Spokane and in different parts of Canada.

ALTDORF.

Mrs. B. W. Sawyer of Milwaukee spent a couple of days the fore part of the week visiting Mrs. O. J. Lea.

We have a rather deserted community here at present as about one-half of the population has departed for the cranberry marshes.

No one is so fortunately unfortunate as A. Huser. He has so much corn this year that he does not know what to do with it. He has his silo filled and over half of his crop left outside.

Mr. A. Schiller had a horse badly cut in a wire fence last Saturday night, the right foot being cut about half off.

We notice road Dist. No. 2 is doing some good work laying the road leading out here, but what about No. 3? It was the intention to have the whole road graded from Elm Creek to Geo. Telman's place this summer but as yet nothing has been done. Every rain leaves the road in very poor condition and it is getting rather late for grading now. Seeing there are so few settlers along that road we believe it would be wise to attach district No. 3 to it as it is the people of No. 4 who have to travel it mostly and in that way we would probably get a good road to Grand Rapids. Dist. No. 4 makes it a point to do its road work early and in a proper manner so that we have some of the best roads in the county in here.

KELLNER.

The Mission festival of the Lutheran church will take place next Sunday. The services will be conducted by the Rev. Kretzmann of Neukhara and Rev. Paul of Sherry.

Mrs. Draeger of Princeton is visiting at the home of her daughter, Mrs. F. Grey.

Miss Crystal Munroe is attending Business College in your city.

Mrs. Aug. Kanth, who has been seriously ill for some time, was able to attend church and visit among neighbors.

Rev. Nommensen and family spent Thursday at the Rev. A. Krucho's home.

It is reported that Messrs. Withers, Meyers, J. Yetter and R. Timm have sold their farms.

Mrs. A. Krucho spent Sunday at Stevens Point.

The last Sunday train was run thru our burg on Sept. 3rd.

Mr. and Mrs. Wm. Arude had their infant son baptized last Sunday at the Lutheran church.

Miss Harriet Williams

Teacher of Piano

Studio 214, 3rd st. S. Phone 432

D. J. Hotchkiss, editor of the Fox Lake Representative was in the city on Tuesday, having come up with the baseball team. The Tribune acknowledges a pleasant call.

SARATOGA.

Prof. Schellenger will deliver a lecture in the meeting house on Monday evening, September 11, at 7:30 o'clock. He is invited to come and spend a profitable evening in the church.

Mr. and Mrs. Lee B. Margery are entertaining the latter's father from Illinois this week.

Henry Dietrich of Chicago is visiting at the Chas. Dietrich home this week. Mr. and Mrs. Hyerstadt and family of Kellner spent Sunday at the William Anderson home.

Miss Mabel Johnson went to Grand Rapids Monday to resume her school duties at the Wood Co. Training School.

Severt Hansen of Randolph, Wis., spent Sunday at home.

Mrs. Mary Dixon and Mrs. Peter LaBelle spent Monday at the home of the latter's parents, Mr. and Mrs. Frank Gallagher.

Charles Lorenz of Chicago arrived home Monday for a visit with his parents Mr. and Mrs. Otto Lorenz.

Our boys played ball with Spring Branch boys Sunday afternoon. The latter were defeated.

Miss Minnie Ross began school in Dist. No. 5 last Monday.

Oris Johnson who has been spending the summer in Kibbourn arrived here last Saturday.

Mr. and Mrs. Emil Larson of St. Paul and Mrs. O. Larson of Grand Rapids, spent Tuesday at the home of the latter's sister, Mrs. Pauline Hansen.

Miss Nora Hansen of Wausau spent the latter part of last week visiting Misses Clara and Emma Johnson.

Waldo Dahl of Kibbourn is visiting relatives in this vicinity.

K. F. Kuntson was quite sick last week.

BIRON

Paul and Earl Akey, Genevieve, Jessie and Bernadette Gaffney, and Irving Wilhelm entered the Lincoln High school as sophomores Monday.

Miss Sophia Olson entered the Grand Rapids Business College, where she will take a course in stenography and bookkeeping.

Mr. and Mrs. Jeff DeMars returned Sunday from Rochester, Minn. They will return in about ten days or so where the former will continue taking treatments under the Mayo doctors. He is doing as well as can be expected under the circumstances.

Harold Will of Eau Claire, was the Sunday guest of Miss Nette Akey. Wedding bells will soon be chiming in our burg. It is unnecessary to state where further information may be obtained.

School opened Monday with Frank Nimz of your city and Miss Ploy Margeson of your city, and Sadie Bunker of Marshfield as assistants.

Mr. and Mrs. Frank Bengert are the proud parents of a baby boy.

Mrs. Eugene Orotian of Mosinee arrived here last Friday very ill. She will remain here with her parents, Mr. and Mrs. A. L. Akey until she has regained her strength and is able to attend to her household duties. Mr. Orotian accompanied his wife here but returned to his work Monday.

STATE OF WISCONSIN: ss. I, E. B. Redford, cashier of the above named bank, solemnly swear that the foregoing statement is true to the best of my knowledge and belief.

S. B. REDFORD, Cashier.

Subscribed and sworn to before me this 5th day of September 1911.

CHAS. W. BRADSHAW, Notary Public.

My commission expires Mar. 12, 1916.

Correct—Attest: ISAAC P. WITTER, GEO. W. MURRAY, Directors.

Order Limiting Time To Present Claims and Notice to Creditors.

Sept. 4, State of Wisconsin, Wood County, in County Court.

In the matter of the estate of Charles Pearson, deceased.

Charles Pearson late of the city of Chicago, Illinois leaving real estate in said County of Wood, deceased, having been duly granted to Joseph Pearson by this court.

IT IS ORDERED, That the time from the date hereof until and including the ninth day of March, A. D. 1912 be and the same is hereby fixed as the time within which all creditors of the said Charles Pearson, deceased, shall present their claims for examination and allow.

IT IS FURTHER ORDERED, That all claims and demands of all persons against the said Charles Pearson, deceased, be examined and adjusted as of the time above limited, and that all creditors, to present their claims, be given by publishing a copy of this order and notices, for four consecutive weeks, once in each week, in the Grand Rapids Tribune, a newspaper published in the County of Wood, the first publication to be within fifteen days of the date hereof.

Dated this 5th day of September, 1911. By the Court: W. J. Conway, County Judge.

Mrs. Frank Steid is taking treatments for asthma in the sanatorium at Praiairo du Ohlen.

W. A. Luetzelinger, a traveling type writer repairer, who advertises himself as an expert in his line, is spending a few days this week in Grand Rapids. He says that he has been in the work for a great many years and is well up on the best and newest methods of doctoring up old machines.

Mr. and Mrs. E. B. Redford spent the past few days at Wautoma, where Mrs. Redford's relatives reside.

Doris Maudill and George Calvin, who plead guilty to a charge of jumping their bond bill at the Hotel Dixon on Friday before Justice Pominville, were each given thirty days in the County jail.

Recoveries From Appendicitis.

Mr. Richard Buss who took sick with an acute attack of appendicitis about a week ago, is now on his feet and will soon resume his work at the mill. He is much elated to get rid of this thru chiropractic adjustments which he has been taking from Dr. Hoff of this city. We understand Dr. Hoff is making word in this city and have heard rumors that he has helped many people.

Rivers-Bates.

Miss Doris Rivers and A. L. Bates were married on Saturday afternoon in this city at the Methodist parsonage, Rev. F. A. Penn performing the ceremony. Mr. and Mrs. Bates will make their home in Rudolph.

Will Go to Ashland.

W. J. Kleinbrook has sold his fruit stand to O. Dougherty and expects to leave soon for Ashland where he has accepted the agency for the Western Express Company.

Schuh-Deyo.

Louis Schuh and Miss Laura Deyo, of Port Edwards, both well known among the young people of this city, were united in marriage last week Tuesday at the home of Rev. F. A. Penn. Miss Loretta Noltner of Grand Rapids, and Harry Deyo of Port Edwards, attended the couple. Mr. and Mrs. Schuh will reside in Port Edwards where the former holds a position with the Nekoma-Edwards Paper Company.

Boat Capsized.

Howard Tichner took a sudden and unexpected bath on Sunday afternoon while coming down the rapids below the Biron mill. He had been up fishing and his boat struck a rock and capsized, throwing his gun and fishing tackle into the water, which was about six feet deep at that place. He went up next day and after considerable effort succeeded in recovering all of his property, but little the worse for wear.

LOCAL ITEMS.

School and town order books for
sale at the Tribune office.

H. P. Thiel and daughter of Marsh-
field, spent Saturday in this city.
Born to the home of Mr. and Mrs.
August Manz, a baby boy last Wed-
nesday.

An infant son arrived Monday mor-
ning at the home of Mr. and Mrs.
Paul Goodbeck.

Dr. J. A. Jackson of Rudolph was
in the city on Monday looking after
some business matters.

August Jacoby of Rudolph was
among the pleasant callers at the
Tribune office on Monday.

William Glebe, proprietor of the
Globe Brothers shoe store, spent a
few days this week in Milwaukee on
business.

Mrs. Joseph Wright and daughter,
Marie, of Merrillan, spent last week
visiting at the home of Mrs. George
W. Purnell.

Hugh Goggins returned to his home
in this city Saturday after attending
the ten weeks' summer law session
at Madison.

O. E. Grogan of Grand Rapids,
Michigan, who had been visiting his
son in this city for a week, returned
to his home on Friday.

Mrs. A. L. Norton celebrated her
birthday Monday afternoon by en-
tertaining a few of her friends at
her home on Oak street.

D. J. Hayes of Dubuque, Ia., spent
the past week in this city looking
after business matters. Mr. Hayes is
the owner of the Hotel Jalon.

FOR SALE—Winchester Auto-
mobile No. 351, color, fitted with
improved lights. In first class condi-
tion. Inquire O. E. Bates.

Mrs. Lydia Houston and her two
grandchildren, Russell and Jack, of
Green Bay, are visiting relatives at
Mrs. Houston's former home in this
city.

P. C. Brockhausen, Jake Grogan
and Alex Bandelin are camping up
river near the Thomas McGraw farm
where they are engaged in fishing
and hunting deer.

S. F. Treloar of Waupun was in
the city on Saturday. Mr. Treloar
has been at Waupun where he was
visiting his son, Elmer, who is oper-
ating a printing office there.

Sam Church has purchased the
daily paper agency from Geo. E.
Wood and has been handling the mat-
ter since last week. Epa. Church is
attending to the business at present.

Alvin Snyder resumed his work at
Globe Brothers Monday morning after
two weeks spent in Marinette. While
in Marinette he operated a linotype
machine in one of the newspaper
offices.

Paul Love of Kansas City, Mo.,
spent several days in the city last
week visiting with friends and rela-
tives. Mrs. Love who had been visit-
ing here and at Muskego, returned
home with Mr. Love.

Curtis Berard, traveling salesman
for the Holland Packing Company,
spent Saturday and Sunday visit-
ing friends in this city. He returned
Sunday afternoon to Green Bay where
he makes his headquarters.

Rev. Fred Staff, of the Congrega-
tional church, preached his first ser-
mon last Sunday since his month's
vacation spent in the southern part
of the state. A large congregation
turned out to welcome the pastor
home.

George Chappoy, who graduated
last year from Lawrence College,
spent last Saturday afternoon and
evening in this city on his way to
Tomah, where he has taken a position
as professor of Economics in the
Tomah high school.

Mrs. Donna Harvey, formerly of
this city, and now employed as a
stenographer at Madison, spent Labor
day at the home of Mrs. Nan
Schlatter. A few of her old friends
were invited to the Schlatter home
Monday evening. Mrs. Harvey spent
Saturday visiting her son in Merrill.

Mrs. W. E. Little and daughter
Julia, who had spent the past five
weeks in the east, returned home on
Friday. Mrs. Little attended a two
weeks school conducted by the
Epirella Corset Company and Miss
Julia visited with relatives. They
report a very pleasant trip.

Francis, the little daughter of
Mr. and Mrs. M. Hill of Rudolph,
met with a painful accident last
Thursday while playing in the hay-
mow. Losing her balance she fell
down through a hole in the floor into
the stable below, and when medical
aid was summoned it was found that
the child's shoulder was broken.

J. O. Bell and family departed last
night for Ouedan, Louisiana, where
Mr. Bell will supervise the dredging
on the tract of land belonging to the
White Lake Land company. Mr. and
Mrs. Bell are leaving a large circle
of Grand Rapids acquaintances who
wish them success in their new place
of residence.

S. N. Whitley of Oremoor was a
business visitor at the Tribune office
on Friday. Mr. Whitley began
picking berries in a small way on his
marsh last week, but expected to start
up with a full crew on Monday
morning. He reports a fair crop of
berries on his marsh and says other
growers in that locality are similarly
situated.

Reports received at the office of
Secretary Oranfield of the State
Horticultural Society show that over
75 carloads of Wisconsin strawberries,
averaging three hundred bushels
each, were shipped this year to points
outside of the state. Most of the
Sparks berries go to Minnesota and
the Dakotas. Bayfield ships as far
south as St. Louis.

Bob Friedrich, of Nekeosa, was in
the city last Saturday on his way to
Chicago, where he took in the boat
between Frank Gohl and the Russian
Lion on Labor day. He will be in
Sheboygan Falls day after tomorrow
to meet Abel, of Madison, in what
promises to be an interesting match to
those interested in the game, after
which Bob will come back and
wrestle Dave Sharkey in Rudolph on
the ninth.

Miss Alma Abel spent Sunday at
Waupun.

—No Hunting Allowed!— Signs
for sale at the Tribune office.

Miss Inez Roedel left on Saturday
for Milwaukee where she will finish
her course in the normal school.

—Hoy attending high school would
like a place to work for his board.
Apply at Tribune office.

Mrs. Abner Atwood of Biron was a
visitor in the city on Thursday at-
tending to some business matters.

Mrs. W. G. Morrill returned last
week from a two weeks visit with
friends in the northern part of the
state.

Dr. B. J. Clark and family, and
J. S. Clark and family spent last
Sunday at one of the fish houses above
Biron.

Miss May Johnson returned on
Wednesday evening from a six weeks
visit in Madison, Janesville and
Milwaukee.

T. P. Pervenboom sold his Maxwell
runabout last week to Rev. Dawey,
who will use the machine in his work
in the nearby towns.

Prof. M. H. Jackson returned home
Saturday afternoon after a few weeks
summer institute work at Fowler
and South Bend, Indiana.

Mrs. P. C. Brockhausen and her
daughters left last week for Milwa-
ukee where they will visit with rela-
tives for a couple of weeks.

—A suitable wedding gift is usually
a hard thing to select. This week's
ad of the First National Bank makes
a good suggestion along this line.

Mrs. J. W. Natwick and Mrs. M.
H. Jackson were in Nekeosa Monday
evening to attend an informal party
at the home of the former's sister,
Mrs. Wm. Hooper.

Mrs. Anna Hayward of Neenah, is
paying a two weeks' visit at the
home of her nephew, E. L. Hayward,
principal of the Grand Rapids busi-
ness college.

Mr. and Mrs. Glen Foss, of Tomah,
were in Grand Rapids Tuesday
and Wednesday. Mr. Foss came
down to throw for the locals against
Fox Lake.

Richardson, who resides up river
near the Portage County line, has
been under the weather for a week
past, but has been able to be about
most of the time.

Sixty-five carloads of strawberries
were shipped out of Sparta this year.
This amounts to over 37,000 cases of
16 quarts each. Stagecoach Bay shipped
in cases of strawberries.

Prof. G. Rockwood, formerly of
Vesper, who has spent the past year
doing carpenter work in south
Dakota, returned to Grand Rapids last
Saturday with the intention of look-
ing up work for the fall months.

Miss Mabel Hamilton, who had
been spending her vacation at the
home of her parents, Mr. and Mrs.
O. L. Hamilton, left for Oshkosh
on Friday to take up her work in the
schools there again.

Wm. Jackson of the town of Senece,
brought us in a large apple on Mon-
day morning, the fruit having been
raised on his place. It is a speci-
men and demonstrates that some
apples may be raised in Wood County.

Frank Andrews of the town of
Stiel favored the Tribune with a
pleasant call on Monday while in the
city. His school was to open on
Tuesday, they having remained
closed on Monday on account of Labor
Day.

Miss Katherine and Dorothy
Steele returned Saturday night to
their home in Port Edwards after an
extended tour through the east, visit-
ing for a greater part of the time
with relatives at Dorchester, Massa-
chusetts.

John Buckley returned to this city
Monday after spending the summer
vacation at his home in Colorado. He
will attend the Grand Rapids high
school again this year and will live
at the home of his grandmother, Mrs.
Clara Arlin.

Bert McLees left on Monday for
Marshfield and from there he goes to
Oshkosh to visit with friends. The
boys say that Bert intends to return
to this city a benedict, having selected
a young lady in Oshkosh for the future
Mrs. McLees. Well, Bert has our
best wishes in case anything of the
kind occurs.

Miss Ruby Natwick leaves to-
morrow for Oshkosh to resume her
study of vocal music. She expects to
leave in November for a winter
concert tour with a ladies' quartette,
known as "The College Girls' Quar-
terette," an organization which has al-
ready made a number of successful
appearances in Chicago.

Labor Day was observed in this
city by the banks and postoffice clos-
ing and the members of the different
labor organizations taking a day off,
but there was no public demonstration.
In many places the members of the
trades unions celebrate the event by
a parade in the morning and a picnic
dinner with doings of some kind.

The Cow and the Moon, presented
at Daly's Theater on Sunday evening
did not pull as large a crowd as it
should considering the merits of the
production. It was full of fun all
the way thru and there were a num-
ber of mysterious effects that were
good. The costumes were very nice
and there was an abundance of sing-
ing.

The State Horticultural Society
now publishes a 16 page monthly
magazine, Wisconsin Horticulture,
which is sent free to members of that
organization. The fee for annual
membership is but 50 cents and in-
cludes a copy of the Annual Report,
a book of 450 pages in addition to
the magazine. F. Oranfield, Mad-
ison, is the Secretary.

S. H. Smart left this city about a
month ago for Florida and located
near Jacksonville, where he had pur-
chased a small tract of land. Mr.
Smart had been troubled consider-
ably with rheumatism during the
winter months in this country, and
hoped by the change to get rid of his
old malady. Recent advices from Mr.
Smart are to the effect that while he
has not suffered any from rheumatism,
he has been inconvenienced consid-
erably by the excessively warm weather.

Mr. Fred Finn, who has been at
Alliance, Ohio, during the past year,
returned to this city last week and
expects to spend a few weeks visiting
his people in the town of Sigel.

Announcements have been received
concerning the marriage of Gay Wood
of this city, and Miss Helen Hayden,
of Lexington, Kan. They will
be at home in East Claire after Octo-
ber first.

Mr. and Mrs. Frank Abel, who
have been living at the home of the
former's parents on Tenth street, are
moving into the house at the corner
of Oak and Fourth street recently
vacated by J. O. Bell and family.

O. W. Root, of the Root Construc-
tion Company, left yesterday over
the Green Bay and Western for Alberta,
Minnesota, and Omaha, Nebraska.
He will spend some time looking
over prospect work in the two states.

The automobile factory question
is still a live one, although as yet
the interested parties have not been
on the grounds to exhibit their
machines. S. F. Darga, of the Grand
Rapids Commercial Club, says that
the matter will probably be settled
this week.

—Armor Photo history isn't made
of course, heavy yarns, that isn't the
secret of its great wearing qualities.
It wears better because it isn't rotted
in the dyeing process like most his-
tory is. You'll be interested to hear
more about this wonderful history.
At the Fair, west end of the bridge.

An Appleton man has invented a
mechanical cow milker which is said
to be a perfect success in every way
and on which he has applied for a
patent. The new milker is different
from those that have gone before, as
once it has been applied to the cow,
it remains there, and all that is
necessary is to hang a pail on the
harness, turn a faucet and draw off
a pail of milk. Milkers may come
and milkers may go, but it is probable
that Milran, armed with a pail and
a one-legged stool, will continue to
milk the lactating field from the
mid-eyed horizon in the same old way
for some little time yet.

Biggest Fair of the Season.
—Manager John Bell reports that
the monthly stock fair to be held next
Tuesday, will be the biggest thing
of the kind ever held in this city. He
reports that there is an unprecedented
demand for horses, both draft and
driving animals and farmers and
others having stock for sale are in-
structed to bring them in.

The ladies of the different churches
are notified that if they have any
articles of furniture which they
want sold for the benefit of the
church, that the articles will be
auctioned off free of charge.
The Packing house will pay, Chi-
cago prices for all rats stock.
The Grand Rapids Brewing Com-
pany will give an eighth of beer to
farmer bringing in the largest num-
ber of chickens.

Those having farm machinery,
wagons or buggies which they want
to dispose of are instructed to bring
them in.

There is a good demand for little
pigs. Also a number of new milch
cows wanted.

Don't forget the day and date,
Tuesday, Sept. 11.

How to Kill Flies

To clear rooms of flies carbolic
acid may be used as follows: Heat a
shovel or any similar article and
drop thereon 20 drops of carbolic acid.
The vapor kills the flies.

A cheap and perfectly reliable fly
poison, one which is not dangerous to
human life, is bicarbonate of potash
in solution. Dissolve one dram,
which can be bought at any drug
store, in two ounces of water, and
add a little sugar. Put some of this
solution in shallow dishes, and dis-
tribute them about the house.

Sticky fly paper, traps and liquid
poisons are among the things to use
in killing flies, but the latest,
clearest and best is a solution of
formalin or formaldehyde in water.
A spoonful of this liquid put into a
quarter of a pint of water and exposed
in the room, will be enough to kill
all the flies.

To quickly clear the room where
there are many flies—burn pyrethrum
powder in the room. This stupifies
the flies when they may be swept up
and burned.

If there are flies in the dining
room of your hotel, restaurant or
boarding house, complain to the
proprietor that the premises are not
clean.

Commercial Club Membership
Now 150.

S. F. Darga, Industrial Agent of
the Commercial Club, reports for the
month of August shows that the
membership of the club is now 150
with prospects of making it 175.
Nearly all of the members have paid
their dues.

During the month of August 47
different industries have been asked
to locate in this city.

Replies received from 18.

5 representatives of industries seek-
ing new locations have visited the
city.

Negotiations now being carried on
with 8 industries including automo-
biles, ball bearings, shoes, brooms,
dredges, woolen goods, condensed
milk and corrugated iron cutlery.

There is improvement in many
lines of merchandising, brought about
by the general feeling of community
interest of the people of this city.

The citizens are becoming real
boosters and many are realizing the
effects.

To those who are not patronizing
home merchants and industries we
would ask:

"Would you purchase a horse by
mail?" You certainly would not.
You know from experience what you
would get in a horse trade under such
conditions. Then why not exercise
the same good judgment in the pur-
chase of clothing, furniture, groceries,
hardware, lumber, jewelry, drugs,
and other necessities that you would
use in selecting a horse. Circulate
your money at home and make a
larger and more prosperous city.

Changes in School Laws.

Below is given a synopsis of some of
the important school laws for the guid-
ance of parents, scholars and teachers,
passed by the legislature this year and
which are now in effect.

It forbids spitting on the floors of
school houses and other public build-
ings. Requires notices to be posted in
such buildings forbidding spitting and
requires that spittoons be provided and
properly cleaned and disinfected.

Saturday, June 22, 1912, sees the end
of the township system of school gov-
ernment in Wisconsin. The township
may still be the school district, but
must be organized and run as an inde-
pendent district. The town board of
supervisors, after granting a public
hearing, shall proceed to create one or
more suitable independent districts.
This meeting shall be held between
March 1 and June 1, 1912, and the re-
sulting order shall be effective June
22 following.

In theory the township system seems
ideal, but so many defects and defects
were connected with its practical ad-
ministration during the many years
of its existence in Wisconsin that the
legislature cut the Gordian knot by
abolishing it. The system prevailed
mainly in the northern part of the
state.

History of Wisconsin is specifically
added to the subjects that shall be
taught in every district school. In as
much as this subject has been taught
as a part of the history of the United
States, this law will mean in effect
that the history of Wisconsin shall re-
ceive more time and attention than
heretofore.

School boards are authorized to per-
mit the use of school houses for such
civil, social, and recreational activities
as in their opinion do not interfere with
the use of the buildings for school
purposes.

Non-partisan, non-sectarian, and
non-exclusive association of citizens of
the community shall be allowed the
use of school buildings free of charge.

In cases where there are children of
school age living more than two miles
from the school house in the home dis-
trict and transportation is not provid-
ed, and there is another school in an
adjoining district nearer to the home
of such children by half a mile or
more the children shall be privileged to
attend the nearer school. The school
district in which the children live shall
pay their tuition, not, however,
to exceed \$1.00 per month if they
attend a rural school or \$1.25 per
month if they attend a state graded
school or grades below a free high
school.

The rates above named are also the
maximum charge that can be made by
a district in cases in which the parent
or guardian pays the tuition.

Chapter 545 of the laws of 1911 ap-
propriates to each school maintaining
a department of manual training or
domestic economy, or agriculture, or
any or all of said departments, one-
half the amount actually expended for
instruction in each such department,
not to exceed \$350 for each depart-
ment above named which shall have
been maintained in connection with
the high school and the three
upper grades below the high school,
but not to exceed \$250 for each depart-
ment named maintained only in con-
nection with the high school.

Under this act a school district
maintaining courses in agriculture,
domestic economy, or manual train-
ing in both grades and high school
may receive as much as \$1,050 per
year of special state aid.

Chapter 555 adds \$55,000 annually to
the district free high school fund.
This makes the amount \$100,000.
The increase will add approximately \$100
to the appropriation to each district
high school, which last year amounted
to \$35,000.

The law provides that the certificate
granted to a graduate from a county
training school for teachers shall have
the full force and effect of a grade
certificate as issued by a county
superintendent, and shall be valid for
three years in ordinary cases and if
the holder shall have completed a four-
year high school course and taught
successfully for seven months, the
certificate shall be valid for five years
and legally qualifies the holder to
teach in any department of any state
graded school, the principalship of a
state graded school of the first class.

This important measure provides
that whenever the electors vote to
close the school in any rural school
district and provide transportation and
tuition for all persons of school age
who may desire to attend school in a
district maintaining a state graded
below a free high school or a first
class rural school for at least thirty-
two weeks in the year, etc., the dis-
trict closing the school may receive as
special aid, in addition to the moneys
received from the distribution of the
usual school fund, \$10,000 annually. If
arrangements are made to transport
the children to a rural school the
building must be equipped, maintained
and taught under the provisions relat-
ing to a rural school of the first class.

LOCAL ITEMS.

School and town order books for sale at the Tribune office.

H. F. Thiel and daughter of Marshfield, spent Saturday in this city.

Born to the home of Mr. and Mrs. August Manz, a baby boy last Wednesday.

An infant son arrived Monday morning at the home of Mr. and Mrs. Paul Goeduck.

Dr. J. A. Jackson of Randolph was in the city Monday looking after some business matters.

August Jacoby of Randolph was among the pleasant callers at the Tribune office on Monday.

William Glene, proprietor of the Glene Brothers shoe store, spent a few days this week in Milwaukee on business.

Mrs. Joseph Wright and daughter, Marie, of Merrill, spent last week visiting at the home of Mrs. George W. Pernell.

Rugh Goggins returned to his home in this city Saturday after attending the ten weeks' summer law session at Madison.

O. E. Goodrich of Grand Rapids, Michigan, who had been visiting his son in this city for a week, returned to his home on Friday.

Mrs. A. L. Norton celebrated her birthday Monday afternoon by entertaining a few of her friends at her home on Oak street.

D. J. Hayes of Dubuque, Ia., spent the past week in this city looking after business matters. Mr. Hayes is the owner of the Hotel Julian.

FOR SALE—Winchester Automatic rifle .351 caliber, fitted with improved sights. In first class condition. Inquire C. E. Dolis.

Mrs. Lydia Houston and her two grandchildren, Russell and Jack, of Green Bay, are visiting relatives at Mrs. Houston's former home in this city.

F. C. Brockhausen, Jake Gropp and Alex Bandula are camping up river near the Thomas McGraw farm where they are engaged in fishing and hunting duck.

S. F. Trickey of Waupun was in the city on Saturday. Mr. Trickey has been at Vesper where he is operating a printing office there.

Sam Church has purchased the daily paper agency from Geo. E. Wood and has been handling the matter since last week. Epli. Church is attending to the business at present.

Alvin Snyder resumed his work at Glene Brothers Monday morning after two weeks spent in Marinette. While in Marinette he operated a linotype machine in one of the newspaper offices.

Paul Love of Kansas City, Mo., spent several days in the city last week visiting with friends and relatives. Mrs. Love who had been visiting here and at Mosinee, returned home with Mr. Love.

Curtis Bernard, traveling salesman for the Kelland Packing Company, spent Saturday and Sunday visiting friends in this city. He returned Sunday afternoon to Green Bay where he makes his headquarters.

Rev. Fred Staff, of the Congregational church, preached his first sermon last Sunday since his month's vacation spent in the southern part of the state. A large congregation turned out to welcome the pastor home.

George Oarnopp, who graduated last year from Lawrence College, spent last Saturday afternoon and evening in this city on his way to Tomah, where he has taken a position as professor of Economics in the Tomah high school.

Mrs. Denna Harvey, formerly of this city, and now employed as a stenographer at Madison, spent Saturday at the home of Mrs. Nan Schlatterer. A few of her old friends were invited to the Schlatterer home Monday evening. Mrs. Harvey spent Saturday visiting her son in Merrill.

Mrs. W. E. Little and daughter Julia, who had spent the past five weeks in the east, returned home on Friday. Mrs. Little attended a two weeks school conducted by the Sprella Corset Company and Miss Julia visited with relatives. They report a very pleasant trip.

Francis, the little daughter of Mr. and Mrs. M. Hill of Randolph, met with a painful accident last Thursday while playing in the hay-mow. Losing her balance she fell down through a hole in the floor into the stable below, and when medical aid was summoned it was found that the child's shoulder was broken.

J. O. Bell and family departed last night for Graydon, Louisiana, where Mr. Bell will supervise the dredging on the tract of land belonging to the White Lake Land company. Mr. and Mrs. Bell are leaving a large circle of Grand Rapids acquaintances, who wish them success in their new place of residence.

S. N. Whittlesey of Cranmoor was a business visitor at the Tribune office on Friday. Mr. Whittlesey began picking berries in a small way on his marsh last week, but expected to start up with a full crew on Monday morning. He reports a fair crop of berries on his marsh and says other growers in that locality are similarly situated.

Reports received at the office of Secretary Oranfield of the State Horticultural Society show that over 75 carloads of Wisconsin strawberries, averaging three hundred bushels each, were shipped this year to points outside of the state. Most of the Sparta berries go to Minnesota and the Dakotas. Bayfield ships as far south as St. Louis.

Bob Friedrich, of Neokosa, was in the city last Saturday on his way to Chicago, where he took in the bout between Frank Gotch and the Russian Lion on Labor day. He will be in Sheboygan Falls day after tomorrow to meet Abel, of Madison, in what promises to be an interesting match, to those interested in the game, after which "Bob" will come back and wrestle Dave Sharkey in Randolph on the ninth.

Miss Alma Abel spent Sunday at Wausau.

"No Hunting Allowed". Signs for sale at the Tribune office.

Miss Inez Reichel left on Saturday for Milwaukee where she will finish her course in the normal school.

Boy attending high school would like a place to work for his board.

Apply at Tribune office.

Mrs. Abner Atwood of Biron was a visitor in the city on Thursday attending to some business matters.

Mrs. W. G. Merrill returned last week from a two weeks visit with friends in the northern part of the state.

Dr. E. J. Clark and family, and J. S. Clark and family spent last Sunday at one of the club houses above Biron.

Miss May Johnson returned on Wednesday evening from a six weeks visit in Madison, Janesville and Milwaukee.

T. P. Peerenboom sold his Maxwell runabout last week to Rev. Dewey, who will use the machine in his work in the nearby towns.

Prof. M. E. Jackson returned home Saturday afternoon after a few weeks summer institute work at Fowler and South Bend, Indiana.

Mrs. M. O. Brockhausen and little daughter left last week for Milwaukee where they will visit with relatives for a couple of weeks.

A suitable wedding gift is usually a hard thing to select. This weeks' ad of the First National Bank makes a good suggestion along this line.

Mrs. J. W. Natwick and Mrs. M. E. Jackson were in Neokosa Monday evening to attend an informal party at the home of the former's sister, Mrs. Wm. Hooper.

Miss Anna Hayward of Neenah, is paying a two weeks' visit at the home of her nephew, E. L. Hayward, principal of the Grand Rapids business college.

Mr. and Mrs. Glen Foss, of Tomahawk were in Grand Rapids Tuesday and Wednesday. Mr. Foss came down to throw for the locals against Fox-Lake.

O. Koeholman, who resides up river near the Portage County line, has been under the weather for a week past, but has been able to be about most of the time.

Sixty-five carloads of strawberries were shipped out of Sparta this year. This amounts to over 37,000 cases of 16 quarts each. Sturgeon Bay shipped 46 cars of strawberries.

Fred G. Rockwood, formerly of Vesper, who has spent the past year doing carpenter work in South Dakota, returned to Grand Rapids last Saturday with the intention of looking up work for the fall months.

Miss Mabel Hamilton, who had been spending her vacation at the home of her parents, Mr. and Mrs. C. L. Hamilton, left for Oshkosh on Friday to take up her work in the schools there again.

Wm. Jackson of the town of Seneca brought us in a large apple on Monday morning, the fruit having been raised on his place. It is a fine specimen and demonstrates that some apples may be raised in Wood County.

Frank Andrews of the town of Sigel favored the Tribune with a pleasant call on Monday while in the city. His school was to open on Tuesday, they having remained closed on Monday on account of Labor Day.

Misses Katherine and Dorothy Steele returned Saturday night to their home in Port Edwards after an extended tour through the east, visiting for a greater part of the time with relatives at Dorchester, Massachusetts.

John Buckley returned to this city Monday after spending the summer vacation at his home in Colorado. He will attend the Grand Rapids high school again this year and will live at the home of his grandmother, Mrs. Clarence Arpin.

Bert McLoes left on Monday for Marshfield and from there he goes to Oshkosh to visit with friends. The boys say that Bert intends to return to this city a benedict, having selected a young lady in Oshkosh for the future Mrs. McLoes. Well, Bert has our best wishes in case anything of the kind occurs.

Miss Ruby Natwick leaves tomorrow for Chicago to resume her study of vocal music. She expects to leave in November for a winter concert tour with a ladies' quartette, known as "The College Girls' Quartette," an organization which has already made a number of successful appearances in Chicago.

Labor Day was observed in this city by the banks and postoffice closing and the members of the different labor organizations taking a day off, but there was no public demonstration. In many places the members of the trades unions celebrate the event by a parade in the morning and a picnic dinner with doings of some kind.

The Cow and the Moon, presented at Daly's Theater on Sunday evening did not pull as large a crowd as it would considering the merit of the production. It was full of fun all the way thru and there were a number of mysterious effects that were good. The costumes were very nice and there was an abundance of singing.

The State Horticultural Society now publishes a 16 page monthly magazine, Wisconsin Horticulture, which is sent free to members of that organization. The fee for annual membership is but 50 cents and includes a copy of the Annual Report, a book of 250 pages, in addition to the magazine. R. Oranfield, Madison, is the Secretary.

S. H. Smart left this city about a month ago for Florida and located near Jacksonville, where he had purchased a small tract of land. Mr. Smart had been troubled considerably with rheumatism, during the months in this country, and hoped by the change to get rid of his old malady. Recent advice from Mr. Smart is to the effect that while he has not suffered from rheumatism, he has been inconvenienced considerably by the excessively warm weather.

Fred Finup, who has been at Alliance, Ohio, during the past year, returned to this city last week and expects to spend a few weeks visiting his people in the town of Sigel.

Announcements have been received concerning the marriage of Gay Wood of this city, and Miss Helen Hayden, of Lexington, Kentucky. They will be at home in Eau Claire after October first.

Mr. and Mrs. Frank Abel, who have been living at the home of the former's parents on Tenth street, are moving into the home at the corner of Oak and Fourth street recently vacated by J. C. Bell and family.

C. W. Rood, of the Rood Construction Company, left yesterday over the Green Bay and Western for Alberta, Minnesota, and Gretna, Nebraska. He will spend some time looking over prospect work in the two states.

The automobile factory question is still a live one, although as yet the interested parties have not been on the grounds to exhibit their machine. S. F. Darga, of the Grand Rapids Commercial Club, says that the matter will probably be settled this week.

—Amor Plate hosiery isn't made of coarse, heavy yarn, that isn't the secret of its great wearing qualities. It wears better because it isn't rotted in the dyeing process like most hosiery is. You'll be interested to hear more about this wonderful hosiery. At the Fair, west end of the bridge.

An Appleton man has invented a mechanical cow milker which is said to be a perfect success in every way and on which he has applied for a patent. The new milker is different from those that have gone before, as once it has been applied to the cow, it remains there, and all that is necessary is to hang a pail on the harness, turn a faucet and draw off a pail of milk. Milkers may come and milkers may go, but it is probable that Hiram, armed with a tin pail and a one-legged stool, will continue to coax the lactical fluid from the mild-eyed bovine in the same old way for some little time yet.

Biggest Fair of the Season.

—Mauger John Bell reports that the monthly stock fair to be held next Tuesday, will be the biggest thing of the kind ever held in this city. He reports that there is an unprecedented demand for horses, both draft and driving animals and farmers and others having such for sale are instructed to bring them in.

The ladies of the different churches are notified that if they have any articles of furniture which they want sold for the benefit of the church, that the articles will be auctioned off free of charge.

The Packing house will pay, Chicago prices for all fat stock.

The Grand Rapids Brewing Company will give an eighth of beer to farmer bringing in the largest number of empties.

Those having farm machinery, wagons or buggies which they want to dispose of are instructed to bring them in.

There is a good demand for little pigs. Also a number of new milch cows wanted.

Don't forget the day and date, Tuesday, Sept. 11.

How to Kill Flies

To clear rooms of flies carbolic acid may be used as follows: Heat a shovel or any similar article and drop thereon 20 drops of carbolic acid. The vapor kills the flies.

A cheap and perfectly reliable fly poison, one which is not dangerous to human life, is bichromate of potash in solution. Dissolve one dram, which can be bought at any drug store, in two ounces of water, and add a little sugar. Put some of this solution in shallow dishes, and distribute them about the house.

Sticky fly paper, traps and liquid poisons are among the things to use in killing flies, but the latest, cheapest and best is a solution of formalin or formaldehyde in water. A spoonful of this liquid put into a quart of a pint of water and exposed in the room, will be enough to kill all the flies.

To quickly clear the room where there are many flies—burn pyrethrum powder in the room. This stupifies the flies when they may be swept up and burned.

If there are flies in the dining room of your hotel, restaurant or boarding house, complain to the proprietor that the premises are not clean.

Commercial Club Membership Now 150.

S. F. Darga, Industrial Agent of the Commercial Club, reports for the month of August shows that the membership of the club is now 150 with prospects of making it 175. Nearly all of the members have paid their dues.

During the month of August 47 different industries have been asked to locate in this city.

Replies received from 18.

Representatives of industries seeking new locations have visited the city.

Negotiations now being carried on with 8 industries including automobiles, ball bearings, stoves, brooms, dredges, woolen goods, condensed milk and corrugated iron—over 100 lines of merchandise, brought about by the general feeling of community interest of the people of this city.

The citizens are becoming real boosters and many are realizing the effects.

To those who are not patronizing home merchants and industries we would ask:

"Would you purchase a horse by mail?" You certainly would not. You know from experience what you would get in a horse trade under such conditions. Then why not exercise the same good judgment in the purchase of clothing, furniture, groceries, hardware, lumber, jewelry, drugs, and other necessities that you would use in selecting a horse. Circulate your money at home and make a larger and more prosperous city.

Changes in School Laws.

Below is given a synopsis of some of the important school laws for the guidance of parents, scholars and teachers, passed by the legislature this year and which are now in effect.

It forbids spitting on the floors of school houses and other public buildings. Requires notices to be posted in such buildings forbidding spitting and requires that spittoons be provided and properly cleaned and disinfected.

Saturday, June 22, 1912, sees the end of the township system of school government in Wisconsin. The township may still be the school district, but must be organized and run as an independent district. The town board of supervisors, after granting a public hearing, shall proceed to create one or more suitable independent districts.

This meeting shall be held between March 1 and June 1, 1912, and the resulting order shall be effective June 22 following.

In theory the township system seems ideal, but so many abuses and defects were connected with its practical administration during the many years of its existence in Wisconsin that the legislature cut the Gordian knot by abolishing it. The system prevailed mainly in the northern part of the state.

History of Wisconsin is specifically added to the subjects that shall be taught in every district school. In as much as this subject has been taught as a part of the history of the United States, this law will mean in effect that the history of Wisconsin shall receive more time and attention than heretofore.

School boards are authorized to permit the use of school houses for such civic, social, and recreational activities as in their opinion do not interfere with the use of the buildings for school purposes.

Non-partisan, non-sectarian, and non-exclusive association of citizens of the community shall be allowed the use of school buildings free of charge.

In cases where there are children of school age living more than two miles from the school house in the home district and transportation is not provided, and there is another school in an adjoining district nearer to the home of such children by half a mile or more the children shall be privileged to attend the nearer school.

The school district in which the children live shall pay their tuition, not, however, to exceed \$1.00 per month if they attend a rural school or \$1.75 per month if they attend a state graded school or grades below a free high school.

The rates above named are also the maximum charge that can be made by a district in cases in which the parent or guardian pays the tuition.

Chapter 535 of the laws of 1911 appropriate to each school maintaining department of manual training, or domestic economy, or agriculture, or any or all of said departments, one-half the amount actually expended for instruction in each such department, not, however, to exceed \$350 for each department above named which shall have been maintained in connection with the high school and the three or more grades below the high school, but not to exceed \$250 for each department named maintained only in connection with the high school.

Under this act a school district maintaining courses in agriculture, domestic economy, and manual training in both grades and high school may receive as much as \$1,050 per year of special state aid.

Chapter 535 adds \$25,000 annually to the district free high school fund. This makes the amount \$100,000. The increase will add approximately \$100 to the appropriation to each district high school, which last year amounted to \$356.75.

The law provides that the certificate granted to a graduate of a county graded school for teachers shall have the full force and effect of a third grade certificate as issued by a county superintendent, and shall be valid for three years in ordinary cases and if the holder shall have completed a four-year high school course and taught successfully for seven months, the certificate shall be valid for five years and legally qualifies the holder to teach in any department of any state graded school, the principalship of a state graded school of the first class excepted.

This important measure provides that whenever the electors vote to close the school in any rural school district and provide transportation and tuition for all persons of school age who may desire to attend school in a district maintaining a state graded below a free high school or a first class graded school, for at least thirty-two weeks in the year, etc., the district closing the school may receive a special aid, in addition to the moneys received from the distribution of the usual school fund, \$150 annually. If arrangements are made to transport the children to a rural school the building must be equipped, maintained and taught under the provisions relating to a rural school of the first class.

School and town order books for sale at the Tribune office.

H. F. Thiel and daughter of Marshfield, spent Saturday in this city.

Born to the home of Mr. and Mrs. August Manz, a baby boy last Wednesday.

An infant son arrived Monday morning at the home of Mr. and Mrs. Paul Gombek.

Dr. J. A. Jackson of Rudolph was in the city on Monday looking after some business matters.

August Jacoby of Rudolph was among the pleasant callers at the Tribune office on Monday.

William Gleason, proprietor of the Globe Brothers shoe store, spent a few days this week in Milwaukee on business.

Mrs. Joseph Wright and daughter, Marie, of Merrill, spent last week visiting at the home of Mrs. George W. Purnell.

Hugh Goggin returned to his home in this city Saturday after attending the ten weeks' summer law session at Madison.

O. E. Goodrich of Grand Rapids, Michigan, who had been visiting his son in this city for a week, returned to his home on Friday.

Mrs. A. L. Norton celebrated her birthday Monday afternoon by entertaining a few of her friends at her home on Oak street.

D. J. Hayes of Dubuque, Ia., spent the past week in this city looking after business matters. Mr. Hayes is the owner of the Hotel Julian.

FOR SALE—Winchester Automatic rifle, .351 caliber, fitted with improved sights. In first class condition. Inquire C. E. Bales.

Mrs. Lydia Houston and her two grandchildren, Russell and Jack, of Green Bay, are visiting relatives at Mrs. Houston's former home in this city.

F. C. Brockhausen, Jake Grogg and Alex Hummel are ramping up river near the Thomas McGraw farm where they are engaged in holding and hunting duck.

S. P. Treloar of Waupun was in the city on Saturday. Mr. Treloar has been at Vesper where he is visiting his son, Elmer, who is operating a printing office there.

Sam Church has purchased the daily paper agency from Geo. E. Wood and has been handling the matter since last week. Elin, Church is attending to the business at present.

Alvin Snyder resumed his work at Globe Brothers Monday morning after two weeks spent in Marinette. While in Marinette he operated a typewriter in one of the newspaper offices.

Paul Lave of Kansas City, Mo., spent several days in the city last week visiting with friends and relatives. Mrs. Lave who had been visiting here and at Mesquite, returned home with Mr. Lave.

Orville Bernal, traveling salesman for the Reiland Packing Company, spent Saturday and Sunday visiting friends in this city. He returned Sunday afternoon to Green Bay where he makes his headquarters.

Rev. Fred Staff, of the Congregational church, preached his first sermon last Sunday since his month's vacation spent in the southern part of the state. A large congregation turned out to welcome the pastor home.

George Garrupp, who graduated last year from Lawrence College, spent last Saturday afternoon and evening in this city on his way to Tomah, where he has taken a position as professor of Economics in the Tomah high school.

Mrs. Donna Harvey, formerly of this city, and now employed as a stenographer at Madison, spent Labor day at the home of Mrs. N. H. Schlotter. A few of her old friends were invited to the Schlotter home Monday evening. Mrs. Harvey spent Saturday visiting her son in Merrill.

Mrs. W. E. Little and daughter Julia, who had spent the past five weeks in the east, returned home on Friday. Mrs. Little attended a two weeks school conducted by the Spinella Corset Company and Miss Julia visited with relatives. They report a very pleasant trip.

Francis, the little daughter of Mr. and Mrs. M. Hill of Rudolph, met with a painful accident last Thursday while playing in the hay-mow. Losing her balance she fell down through a hole in the floor into the stable below, and when medical aid was summoned it was found that the child's shoulder was broken.

J. C. Bell and family departed last night for (Moynan, Louisiana, where Mr. Bell will supervise the draining on the tract of land belonging to the White Lake Land company. Mr. and Mrs. Bell are leaving a large circle of Grand Rapids acquaintances who wish them success in their new place of residence.

S. N. Whittlesey of Cranmoor was a business visitor at the Tribune office on Friday. Mr. Whittlesey began picking berries in a small way on his marsh last week, but expected to start up with a full crew on Monday morning. He reports a fair crop of berries on his marsh and says other growers in that locality are similarly situated.

Reports received at the office of Secretary Crane of the State Horticultural Society show that over 75 carloads of Wisconsin strawberries, averaging three hundred bushels each, were shipped this year to points outside of the state. Most of the Sparta berries go to Minnesota and the Dakotas. Bayfield ships as far south as St. Louis.

Bob Friedrich, of Nekoosa, was in the city last Saturday on his way to Chicago, where he took the boat between Frank Oetich and the Russian Lion on Labor day. He will be in Sheboygan Falls day after tomorrow to meet Abel, of Madison, in what promises to be an interesting match to those interested in the game, after which Bob will come back and wrestle Dave Sharkey in Rudolph on the ninth.

Miss Anna Abel spent Sunday at Waupun.

"No Hunting Allowed". Signs for sale at the Tribune office.

Miss Lucy Rosch left on Saturday for Milwaukee where she will finish her course in the normal school.

Hay attending high school would like a place to work for his board. Apply at Tribune office.

Mrs. Abner Atwood of Biron was a visitor in the city on Thursday attending to some business matters.

Mrs. W. C. Morrill returned last week from a two weeks visit with friends in the northern part of the state.

Dr. B. J. Clark and family, and J. S. Clark and family spent last Sunday at one of the club houses above Biron.

Miss May Johnson returned on Wednesday evening from a six weeks visit in Madison, Janesville and Milwaukee.

T. P. Peckenham sold his Maxwell rambler last week to Rev. Dowey, who will use the machine in his work in the nearby towns.

Prof. M. H. Jackson returned home Saturday afternoon after a few weeks summer institute work at Fowler and South Bend, Indiana.

Mrs. F. C. Brockhausen and little daughter left last week for Milwaukee where they will visit with relatives for a couple of weeks.

A suitable wedding gift is usually a hard thing to select. This week's ad of the First National Bank makes a good suggestion along this line.

Mrs. J. W. Natwick and Mrs. M. H. Jackson were in Nekoosa Monday evening to attend an informal party at the home of the former's sister, Mrs. Wm. Hooper.

Miss Anna Hayward of Nekoosa, is paying a two weeks' visit at the home of her nephew, E. L. Hayward, principal of the Grand Rapids business college.

Mr. and Mrs. Glen Ross, of Tomahawk were in Grand Rapids Tuesday and Wednesday. Mr. Ross came down to throw for the locals against Fox Lake.

D. Rochelle, who resides up river near the Portage County line, has been under the weather for a week past, but has been able to be about most of the time.

Sixty-five carloads of strawberries were shipped out of Sparta this year. This amounts to over 37,000 cases of 16 quarts each. Sturgeon Bay shipped 16 cars of strawberries.

Fred G. Rockwood, formerly of Vesper, who has spent the past year doing carpenter work in South Dakota, returned to Grand Rapids last Saturday with the intention of taking up work for the fall months.

Miss Mabel Hamilton, who had been spending her vacation at the home of her parents, Mr. and Mrs. C. L. Hamilton, left for Oshkosh on Friday to take up her work in the schools there again.

Wm. Jackson of the town of Seneca brought in a large apple on Monday morning, the fruit having been raised on his place. It is a fine spread and demonstrates that some apples may be raised in Wood County.

Frank Androwsky of the town of Sigel favored the Tribune with a pleasant call on Monday while in the city. His school was to open on Tuesday, they having remained closed on Monday on account of Labor Day.

Misses Katherine and Dorothy Steele returned Saturday night to their home in Port Edwards after an extended tour through the east, visiting for a greater part of the time with relatives at Dorchester, Massachusetts.

John Backley returned to this city Monday after spending the summer vacation at his home in Colorado. He will attend the Grand Rapids high school again this year and will live at the home of his grandmother, Mrs. Clara Arpin.

Bert McLees left on Monday for Marshfield and from there he goes to Oshkosh to visit with friends. The boys say that Bert intends to return to this city a benedict, having selected a young lady in Oshkosh for the future Mrs. McLees. Well, Bert has our best wishes in case anything of the kind occurs.

Miss Ruby Natwick leaves tomorrow for Chicago to resume her study of vocal music. She expects to leave in November for a winter concert tour with a ladies' quartette, known as "The College Girls' Quartette," an organization which has already made a number of successful appearances in Chicago.

Later Day was observed in this city by the banks and postoffice closing and the members of the different labor organizations taking a day off, but there was no public demonstration. In many places the members of the trades unions celebrated the event by a parade in the morning and a picnic dinner with doings of some kind.

The Cow and the Moon, presented at Daly's Theater on Sunday evening did not pull as large a crowd as it should considering the merit of the production. It was full of fun all the way thru and there were a number of mysterious effects that were good. The costumes were very nice and there was an abundance of singing.

The State Horticultural Society now publishes a 16 page monthly magazine, Wisconsin Horticulture, which is sent free to members of that organization. The fee for annual membership is but 50 cents and includes a copy of the Annual Report, a book of 250 pages, in addition to the magazine. F. Crane of Madison, is the Secretary.

S. H. Smart left this city about a month ago for Florida and located near Jacksonville, where he had purchased a small tract of land. Mr. Smart had been troubled considerably with rheumatism during the winter months in this country, and hoped by the change to get rid of his old malady. Recent advices from Mr. Smart are to the effect that while he has not suffered any from rheumatism, he has been inconvenienced considerably by the excessively warm weather.

Fred Finup, who has been at Alliance, Ohio, during the past year, returned to this city last week and expects to spend a few weeks visiting his people in the town of Sigel.

Announcements have been received concerning the marriage of Gay Wood of this city, and Miss Helen Hayden, of Lexington, Kentucky. They will be at home in Eau Claire after October first.

Mr. and Mrs. Frank Abel, who have been living at the home of the former's parents on Tenth street, are moving into the house at the corner of Oak and Fourth street recently vacated by J. C. Bell and family.

C. W. Root, of the Road Construction Company, left yesterday over the Green Bay and Western for Alberta, Minnesota, and Gretna, Nebraska. He will spend some time looking over prospect work in the two states.

The automobile factory question is still a live one, although as yet the interested parties have not gotten on the grounds to exhibit their machines. S. F. Darga, of the Grand Rapids Commercial Club, says that the matter will probably be settled this week.

Armor Plate hose is not made of course, heavy yards, that isn't the secret of its great wearing qualities. It wears better because it isn't rotted in the dyeing process like most hose is. You'll be interested to hear more about this wonderful hose. At the Fair, west end of the bridge.

An Appleton man has invented a mechanical cow milker which is said to be a perfect success in every way and on which he has applied for a patent. The new milker is different from those that have gone before, as once it has been applied to the cow, it remains there, and all that is necessary is to hang a pail on the harness, turn a faucet and draw off a pail of milk. "Milkers may come and milkers may go, but it is probable that Uram, armed with a tin pail and a one-legged stool, will continue to coax the lactal fluid from the milk-eyed bovine in the same old way for some little time yet.

Biggest Fair of the Season.

Manager John Bell reports that the monthly stock fair to be held next Tuesday, will be the biggest thing of the kind ever held in this city. He reports that there is an unprecedented demand for horses, both draft and driving animals and farmers and others having such for sale are instructed to bring them in.

The ladies of the different churches are notified that if they have any articles of furniture which they want sold for the benefit of the church, that the articles will be auctioned off free of charge.

The Packing house will pay Chicago prices for all fat stock.

The Grand Rapids Brewing Company will give an eighth of beer to farmer bringing in the largest number of empties.

Those having farm machinery, wagons or buggies which they want to dispose of are instructed to bring them in.

There is a good demand for little pigs. Also a number of new milch cows wanted.

Don't forget the day and date, Tuesday, Sept. 11.

How to Kill Flies

To clear rooms of flies carbolic acid may be used as follows: Hunt a shovel or any similar article and drop thereon 20 drops of carbolic acid. The vapor kills the flies.

A cheap and perfectly reliable fly poison, one which is not dangerous to human life, is bichromate of potash in solution. Dissolve one dram, which can be bought at any drug store, in two ounces of water, and add a little sugar. Put some of this solution in shallow dishes, and distribute them about the house.

Sticky fly paper, traps and liquid poisons are among the things to use in killing flies, but the latest, cheapest and best is a solution of formalin or formaldehyde in water. A spoonful of this liquid put into a quart of a pint of water and exposed in the room, will be enough to kill all the flies.

To quickly clear the room where there are many flies—burn pyrethrum powder in the room. This stupefies the flies when they may be swept up and burned.

If there are flies in the dining room of your hotel, restaurant or boarding house, complain to the proprietor that the premises are not clean.

Commercial Club Membership Now 150.

S. F. Darga, Industrial Agent of the Commercial Club, report for the month of August shows that the membership of the club is now 150 with prospects of making it 175. Nearly all of the members have paid their dues.

During the month of August 47 different industries have been asked to locate in this city.

Replies received from 18.

5 representatives of industries seeking new locations have visited the city.

Negotiations now being carried on with 8 industries including automobiles, ball bearings, stoves, brooms, dredges, woolen goods, condensed milk and corrugated iron culverts.

There is improvement in many lines of merchandising, brought about by the general feeling of community interest of the people of this city.

The citizens are becoming real boosters and many are realizing the effects.

To those who are not patronizing home merchants and industries we would ask:

"Would you purchase a horse by mail?" You certainly would not. You know from experience what you would get in a horse trade under such conditions. Then why not exercise the same good judgment in the purchase of clothing, furniture, groceries, hardware, lumber, jewelry, drugs, and other necessities that you would use in selecting a horse. Circulate your money at home and make a larger and more prosperous city.

Changes in School Laws.

Below is given a synopsis of some of the important school laws for the guidance of parents, scholars and teachers, passed by the legislature this year and which are now in effect.

It forbids spitting on the floors of school houses and other public buildings. Requires notices to be posted in such buildings forbidding spitting and requires that spittoons be provided and properly cleaned and disinfected.

Saturday, June 22, 1912, sees the end of the township system of school government in Wisconsin. The township may still be the school district, but must be organized and run as an independent district. The town board of supervisors, after granting a public hearing, shall proceed to create one or more suitable independent districts. This meeting shall be held between March 1 and June 1, 1912, and the resulting order shall be effective June 22 following.

In theory the township system seems ideal, but so many abuses and defects were connected with its practical administration during the many years of its existence in Wisconsin that the legislature cut the Gordian knot by abolishing it. The system prevailed mainly in the northern part of the state.

History of Wisconsin is specifically added to the subjects that shall be taught in every district school. In as much as this subject has been taught as a part of the history of the United States, this law will mean in effect that the history of Wisconsin shall receive more time and attention than heretofore.

School boards are authorized to permit the use of school houses for such civic, social, and recreational activities as in their opinion do not interfere with the use of the buildings for school purposes.

Non-partisan, non-sectarian, and non-exclusive association of citizens of the community shall be allowed the use of school buildings free of charge.

In cases where there are children of school age living more than two miles from the school house in the home district and transportation is not provided, and there is another school in an adjoining district nearer to the home of such children by half a mile or more the children shall be privileged to attend the nearer school. The school district in which the children live shall pay their tuition, not, however, to exceed \$1.00 per month if they attend a rural school or \$1.75 per month if they attend a state graded school or grades below a free high school.

The rates above named are also the maximum charge that can be made by a district in cases in which the parent or guardian pays the tuition.

Chapter 545 of the laws of 1911 appropriate to each school maintaining a department of manual training, or domestic economy, or agriculture, or any or all of said departments, one-half the amount actually expended for instruction in each such department, not, however, to exceed \$350 for each department above named which shall have been maintained in connection with the high school and the three upper grades below the high school, but not to exceed \$250 for each department named maintained only in connection with the high school.

Under this act a school district maintaining courses in agriculture, domestic economy, and manual training in both grades and high school may receive as much as \$1,000 per year of special state aid.

Chapter 555 adds \$25,000 annually to the district free high school fund. This makes the amount \$100,000. The increase will add approximately \$100 to the apportionment to each district high school, which last year amounted to \$350.75.

The law provides that the certificate granted to a graduate from a county training school for teachers shall have the full force and effect of a third grade certificate as issued by a county superintendent, and shall be valid for three years in ordinary cases and if the holder shall have completed a four-year high school course and taught successfully for seven months, the certificate shall be valid for five years and legally qualifies the holder to teach in any department of any state graded school, the principalship of a state graded school of the first class excepted.

This important measure provides that whenever the electors vote to close the school in any rural school district and provide transportation and tuition for all persons of school age who may desire to attend school in a district maintaining a state graded below a free high school or a first class rural school for at least thirty-two weeks in the year, etc., the district closing the school may receive as special aid, in addition to the moneys received from the distribution of the usual school fund, \$1.50 annually. If arrangements are made to transport the children to a rural school, the building must be equipped, maintained and taught under the provisions relating to a rural school of the first class.

HOW IT LOOKED TO A RUDOLPH SPORT

Who is John Little? This question was asked in the Milwaukee Journal a few days ago. Ask Nekosoa. Rob Fredericks, the Nekosoa strong boy started in to throw John Little of Milwaukee three times in one hour at Daly's opera house last Thursday. Both boys came together in the center of the mat with a hand shake. The fight commenced. The umpire only lasted a couple of minutes and Rob managed to get his worthy antagonist to the mat. But oh, in what a funny position. Instead of being on his back as Rob intended he should be, John was sitting in an upright position on the mat. This being a comfortable position he decided to stay there a few minutes and pass away the time. Not being in the right position so that the referee could call him down Rob understood to change his position but all in vain. That could not be done. The crowd suggested using a cant hook stump machine and all other means of handling heavy loads, but all in vain. The mat of 150 lbs. could not be moved.

This being play, and tired of play, Little decided to stand on his feet. This was easily done. Being on his feet and in no danger he started after Rob. Pushing him all over the stage he finally found a soft spot (barn covered with a canvas). This being a good place he picked up his load of 210 lbs. and placed it gently on the mat, almost in a position that could be called a fall. The balance of the hour Rob was on the defense.

Business College Has Good Opening Attendance.

The Grand Rapids Business College opened Monday morning with 20 students enrolled, representing nearly every section of Wood County. It is expected that several more will enter the school before the end of the week. This opening attendance exceeds any of the previous years, and the present aspect gives promise of a successful year.

The school is now located in its new headquarters above the Nash Grocery Company, supplied with the best of equipment, and situated in one of the most favorable parts of the city. It surpasses the average business college in its furnishings and facilities for carrying on its work. Night sessions will commence in October, according to an announcement made by Pres. E. L. Hayward yesterday.

RUDOLPH

Father John O'Reilly, who has been on a vacation to his old home in Canada, and has been sight seeing in different places, arrived here Thursday evening, and will spend some time here.

Mrs. Pat Case went to the Rapids Wednesday noon to stay some time with her sister, Mrs. P. Conway.

Our Catholic Sisters went to the Rapids Wednesday to see the sisters before their departure.

David Sharkey and Rob Fredericks will wrestle in Marceau's hall Saturday evening Sept. 10th. The best two out of three to win. Ladies are invited. This will be Daves' last wrestle before his departure for Canada, where he will spend a few weeks.

School began Monday in Dist. No. 4, with Miss Maud Moulton of Grand Rapids as teacher.

Mrs. Tom Foley of Grand Rapids spent Sunday with Mrs. Emil Hansen.

Dr. Jackson attended the medical convention at Marshfield Wednesday evening, returning home Thursday.

Mrs. Styles of Beloit came up on the way Friday Wednesday and visited her parents, Mr. and Mrs. J. Borokor, until the night train.

The ladies aid of the Moravian church met with Mrs. Korslin last Thursday p. m. A large crowd was in attendance and \$5.00 was collected.

Mrs. C. O. Chase and son, Clark, at Stanley, W. D., spent last week with Mrs. C. O. Hassell.

Mrs. C. O. Chase and C. O. Chase went to Junction City Saturday evening and visited until Sunday evening with friends.

There was a shingling bee at Mose Sharkey's last Thursday to shingle his new home.

Emil Haunschild has erected a new shed back of his place of business which will be greatly appreciated by his patrons.

Mr. and Mrs. Jeff DeMars of Biron arrived here Friday evening for a short visit at the home of his parents, Mr. and Mrs. Geo. Bates. They have just returned from Rochester, Minn., where Mr. DeMars was operated on for a cancer.

Arthur Clark arrived home Saturday evening from the north where he has been out camping.

Mary and Albin Kujawa departed Saturday morning for Stevens Point, where they will attend school this year.

Misses Marie and Selma Kurgor spent last Thursday at the Andrew Sharkey's home.

Dr. Jackson went to Wausau Friday morning to operate on Mrs. Kujawa, who lives in Grand Rapids.

Misses Mabel Wittenberg, Martha Krowi and Willie Wittenberg of Nekosoa, and Willie Brown of Grand Rapids spent Sunday with Norma and Armetta Bate.

Mrs. Nick Ratelle went to the Rapids Friday noon to see her mother, who is sick in bed with an attack of bronchitis. At this writing she is a little better.

Mrs. Winfield Scott went to Tomahawk Sunday to spend a few days with her son, Albert.

ADDITIONAL LOCALS

Henry Ebert transacted business in Minocqua on Tuesday.

Miss Anna McMillan leaves on Friday to resume her teaching at the Stout school.

Miss Kukulak Searles leaves on Saturday for Monomonic where she will study domestic science this year.

Mrs. Henry Hahner has purchased a house and lot of Mrs. Lester on 10th avenue north. The price paid was \$2100.

Will Kellogg, Jr., Fred Gaffney and Clarence Christenson are enjoying a week's outing at the east side club house above Biron.

Messrs. E. M. Denning, E. C. Pers, P. N. Christenson and Dave Harney of Marshfield transacted business at the court house on Tuesday.

Mr. and Mrs. E. J. Luce, P. W. Reinisch and Miss Mabel Pratt of Plainfield were guests at the W. C. Slater home over Sunday.

Edward J. Baldwin returned last Saturday from Milwaukee where he has been attending the Northwestern school for the past six weeks.

Archie McMillan, who has been sick with typhoid fever for several weeks past, is somewhat better, although still confined to his bed and very weak.

Charles Loeffelbein, who has been located at Rockford, Ill., for some time past, arrived in the city on Tuesday to visit with his people for a couple of weeks.

Kenneth McManley has had quite a catchy display in the window of the hardware department of the Johnson & Hill Co. of late, which depicts a hunting scene with the paraphernalia that goes with it.

Henry Halvorson is putting up a new home on the lot upon which the old Grace House barn formerly stood. It is to be a 28 by 30 frame house and the work is being done by John Martenson of Morrill.

Charles Natwick returned on Tuesday morning from the east, having visited his brothers Henry and Joseph at Baltimore, Md., for a week. On his way home he stopped at Chicago and attended the Gorch-Hackenschmidt wrestling match.

O. J. Fay, who spent the past summer at Ellsworth, near Sturgeon Bay, where he was conducting a summer resort hotel, returned to this city on Tuesday. Mrs. Fay is still at Sturgeon Bay, but expects to return later. Mr. Fay reports having had a very good business.

—Marjorie Sweet and Beatrice Torry who are the comedians with the Messenger Boy, are pretty, winsome and petite, their charming personalities and marvellous specialties receive unlimited praise everywhere. See the Messenger Boy at Daly's Theatre, Sunday Sept. 10. Popular Sunday night prices.

Frank Whitlock, the melon man, reports that the warm weather of the past week has ripened both the water and musk melons very rapidly so that he has had an abundance to supply all of the demands, something unusual in this locality. The melons this year are of good flavor and fine quality throat.

Mr. and Mrs. Martin Jacobson returned Thursday after spending a year and a half at Great Falls, Montana, where Mr. Jacobson was engaged in the grocery business. Mr. Jacobson, who is a brother of J. O. Jacobson, states that he intends to make Grand Rapids his permanent home hereafter, and will build a residence on Fifth street south.

Before returning to Grand Rapids Mr. and Mrs. Jacobson paid an extended visit in Spokane and in different parts of Canada.

ALTDORE.

Mrs. E. W. Sawyer of Milwaukee spent a couple of days the fore part of the week visiting Mrs. O. J. Lou.

We have a rather deserted community here at present as about one-half of the population has departed for the cranberry marshes.

No one is so fortunately unfortunate as A. Huser. He has so much corn this year that he does not know what to do with it. He has his silo filled and over half of his crop left outside.

Mrs. A. Schiller had a horse badly cut by a fence last Saturday night, the right foot being cut about half off.

We notice road Dist. No. 2 is doing some good work laying the road leading out here, but what about No. 3? It was the intention to have the whole road graded from Elm Creek to Geo. Tolman's place this summer but as yet nothing has been done. Every rain leaves this piece of road in very poor condition and it is getting rather late for grading now. Seeing there are so many settlers along that road we believe it would be wise to attach district No. 3 to 4 as it is the people of No. 4 who have to travel it mostly and in that way we would probably get a good road to Grand Rapids. Dist. No. 4 makes it a point to do its road work early and in a proper manner so that we have some of the best roads in the county in here.

KEILLNER.

The Mission festival of the Lutheran church will take place next Sunday. The services will be conducted by the Rev. Kretzenman of Neokosora and Rev. Pantz of Sherry.

Mrs. Draeger of Princeton is visiting at the home of her daughter, Mrs. F. Gray.

Miss Crystal Munroe is attending Business College in your city.

Mrs. Ang. Kaith, who has been seriously ill for some time, was able to attend church and visit among neighbors.

Rev. Nommensen and family spent Thursday at the Rev. A. Krucho's home.

It is reported that Messrs. Withers, Meyers, J. Yetter and E. Timm have sold their farms.

Mrs. A. Krucho spent Sunday at Stevens Point.

The last Sunday train was run thru our burg on Sept. 8rd.

Mr. and Mrs. Wm. Arndt had their infant son baptized last Sunday at the Lutheran church.

Miss Harriet Williams

Teacher of Piano
Studio 214, 3rd st. S. Phone 432

D. J. Hotchkiss, editor of the Fox Lake Representative was in the city on Tuesday, having come up with the baseball team. The Tribune acknowledges a pleasant call.

SARATOGA.

Prof. Jackson will deliver a lecture in the meeting house on Monday evening, September 11, 1911 at 7:30 o'clock. Everybody is invited to come and spend a profitable evening in the church.

Mr. and Mrs. Lee B. Margery are entertaining the latter's father from Illinois this week.

Henry Dietrich of Chicago is visiting at the Glens. Dietrich home this week. Mr. and Mrs. Eyerstadt and family of Kellner spent Sunday at the William Anderson home.

Miss Mabel Johnson went to Grand Rapids Monday to resume her school duties at the Wood Co. Training School.

Severt Hansen of Randolph, Wis., spent Sunday at home.

Mrs. Mary Dixon and Mrs. Peter LeBelle spent Monday at the home of the latter's parents, Mr. and Mrs. Frank Gallagher.

Charles Lorenz of Chicago arrived home Monday for a visit with his parents Mr. and Mrs. Otto Lorenz.

Our boys played ball with Spring Branch boys Sunday afternoon. The latter were defeated.

Miss Minnie Ross began school in Dist. No. 5 last Monday.

Our Johnstons who have been spending the summer in Kilbourn arrived here last Saturday.

Mr. and Mrs. Emil Larson of St. Paul and Mrs. O. Larson of Grand Rapids, spent Tuesday at the home of the latter's sister, Mrs. Pauline Hansen.

Miss Nora Hansen of Waupaca spent the latter part of last week visiting Messrs. Clara and Emma Johnson.

Waldo Dahl of Kilbourn is visiting relatives in this vicinity.

K. F. Kuntson was quite sick last week.

BIRON

Paul and Earl Akey, Genevieve, Jessio and Bernadette Gaffney, and Irving Willmott entered the Lincoln High school as sophomores Monday.

Miss Sophia Oleson entered the Grand Rapids Business College, where she will take a course in stenography and bookkeeping.

Mr. and Mrs. Jeff DeMars returned Sunday from Rochester, Minn. They will return in about ten days or so where the former will continue taking treatments under the Mayo doctors. He is doing as well as can be expected under the circumstances.

Harold Will of Eau Claire, was the Sunday guest of Miss Notta Akey. Wedding bells will soon be chiming in our burg. It is unnecessary to state where further information may be obtained.

School opened Monday with Frank Nitz of your city and Miss Floy Margeson of your city, and Sadie Baker of Marshfield as assistants.

Mr. and Mrs. Frank Bengert are the proud parents of a baby boy.

Mrs. Eugene Orotten of Mosinee arrived here last Friday very ill. She will remain here with her parents, Mr. and Mrs. A. Akey until she has regained her strength and is able to attend to her household duties. Mr. Orotten accompanied his wife here but returned to his work Monday.

Order Limiting Time To Present Claims and Notice to Creditors.
Sept. 6, 1911. State of Wisconsin, Wood County, in County Court.
In the matter of the estate of Charles Pearson, deceased.

It is the order of the court in the above entitled matter, that the time for the presentation of claims against the estate of Charles Pearson, deceased, shall be fixed as the time within which all creditors of the said Charles Pearson, deceased, shall present their claims for examination and allowance.

It is FURTHER ORDERED, That all claims and demands of all persons against the said Charles Pearson, deceased, be examined and adjusted before this court, at its Court room in the City of Grand Rapids, in said County of Wood, on the second Tuesday of March 1912 and all creditors are hereby notified thereof.

It is FURTHER ORDERED, That notice of the time and place at which said claims and demands will be examined and adjusted, and of the time above limited for the presentation of claims, be given by publishing a copy of this order in each week in the Grand Rapids Tribune, a newspaper published in the County of Wood, the first publication to be within fifteen days of the date hereof.

Dated this 6th day of September, 1911.
By the Court,
W. J. Conway, County Judge.

Sept. 6, 1911. State of Wisconsin Wood County, in Circuit Court.
Overbeck Brothers Manufacturing Company, (a corporation), Plaintiff,
vs.
Jasper H. Noyes and Noyes, his wife, William H. Davis and Davis, his wife, Asa S. Conway and Conway, his wife, and all unknown heirs, legatees and representatives, named, versus all unknown persons claiming in and to the premises hereinafter described.

State of Wisconsin to the said defendants and each of them:
You are hereby summoned to appear with twenty days after the service of this summons, exclusive of the day of service, and defend the above entitled action in the court aforesaid, and in case of your failure to do so, judgment will be rendered against you according to the demands of the complaint, of which a copy is herewith served upon you.

Geo. L. Williams, Plaintiff's Attorney,
Post Office address: Grand Rapids, Wood County, Wisconsin.

Mrs. Frank Steib is taking treatments for asthma in the sanitarium at Prairie du Chien.

W. A. Lutzinger, a traveling type writer repairer, who advertises himself as an expert in his line, is spending a few days this week in Grand Rapids. He says that he has been in the work for a great many years and is well up on the best and newest methods of restoring up old machines.

Mr. and Mrs. E. B. Redford spent the past few days at Wautoma, where Mrs. Redford's relatives reside.

Boat Capsized.

Howard Tishnor took a sudden and unexpected bath on Sunday afternoon while coming down the rapids below the Biron mill. He had been up fishing and his boat struck a rock and capsized, throwing his gun and fishing tackle into the water, which was about six feet deep at that place. He went up next day and after considerable effort succeeded in recovering all of his property, but little the worse for wear.

Recovers From Appendicitis.

Mr. Richard Bues who took sick with an acute attack of appendicitis about a week ago, is now on his feet and will soon resume his work at the mill. He is much elated to get rid of this dire chiropractic adjustment which he has been taking from Dr. Hoff of this city. We understand Dr. Hoff is making good in this city and have heard rumors that he has helped many people.

Rivers-Bates.

Miss Delia Rivers and A. L. Bates were married on Saturday afternoon in this city at the Methodist parsonage, Rev. F. A. Pease performing the ceremony. Mr. and Mrs. Bates will make their home in Rudolph.

Schuh-Deyo.

Louis Schuh and Miss Laura Deyo, of Port Edwards, both well known among the young people of this city, were united in marriage last week Tuesday at the home of Rev. F. A. Pease. Miss Loretta Nollner of Grand Rapids, and Harry Deyo of Port Edwards, attended the couple. Mr. and Mrs. Schuh will reside in Port Edwards where the former holds a position with the Nekosoa-Edwards Paper Company.

Will Go to Ashland.

W. J. Kleinbrook has sold his fruit stand to O. Doughty and expects to leave soon for Ashland where he has accepted the agency for the Western Express Company.

KRUGER & WARNER CO.

"The Home of Better Clothes" Grand Rapids, Wis.

HOW IT LOOKED TO A RUDOLPH SPORI

Who is John Little? The question was asked in the Milwaukee Journal a few days ago. Ask Nekosia. Bob Fredericks, the Nekosia strong boy, started in to throw John Little of Milwaukee three times in one hour at Daly's opera house last Thursday. Both boys came together in the center of the mat with a hand shake, then the fun commenced. The mixup only lasted a couple of minutes and Bob managed to get his worthy antagonist to the mat. Part of it was a funny position. Instead of being on his back, John was sitting in an upright position on the mat. This being a comfortable position he decided to stay there a few minutes and pass away the time. A few times in the right position so that the referee could call him down. But when he tried to change his position but all in vain. That could not be done. The crowd suggested using a cat neck stump machine and all other means of handling heavy loads but all in vain. The load of John Little could not be moved.

This being play and time of play Little decided to stand on his feet once more. This was easily done. Being on his feet and in a change he started after Bob. Pushing him all over the stage he finally found a soft spot (iron) covered with a canvas. This was a good place to pick up his load of 10 lbs and placed it gently on the mat, almost in a position that could be called a full. The balance of the four John was on the defense.

Business College Has Good Opening Attendance

The Grand Rapids Business College opened Monday morning with 20 students enrolled, representing nearly every section of Wood County. It is expected that several more will enter the school before the end of the week. This opening attendance exceeds any of the previous years and the prospect is given promise of a successful year.

The school is now located in its new headquarters above the Noyes Grocery Company supplied with the best of equipment and situated in one of the most favorable parts of the city. It possesses the average business college in its furnishings and facilities for carrying on its work.

Night sessions will commence in October according to an announcement made by Miss L. L. Hayward yesterday.

RUDOLPH

Father John O'Kelly who has been on a vacation to the old home in Chicago and has been sight seen in different places, arrived here Thursday evening and will spend some time here.

Mrs. P. C. Case went to the Rapids Wednesday noon to stay some time with her sister Mrs. D. Conway.

David Sharkey and Bob Fredericks will wrestle in a hall Saturday evening. The match will be at 10 o'clock and the referee will be in the city. This will be the first wrestling match since the strike which he will spend a few weeks.

School began Monday in Dist. No. 1 with Mrs. M. M. Moller as teacher and Mrs. Tom Foley of Grand Rapids as teacher.
